Coconut Factory ERP — Detailed User Manual / විස්තරාත්මක පරිශීලක අත්පොත

2026-10-16 · Chathuranga Nimantha

This manual walks through every screen of the Coconut Factory ERP, one click at a time, with a screenshot of what you should see. The short **User Guide** is still there for a quick overview; this one is for learning the system properly or looking up exactly how to do a job. / මෙම අත්පොත පොල් කර්මාන්තශාලා ERP හි සෑම තිරයක්ම, ක්ලික් එකින් එක, ඔබට පෙනිය යුතු තිර ඡායාරූප සමඟ පෙන්වයි.

How to use this manual / මෙම අත්පොත භාවිතා කරන ආකාරය

Chapter / පරිච්ඡේදය	Who reads it / කවුරුන් සඳහාද
1 Getting started	Everyone / සියලු දෙනා
2 Master data	Office staff, administrator / කාර්යාල කාර්ය මණ්ඩලය
3 Buying · 4 Production · 5 Selling · 6 Stock	Office staff, storekeeper, production / කාර්යාලය, ගබඩාව, නිෂ්පාදනය
7 Simple mode	Factory workers / කම්කරුවන්
8–12 Accounting and reports	Accountant, owner / ගණකාධිකාරී, හිමිකරු
13 Users and security · 14 Installing and updating	Owner, administrator, IT person / හිමිකරු, පරිපාලක
15 Troubleshooting and glossary	Everyone / සියලු දෙනා

- **Steps** are numbered. Words in **bold** are exactly what you see on the screen: a menu item, a button or a field. / පියවර අංක කර ඇත. **තද අකුරු** තිරයේ පෙනෙන වචනම ය.
- **Screenshots** come from a demonstration copy filled with sample figures. Your own names, numbers and dates will differ. Office screens are shown twice: first in English, then in Sinhala (සිංහලෙන්). / තිර ඡායාරූප නිදර්ශන දත්ත සහිත පිටපතකිනි; ඔබගේ නම් සහ අංක වෙනස් වනු ඇත.
- **What you can see depends on your role.** If a menu item in this manual is missing for you, your role does not include it. Ask the administrator. / ඔබට පෙනෙන දේ ඔබගේ භූමිකාව මත රඳා පවතී.
- **Draft, approve, post.** Most documents start as a *draft* you can change freely. *Posting* makes it final: stock and accounts change, and it can then only be *reversed*, never edited. / කෙටුම්පත වෙනස් කළ හැක; **සටහන්** කළ පසු එය අවසාන ය — ආපසු හරවිය හැකි පමණි.

1. Getting started / ආරම්භ කිරීම

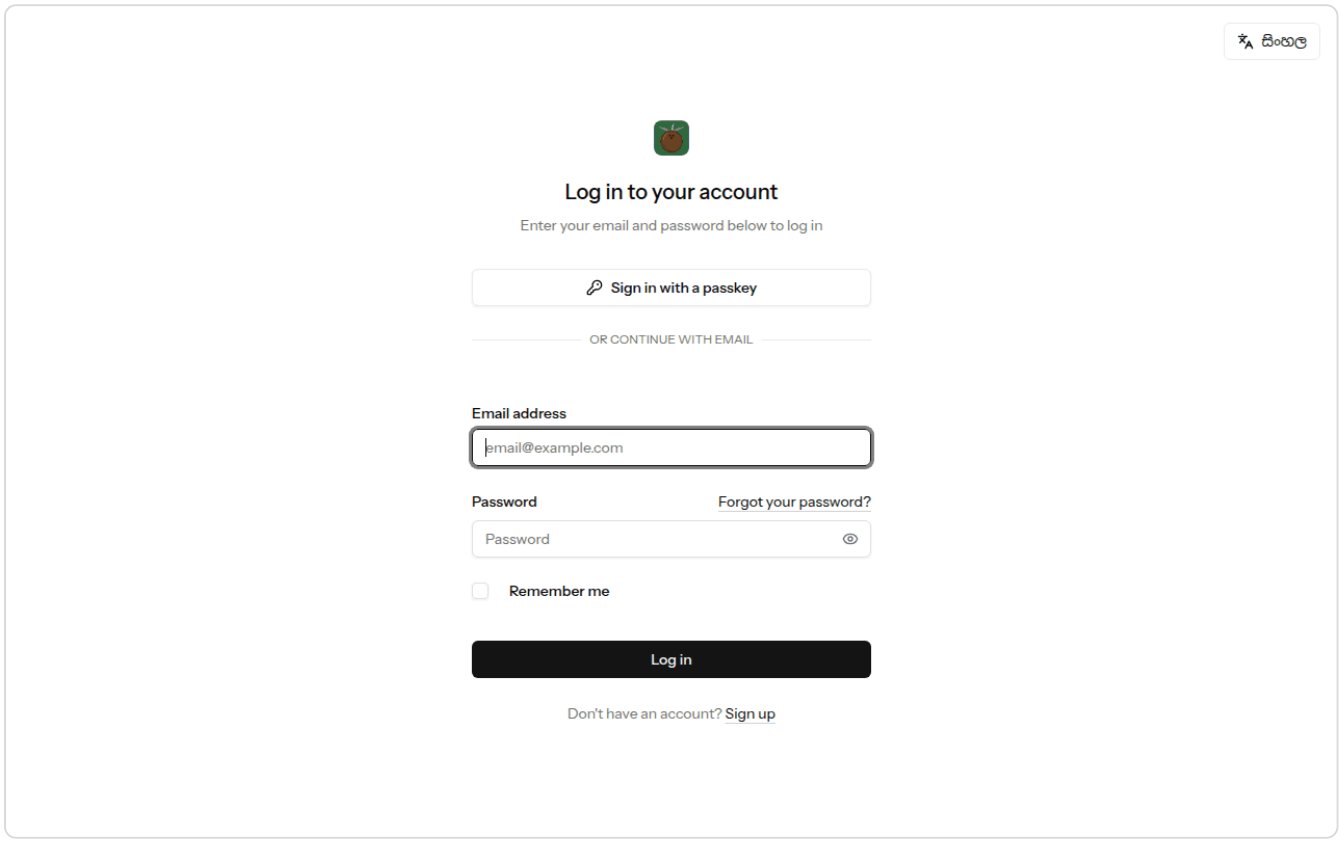

1.1 Opening the system / පද්ධතිය විවෘත කිරීම

1. On any computer, tablet or phone connected to the factory network, open a web browser (Chrome or Firefox) and type the address the administrator gave you, for example `https://192.168.1.20`. / කර්මාන්තශාලා ජාලයට සම්බන්ධ ඕනෑම උපකරණයක බ්‍රවුසරය විවෘත කර පරිපාලක දුන් ලිපිනය ටයිප් කරන්න.

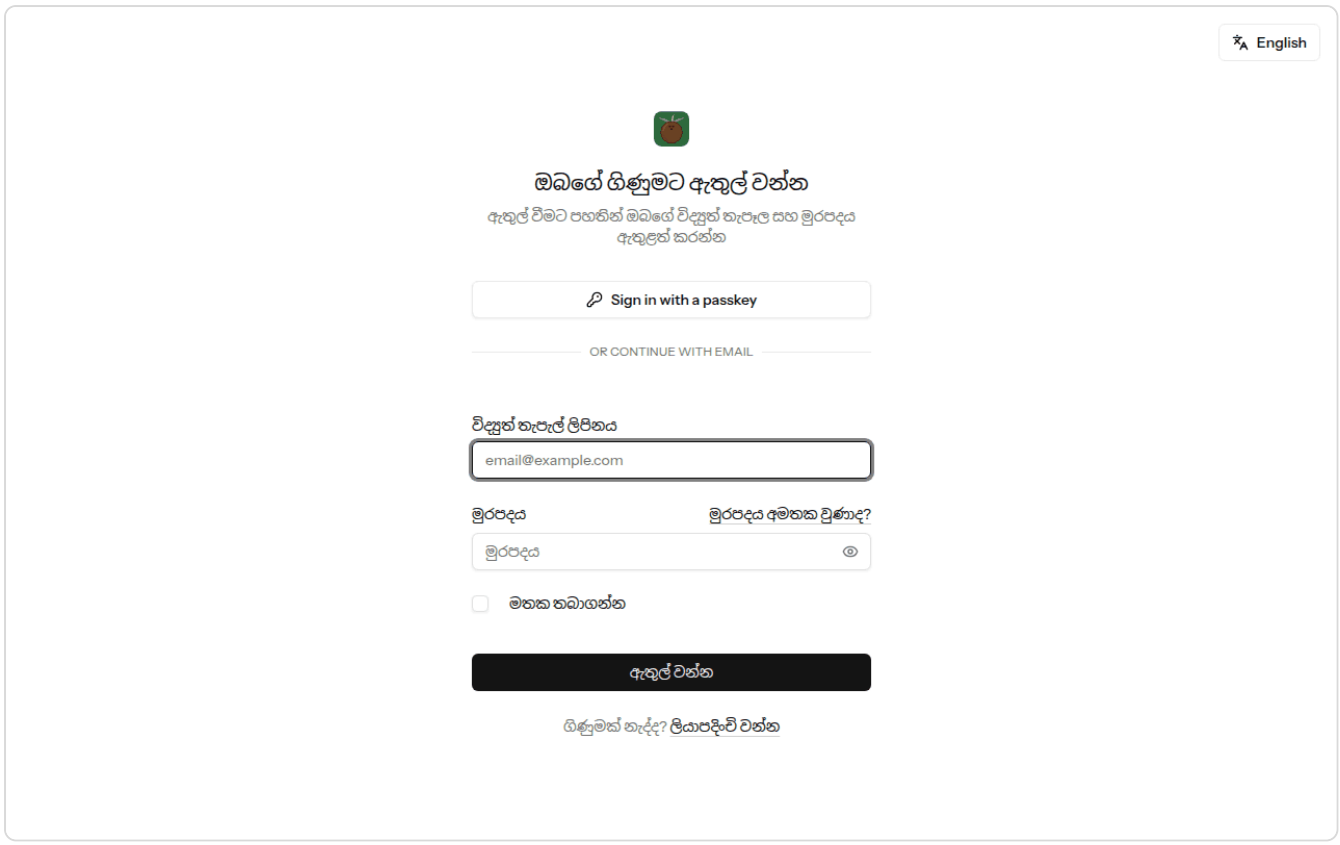

2. **On the server computer itself** you can instead open **Show Apps** and click **Coconut ERP**. / සේවාදායක පරිගණකයේ **Show Apps** හි **Coconut ERP** ඔබන්න.

3. The first time on each device, the browser warns that the connection is not private. Choose **Advanced**, then **Continue** (or **Proceed**). You will not see it again on that device. / උපකරණයක පළමු වතාවේ ආරක්ෂක අනතුරු ඇඟවීමක් පෙනේ: **Advanced** → **Continue** තෝරන්න.

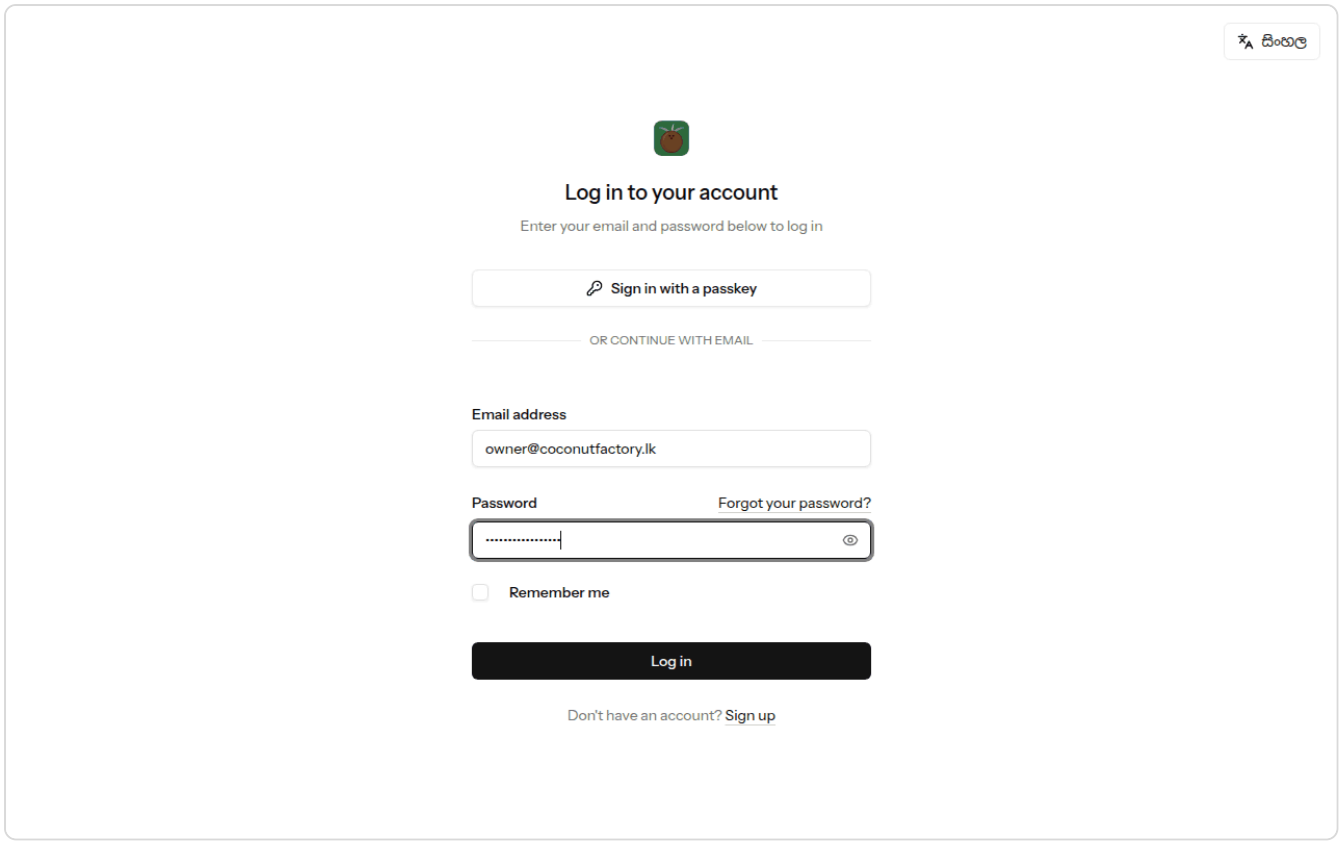

1.2 Signing in / ඇතුල් වීම

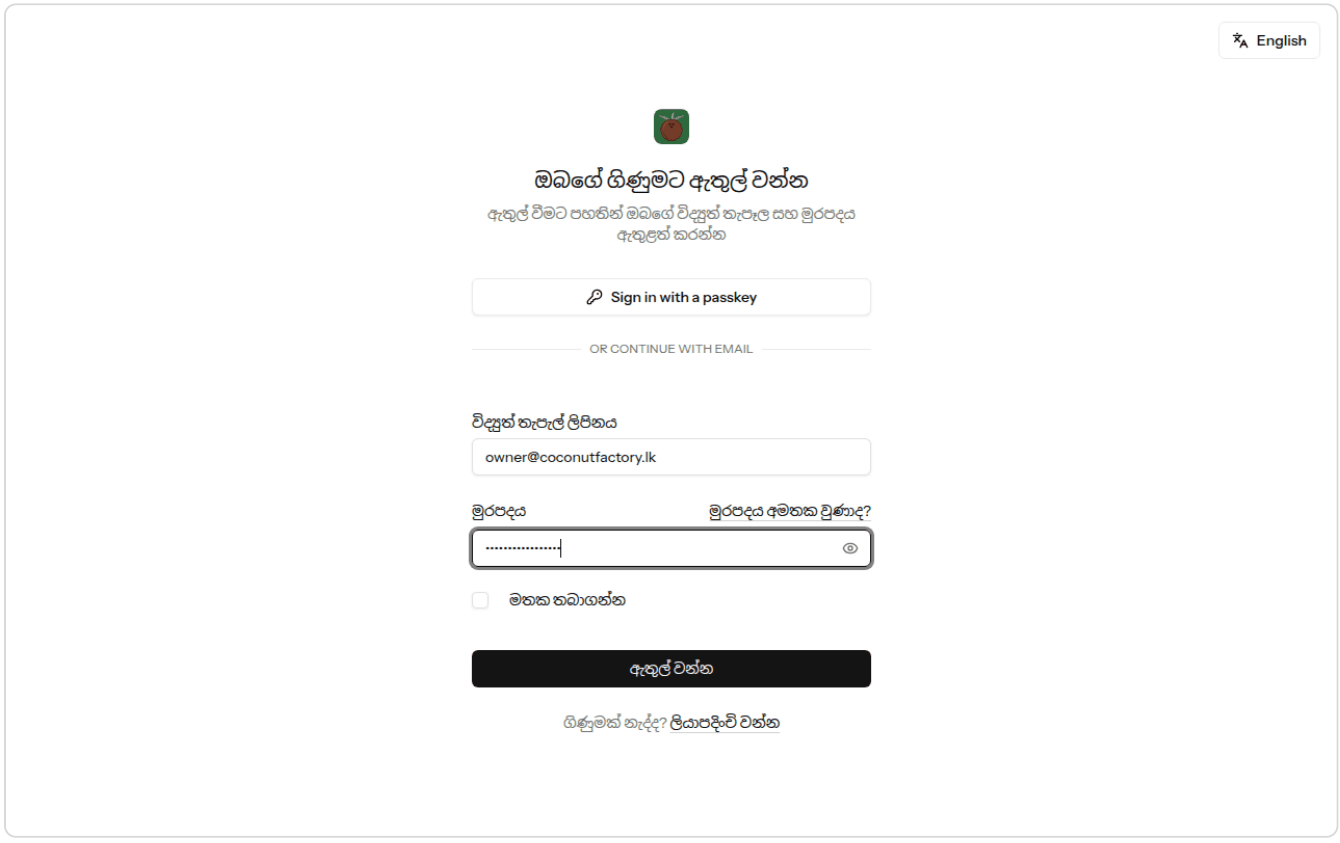

සිංහලෙන් / In Sinhala

1. Type your **Email address** and **Password**. / ඔබගේ email ලිපිනය සහ මුරපදය ටයිප් කරන්න.
2. Tick **Remember me** only on a device that only you use. / **Remember me** තෝරන්නේ ඔබගේම උපකරණයක පමණි.
3. Click **Log in**. / **Log in** ඔබන්න.

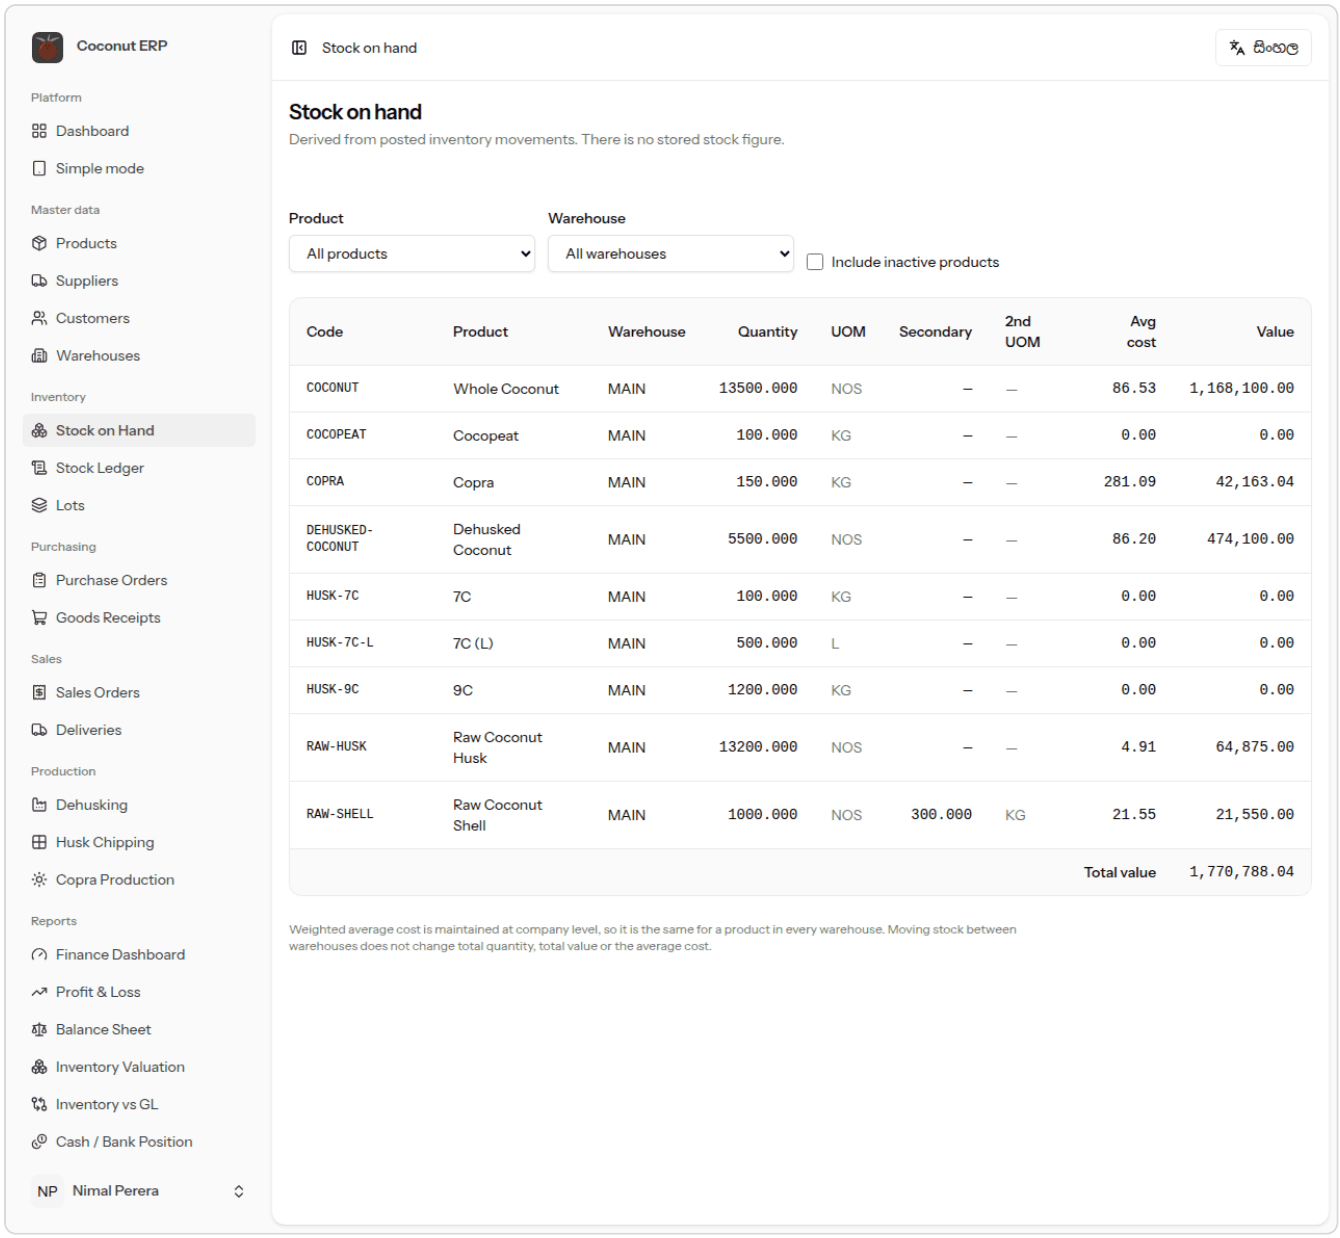

සිංහලෙන් / In Sinhala

- **Sign in with a passkey** works once you have added a passkey in Settings → Security (Chapter 13). / passkey එකක් එකතු කළ පසු එයින් ද ඇතුල් විය හැක.
- **Forgotten password:** ask the person who installed the system (Chapter 13). Password reset by email is not set up. / මුරපදය අමතක නම් පද්ධතිය ස්ථාපනය කළ අයගෙන් ඉල්ලන්න.

- **A new person sees almost nothing** until the administrator gives them a role (Chapter 13). / භූමිකාවක් ලැබෙන තෙක් නව අයට කිසිවක් පෙනෙන්නේ නැත.

1.3 The screen layout / තිරයේ සැකසුම

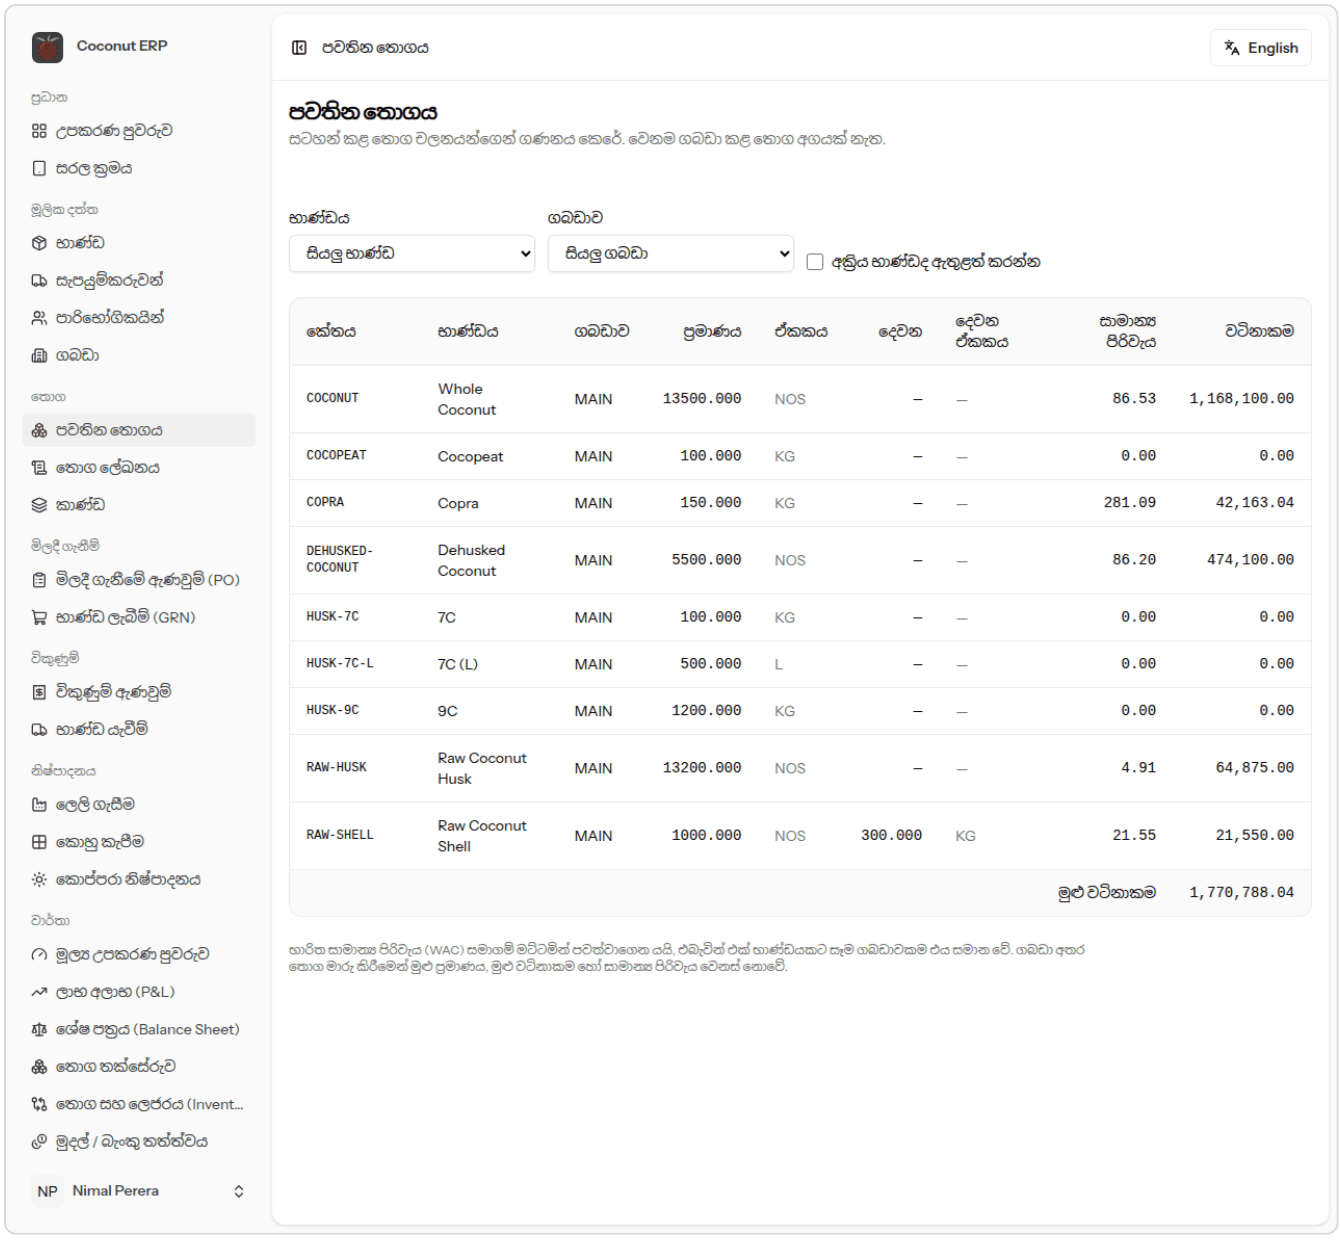

සිංහලෙන් / In Sinhala

- **The menu (left)** is grouped by work: Master data, Inventory, Purchasing, Sales, Production, Reports, Finance and Administration. Click any item to open it. / **වම් පස මෙනුව** වැඩ අනුව කණ්ඩායම් කර ඇත.
- **The top bar** shows where you are (for example *Suppliers › New supplier*: click *Suppliers* to go back) and the **language button** on the right. / **ඉහළ තීරුව** ඔබ සිටින තැන සහ භාෂා බොත්තම පෙන්වයි.
- The small panel icon at the top left hides the menu to give the page more room. Click it again to bring the menu back. / ඉහළ වම් කෙළවරේ අයිකනයෙන් මෙනුව සඟවන්න / පෙන්වන්න.
- **Lists** (purchase orders, deliveries, invoices…) have filters at the top. Click a document number to open it. / ලේඛනයක් විවෘත කිරීමට එහි අංකය ඔබන්න.
- **Fields marked with a red *** must be filled in. A small grey note under a field explains it. / රතු * සහිත කොටු අනිවාර්යයි.

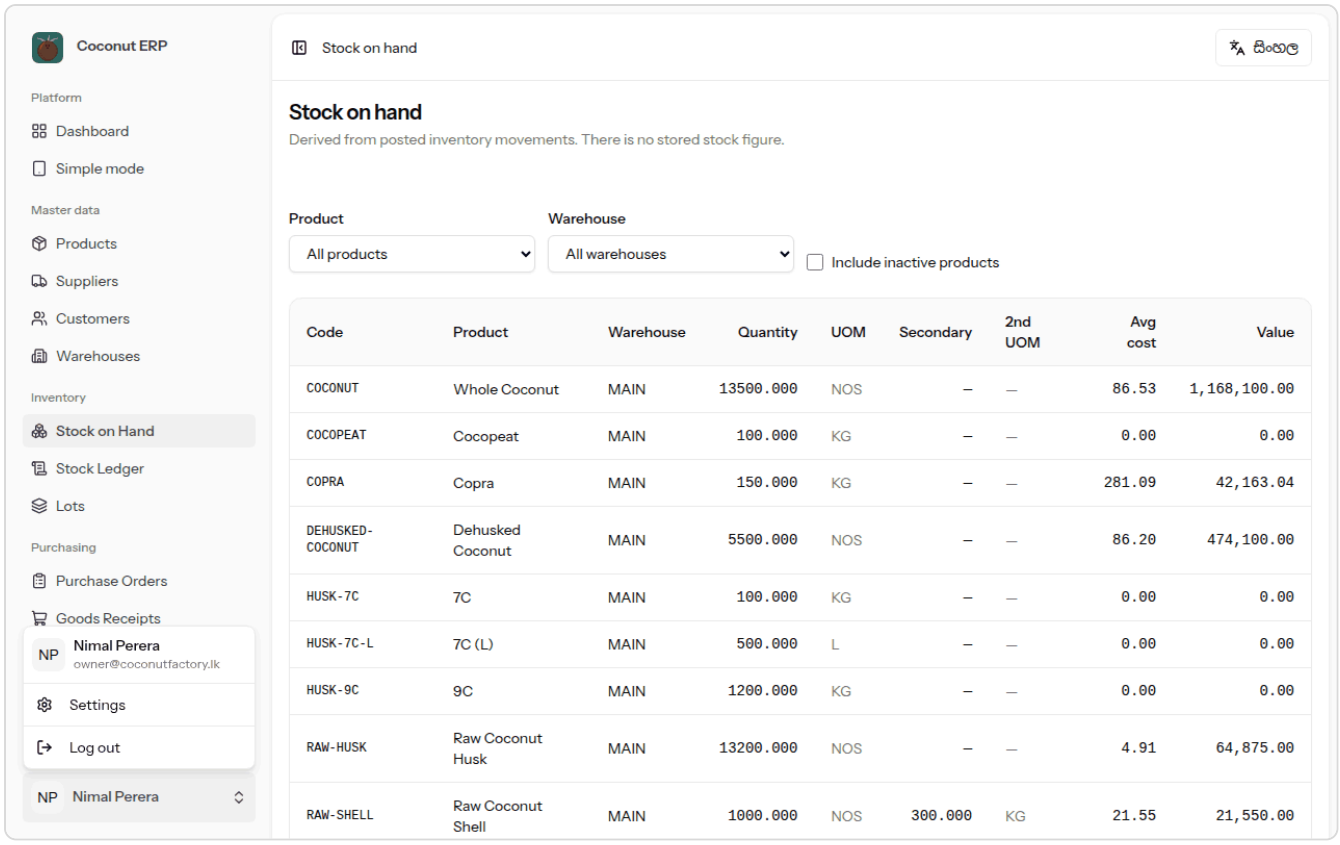

1.4 Changing the language / භාෂාව වෙනස් කිරීම

Click **සිංහල** at the top right: every screen, including the menu, changes to Sinhala. Click **English** to change back. The system remembers your choice for you, so other people keep their own language. Records you save (journals, notes) are stored in English either way. / ඉහළ දකුණු කෙළවරේ **සිංහල** ඔබන්න; ආපසු යාමට **English** ඔබන්න. ඔබගේ තෙරීම මතක තබා ගනී.

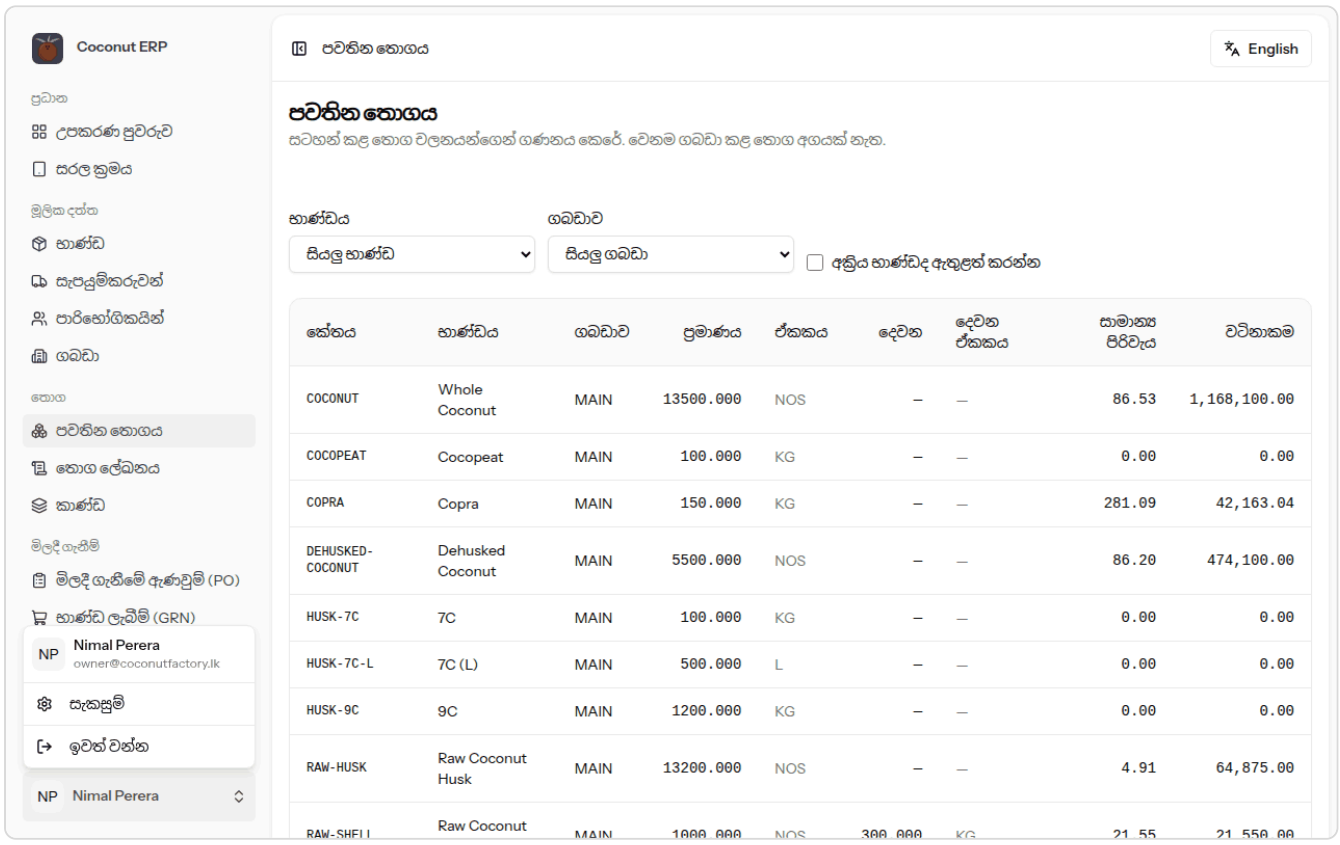

1.5 Your menu, settings and signing out / ඔබගේ මෙනුව සහ ඉවත් වීම

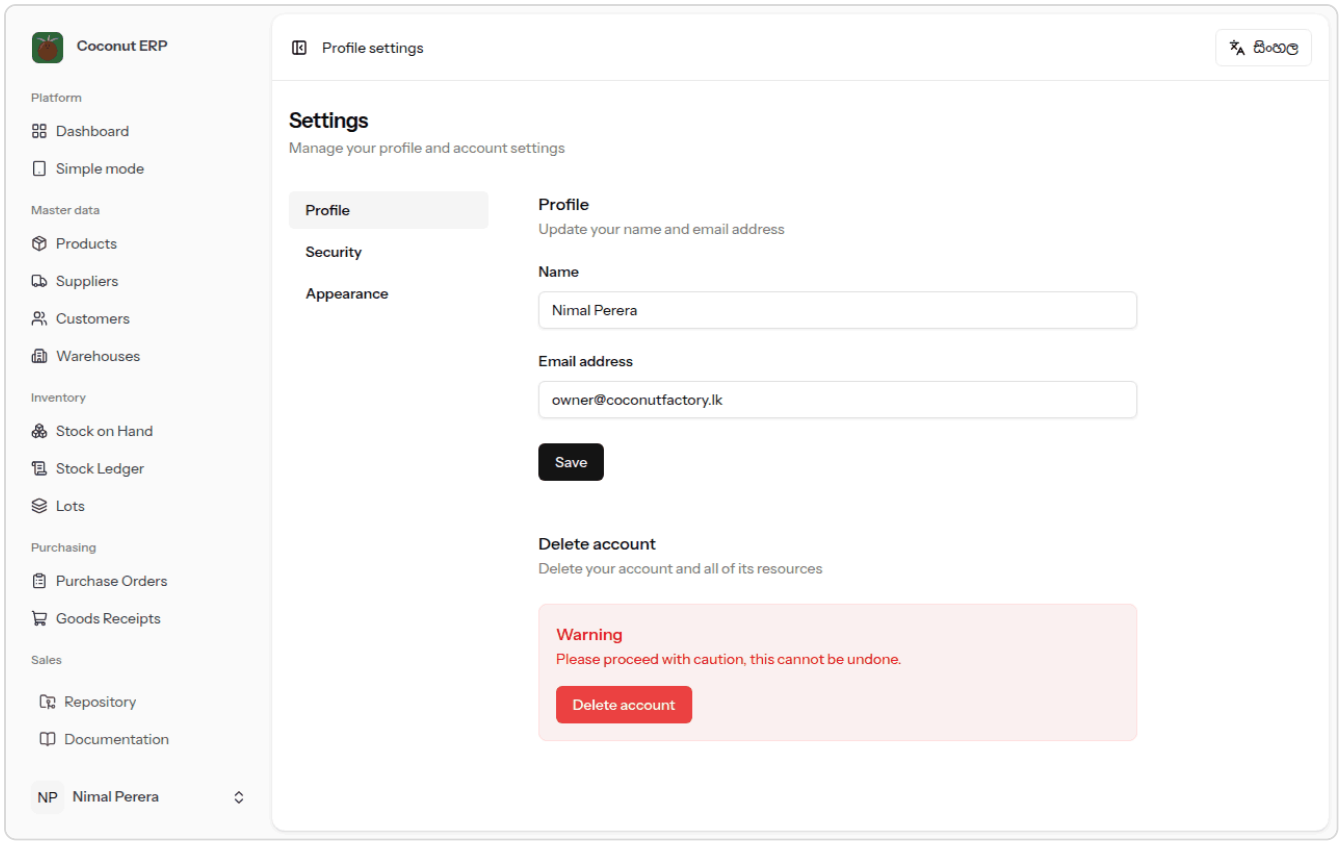

Click **your name** at the bottom left to open your menu: **Settings** and **Log out**. Always log out on a shared computer. / පහළ වම් පස **ඔබගේ නම** ඔබා **Settings** හෝ **Log out** තෝරන්න. බෙදා ගන්නා පරිගණකයක සෑමවිටම ඉවත් වන්න.

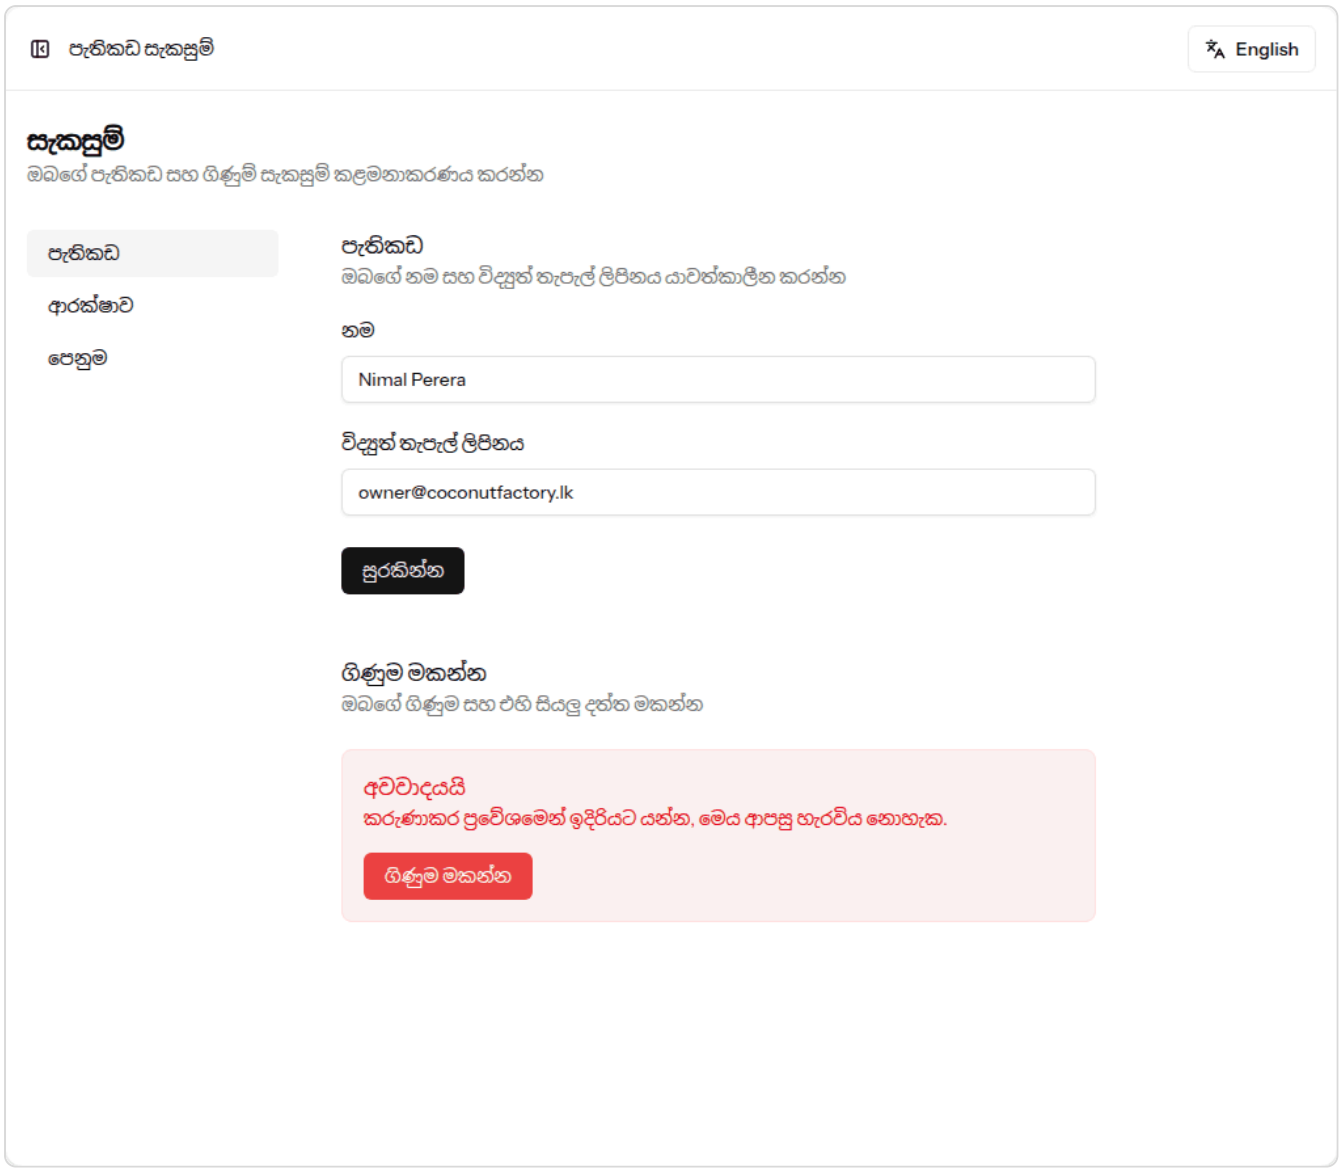

සිංහලෙන් / In Sinhala

Settings → **Profile** holds your name and email address. **Settings** → **Security** holds your password and two-factor sign-in (Chapter 13). / **Settings** → **Profile** හි නම සහ email; **Security** හි මුරපදය.

1.6 Two ways to work / වැඩ කළ හැකි ක්‍රම දෙකක්

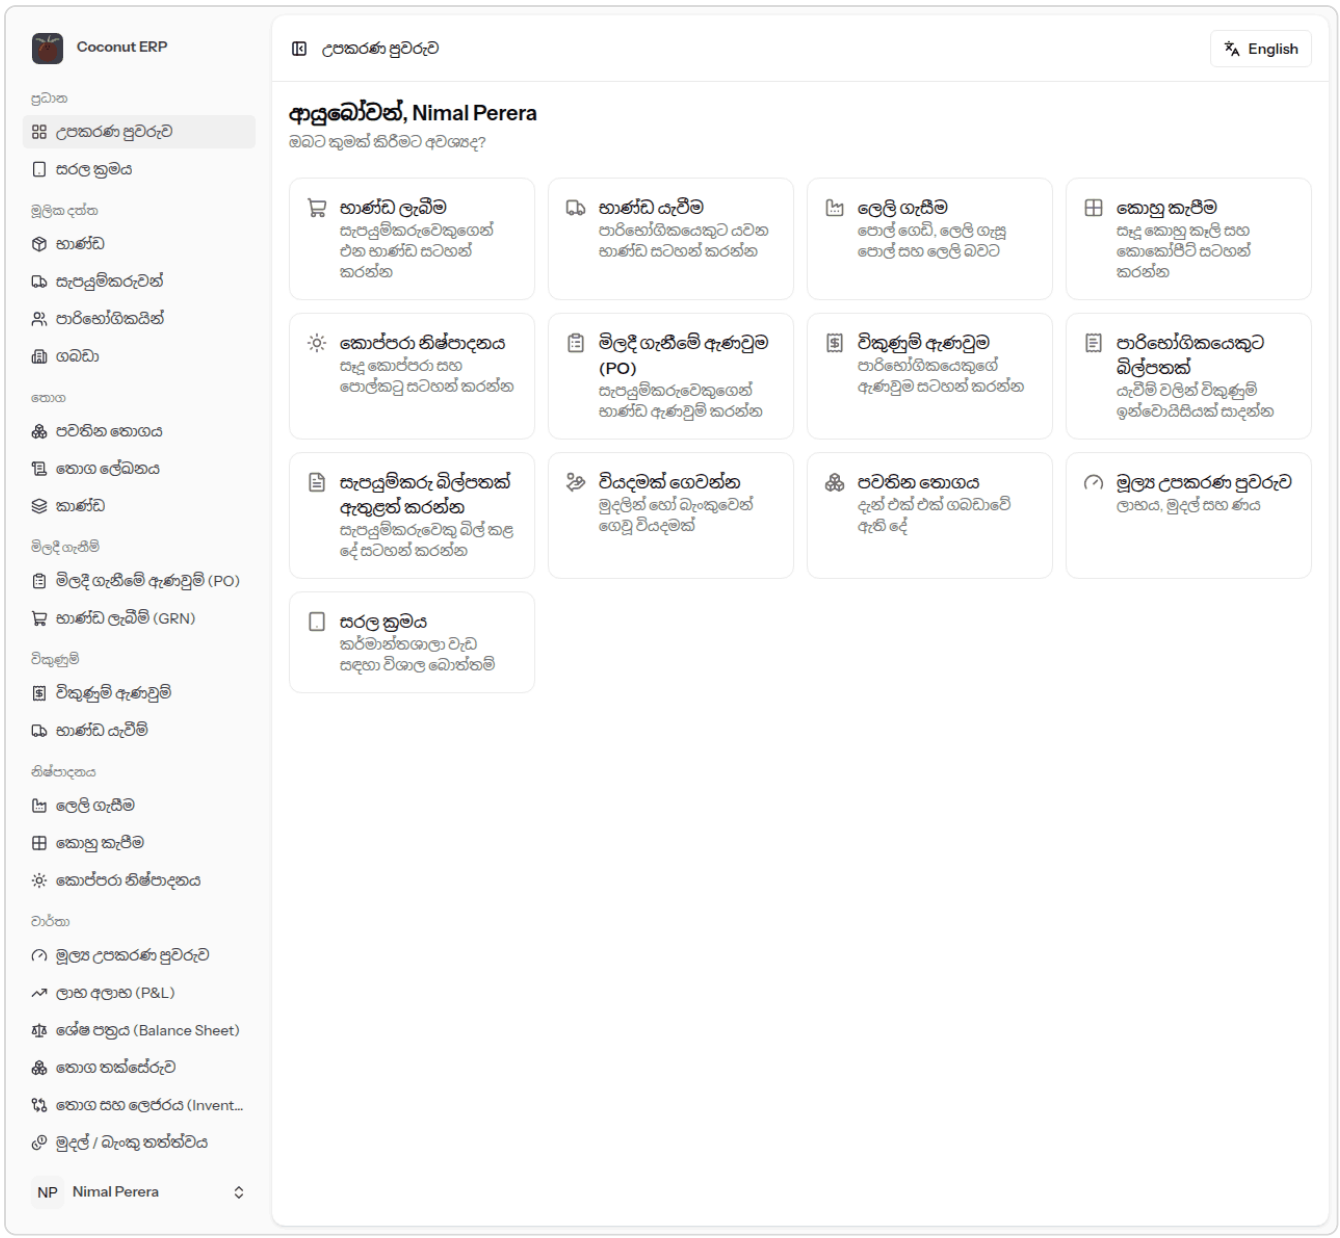

- **Full system:** every screen in this manual. For the office, accountant and owner. / **සම්පූර්ණ පද්ධතිය:** කාර්යාලය, ගණකාධිකාරී සහ හිමිකරු සඳහා.
- **Simple mode:** big buttons, one question per screen, for factory workers. Open it from **Simple mode** in the menu (Chapter 7). / **සරල ක්‍රමය:** කම්කරුවන් සඳහා විශාල බොත්තම් (7 වන පරිච්ඡේදය).

1.7 The Dashboard / උපකරණ පුවරුව

After signing in you land on the **Dashboard**. It greets you and shows big shortcuts to the jobs your role allows, such as **Receive goods**, **Dispatch goods**, the three production runs, **Bill a customer** or **Finance Dashboard**. Click one to go straight to its form. Someone without a role yet sees a message asking them to contact the administrator. / ඇතුල් වූ පසු **Dashboard** විවෘත වේ; ඔබගේ භූමිකාවට අදාළ වැඩ සඳහා කෙටිමඟ බොත්තම් එහි ඇත.

සිංහලෙන් / In Sinhala

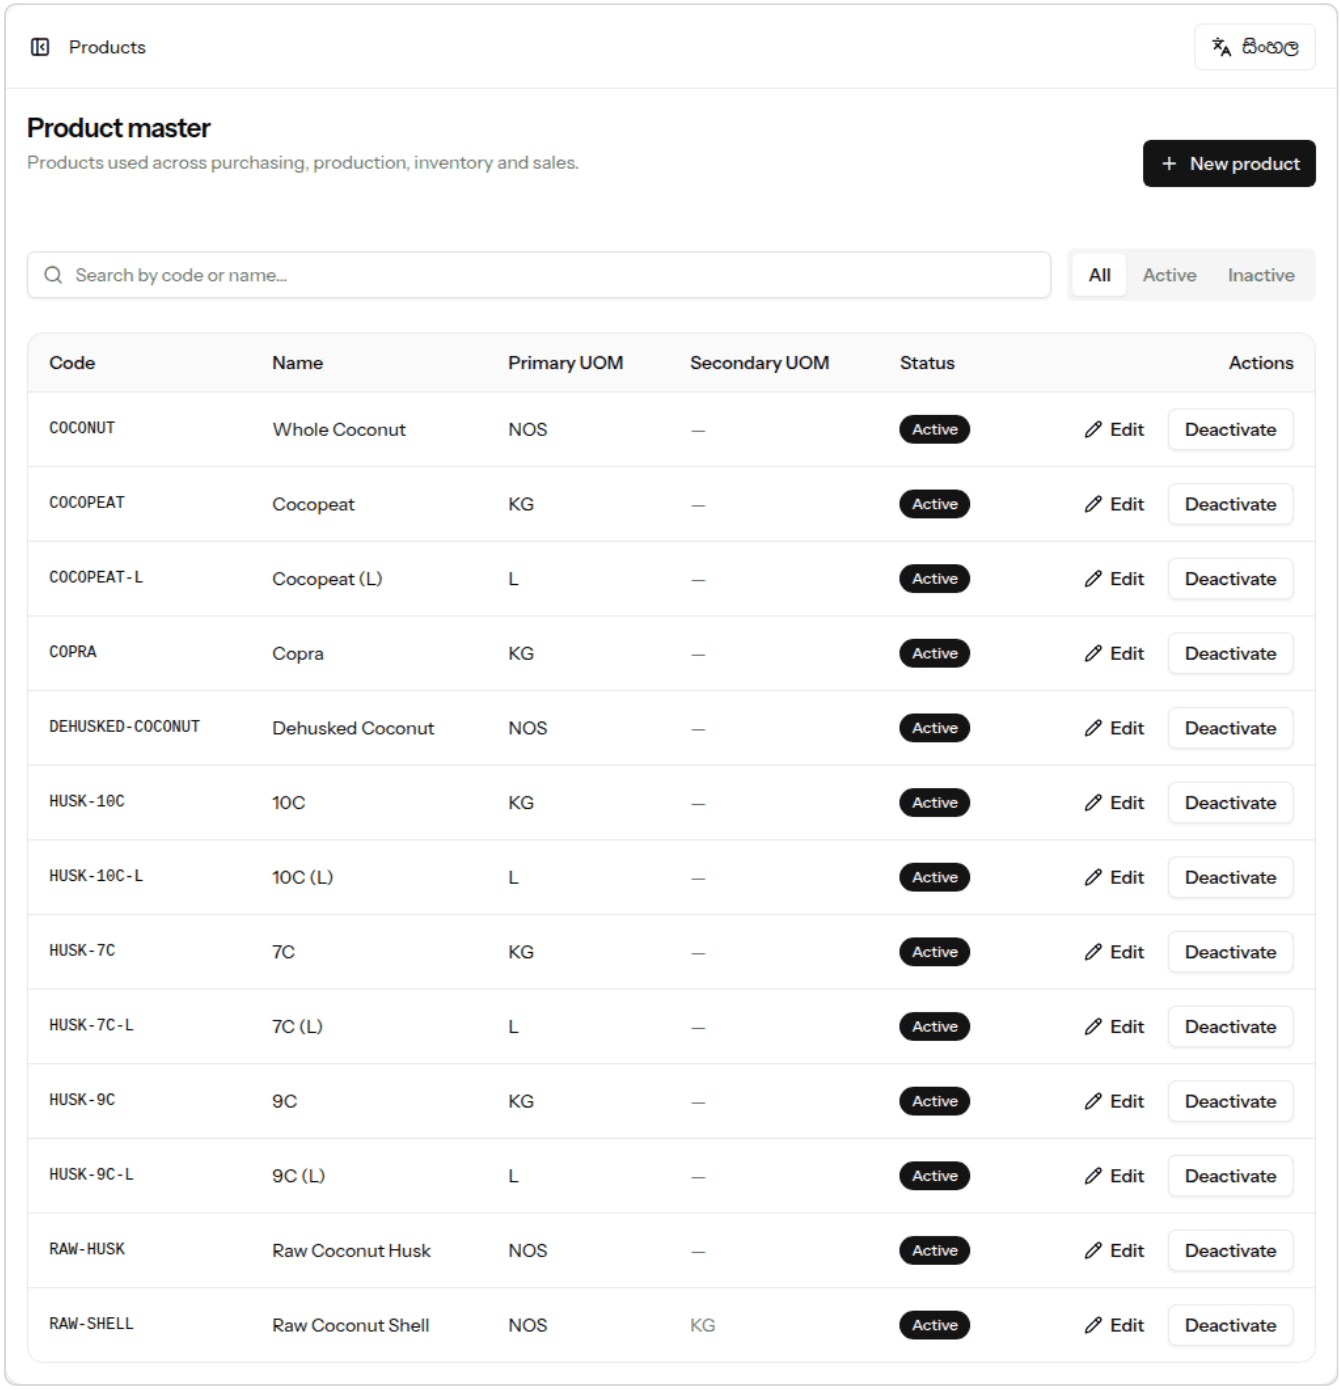

2. Master data / මූලික දත්ත

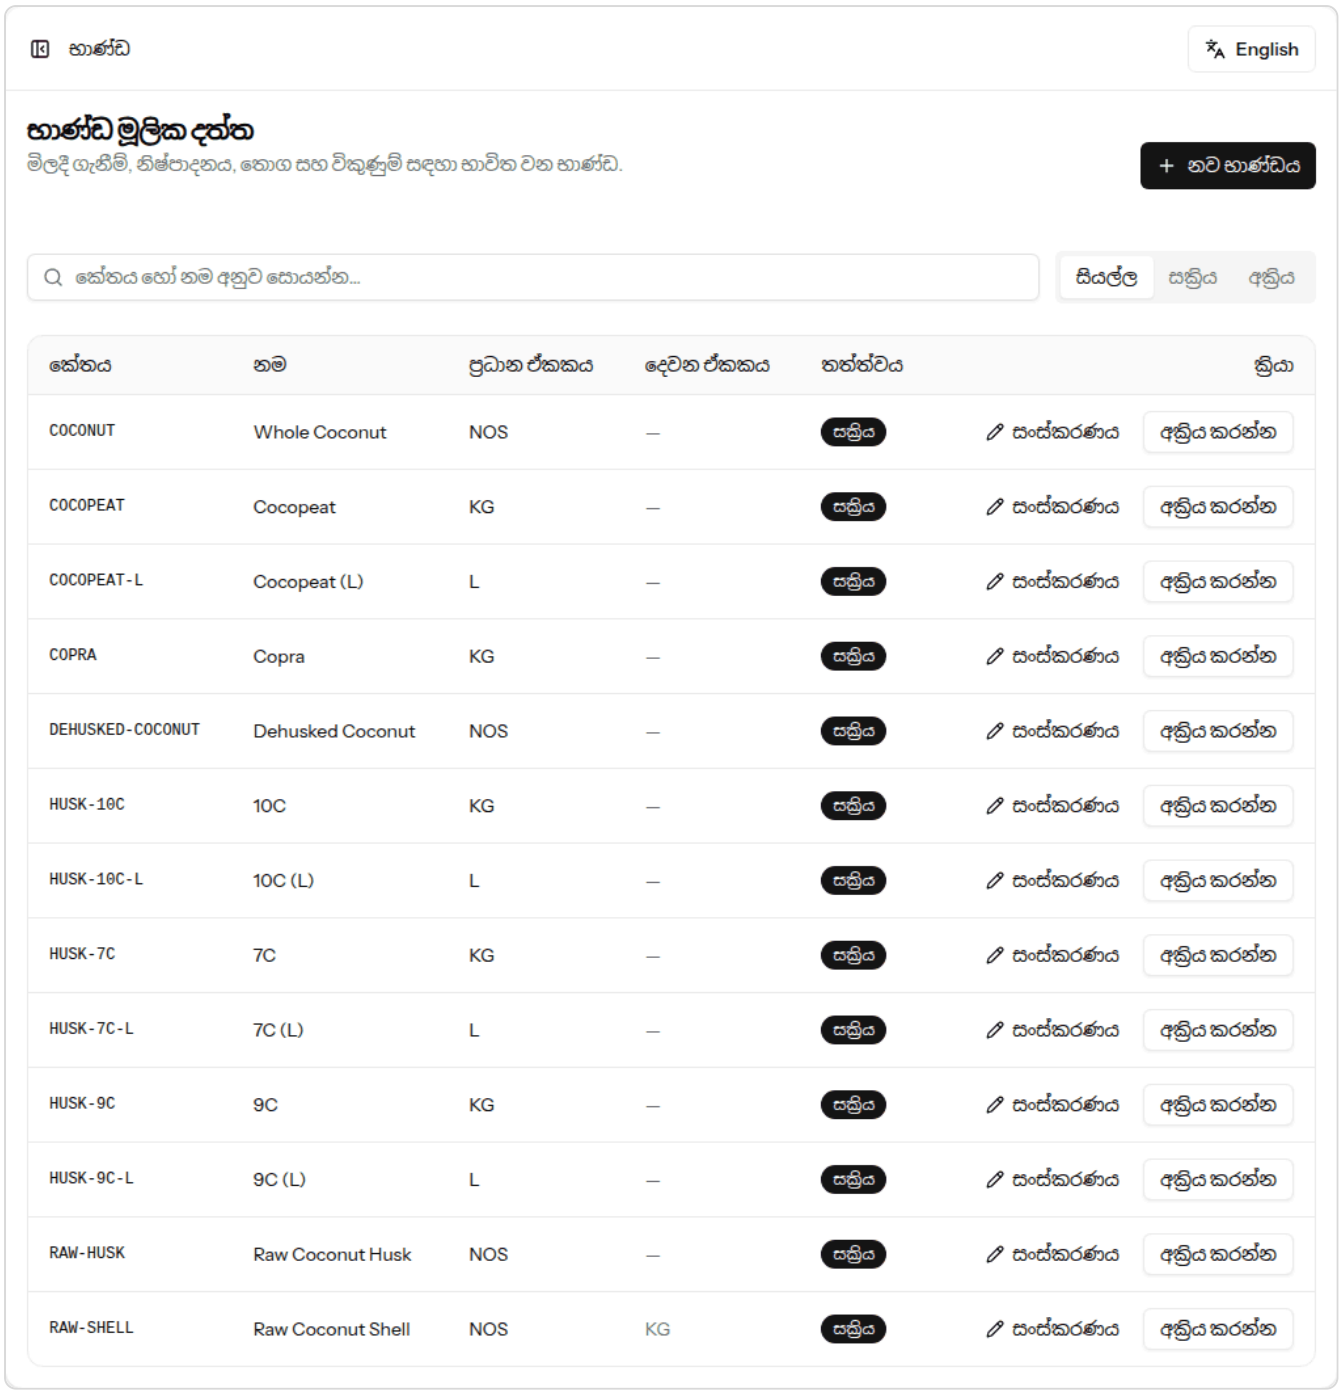

Master data is the list of things every document refers to: products, suppliers, customers and warehouses. Set it up once, then keep it current. **Nothing here is ever deleted**: a record you no longer need is *deactivated*, so old documents still show its name. / මූලික දත්ත කිසිදිනක මකා දැමෙන්නේ නැත; අවශ්‍ය නැති වූ විට *අක්‍රිය* කරන්න.

2.1 Products and units / භාණ්ඩ සහ ඒකක

Open **Master data → Products**. The factory's products are already set up: whole coconut, dehusked coconut, raw husk, the chip grades 7C, 9C and 10C, cocopeat, copra and coconut shell. / කර්මාන්තශාලාවේ භාණ්ඩ දැනටමත් ඇතුළත් කර ඇත.

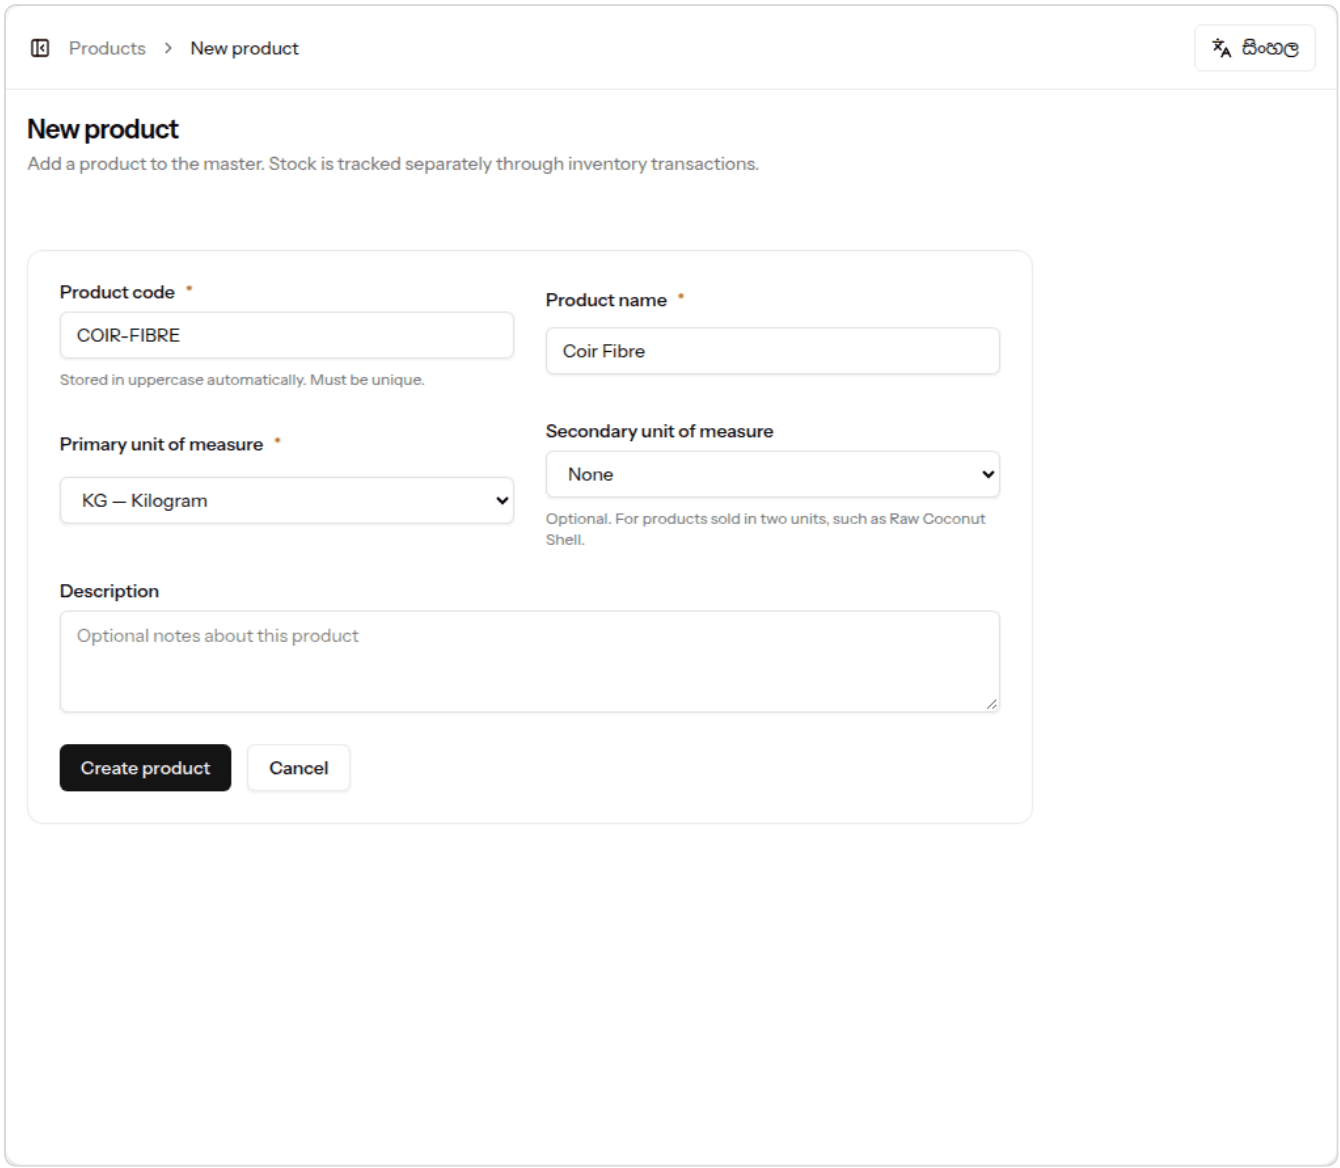

සිංහලෙන් / In Sinhala

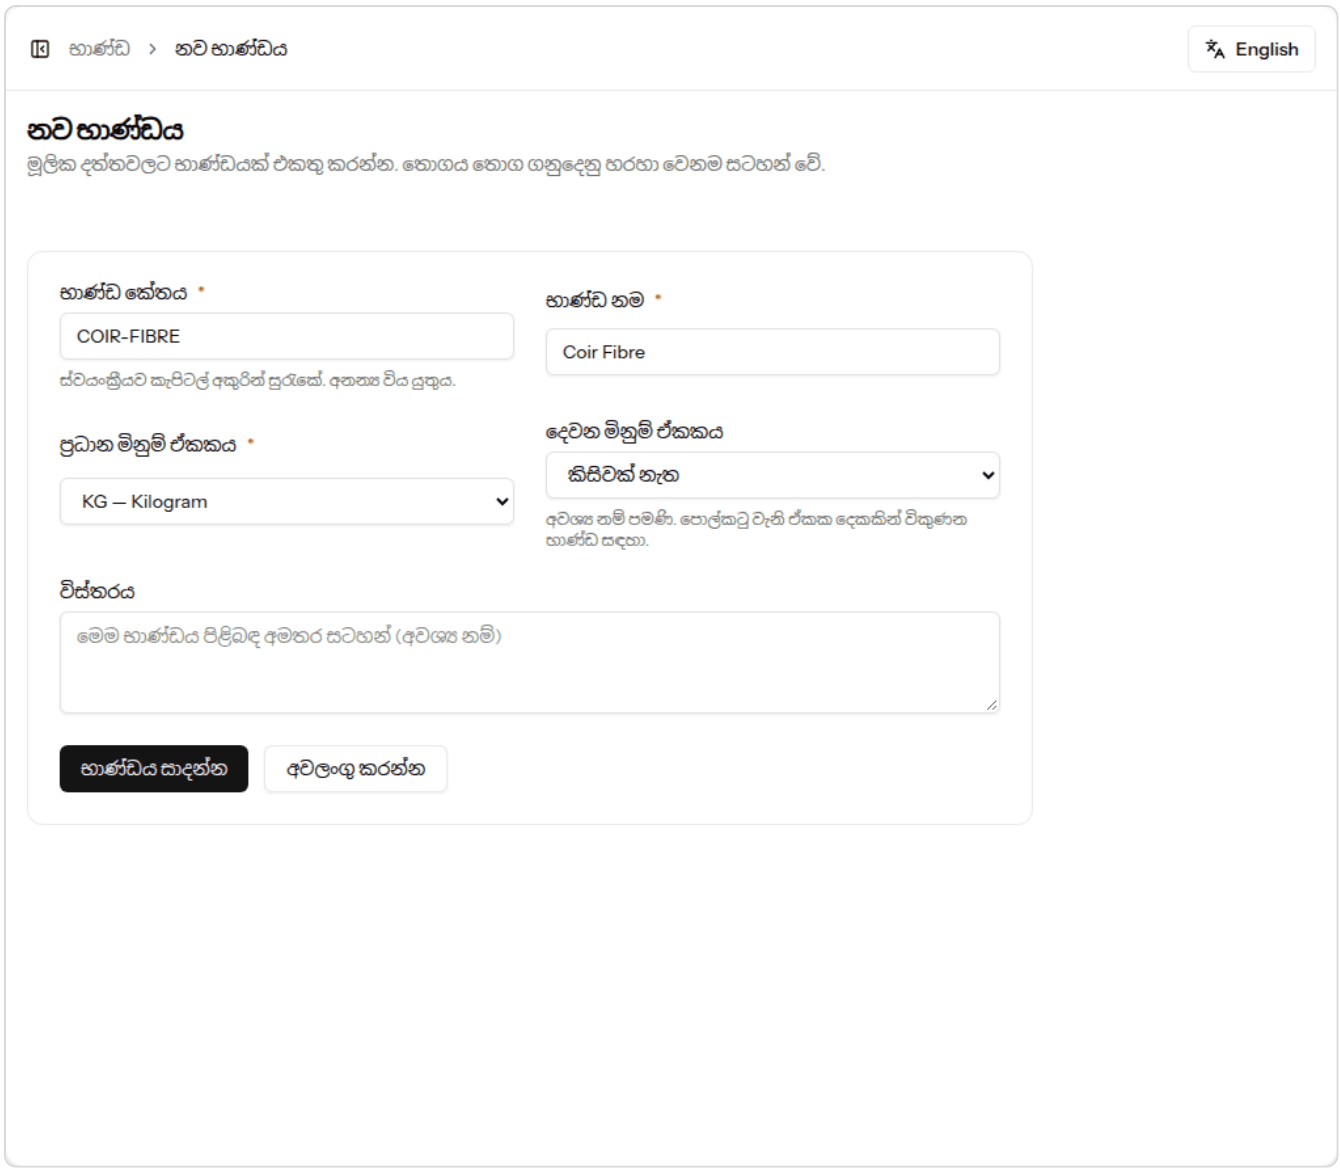

- **Three units only:** `NOS` (a count of items), `KG` (weight) and `L` (litres). The system never converts between them. / ඒකක තුනක් පමණි: NOS (ගණන), KG (බර), L (ලීටර). ඒවා අතර පරිවර්තනයක් නැත.
- **One product per unit.** Chips sold by weight and by volume are two products: `HUSK-7C` (KG) and `HUSK-7C-L` (L). Their stock never mixes. / KG සහ ලීටර වෙනම භාණ්ඩ ය.
- **Coconut shell** has a *primary* unit (NOS) and a *secondary* unit (KG), so a load can record both its count and its weight. / පොල්කටු වල ගණන සහ බර දෙකම සටහන් කළ හැක.
- **Lots:** copra and shell are tracked in lots (batches) for traceability. The others are one pooled stock with no lots. / කොප්පරා සහ පොල්කටු කාණ්ඩ (lot) වශයෙන් තබා ගනී.

Adding a product (rare): click **New product**, type a **Product code** (stored in capitals, must be unique) and a **Product name**, choose the **Primary unit of measure**, and add a **Secondary unit** only if the product is also measured another way. Click **Create product**. / **New product** ඔබා කේතය, නම සහ ඒකකය තෝරා **Create product** ඔබන්න.

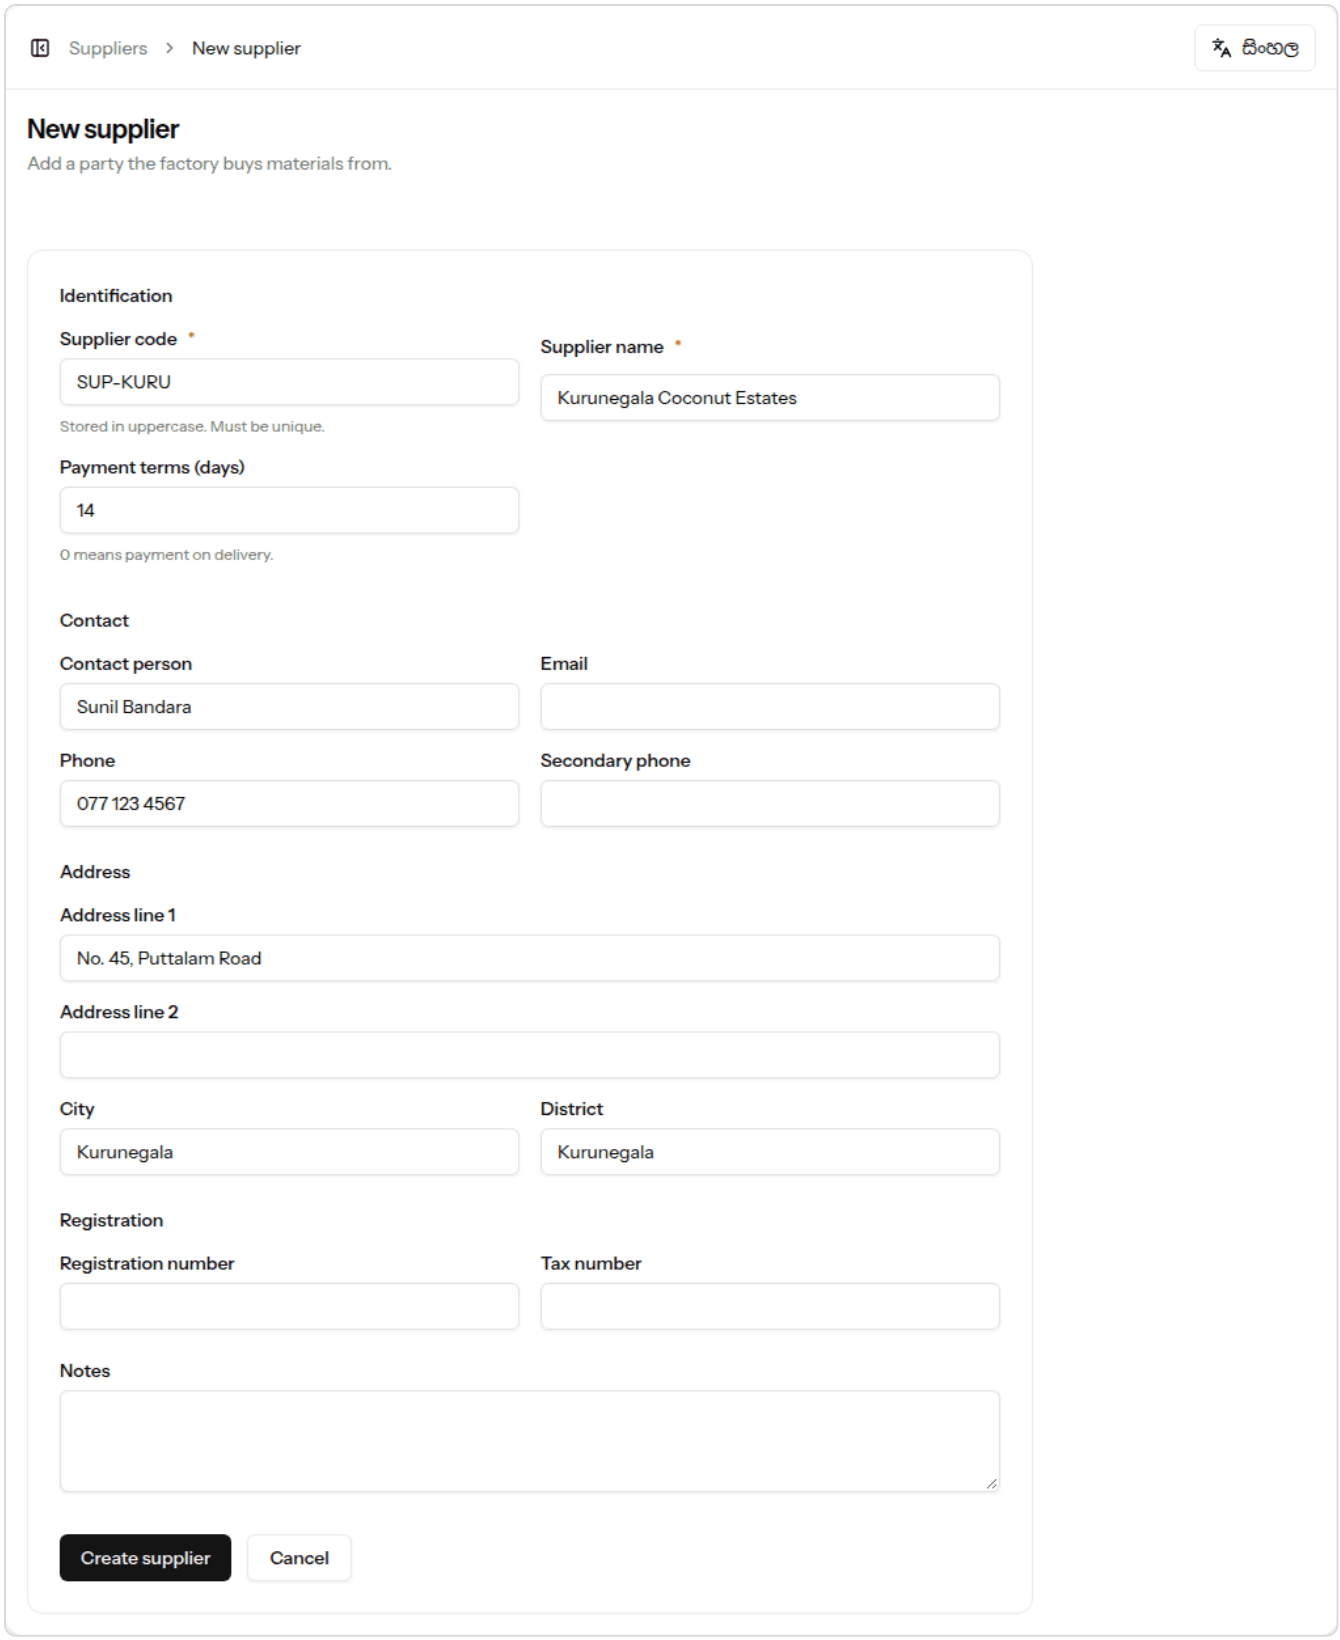

සිංහලෙන් / In Sinhala

> A new product cannot move stock until the accountant gives it its accounts in **Accounting setup** (Chapter 8). / නව භාණ්ඩයකට ගණුම් සකසූ පසුව පමණක් තොග වෙනස් කළ හැක.

2.2 Suppliers / සැපයුම්කරුවන්

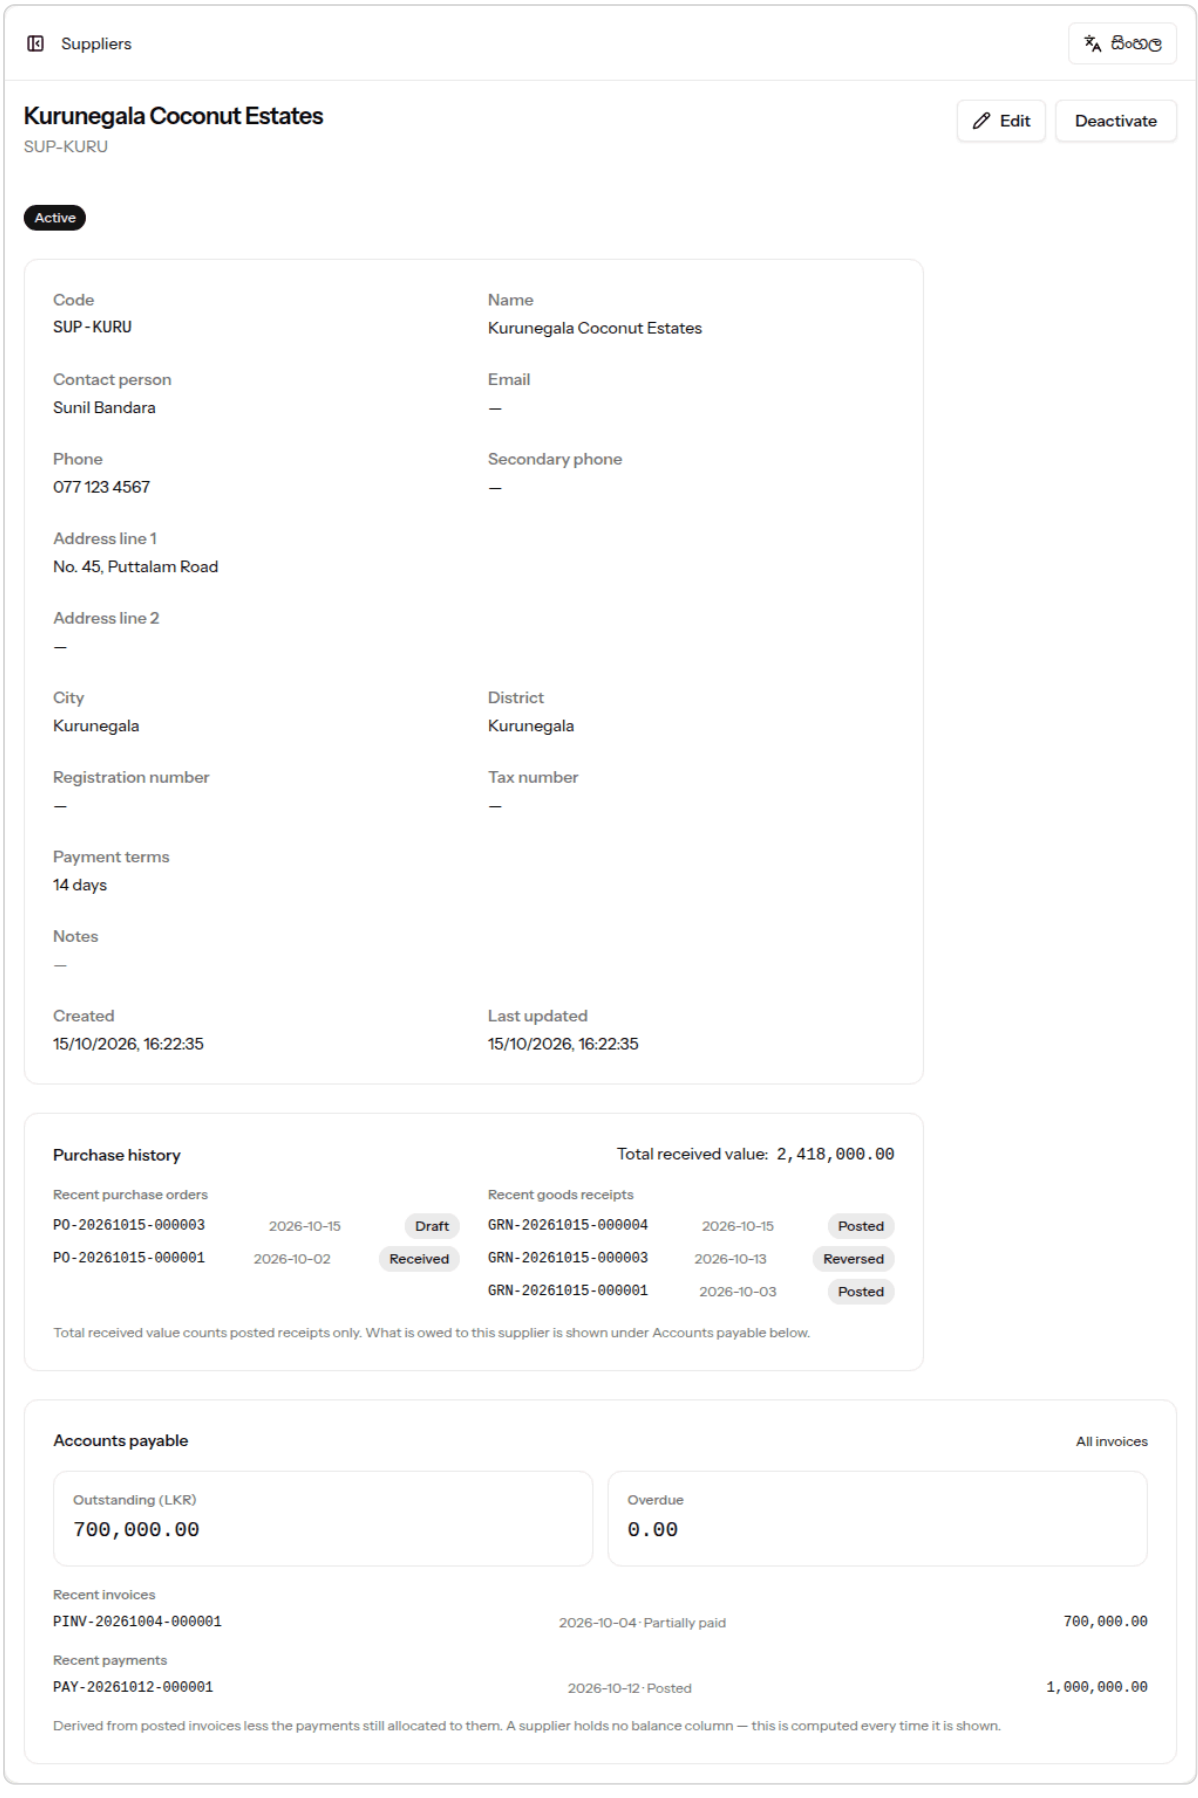

1. Open **Master data** → **Suppliers** and click **New supplier**. / **Suppliers** විවෘත කර **New supplier** ඔබන්න.
2. Type a short **Supplier code** (for example `SUP-KURU`) and the **Supplier name**. These two are required. / කේතය සහ නම අනිවාර්යයි.
3. **Payment terms (days)**: how many days after the invoice you normally pay (0 means cash on delivery). / ගෙවීම් කොන්දේසි (දින).
4. Add the contact person, phones, address and registration details if you have them. / සම්බන්ධතා විස්තර ඇති නම් එකතු කරන්න.
5. Click **Create supplier**. / **Create supplier** ඔබන්න.

> Moving stock from one warehouse to another has no screen yet, so choose the warehouse carefully on each document. / ගබඩා අතර තොග මාරු කිරීමට තිරයක් තවම නැත; සෑම ලේඛනයකම ගබඩාව පරිස්සමෙන් තෝරන්න.

3. Buying / මිලදී ගැනීම

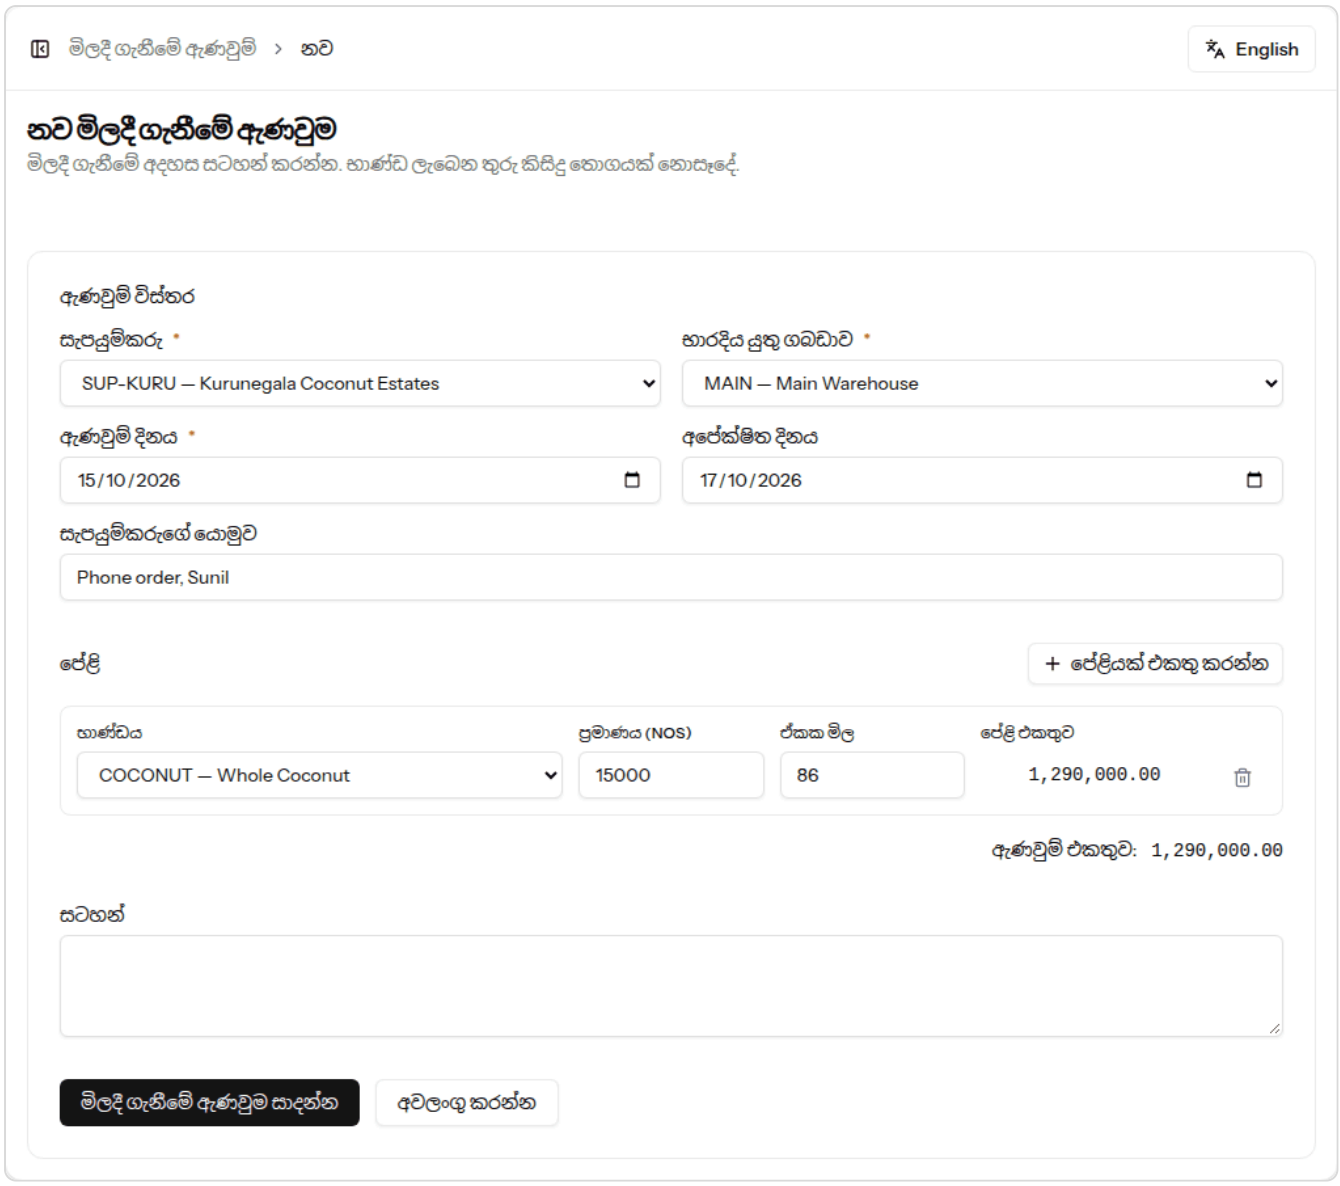

Buying has two documents. The **purchase order** (PO) is what you agreed with the supplier; it changes no stock. The **goods receipt** (GRN) records what actually arrived; posting it adds the stock. You can receive without a purchase order, but using one lets you see what is still to come. / **මිලදී ගැනීමේ ඇණවුම (PO)** තොගය වෙනස් නොකරයි; **භාණ්ඩ ලැබීම (GRN)** සටහන් කළ විට තොගය එකතු වේ.

3.1 Creating a purchase order / PO එකක් සෑදීම

1. Open **Purchasing → Purchase Orders** and click **New purchase order**. / **Purchase Orders** විවෘත කර **New purchase order** ඔබන්න.
2. Choose the **Supplier** and the warehouse the goods go to (**Deliver to warehouse**). / සැපයුම්කරු සහ ගබඩාව තෝරන්න.
3. Set the **Order date** and, if known, the **Expected date**. Add the supplier's own reference if they gave one. / දිනයන් සහ සැපයුම්කරුගේ යොමු අංකය දමන්න.
4. On each line choose the **Product**, type the **Quantity** (in the product's unit, shown beside the label) and the **Unit price**. Use **Add line** for more products and **Remove line** to drop one. / සෑම පේළියකම භාණ්ඩය, ප්‍රමාණය සහ ඒකක මිල දමන්න.
5. Click **Create purchase order**. It is saved as a **Draft**. / **Create purchase order** ඔබන්න — එය කෙටුම්පතක් ලෙස සුරැකේ.

> Document numbers such as `PO-20261015-000003` contain the date the document was typed in, not the order date. They carry no other meaning. / ලේඛන අංකයේ දිනය එය ඇතුළත් කළ දිනයයි.

3.3 Receiving the goods (goods receipt) / භාණ්ඩ ලැබීම (GRN)

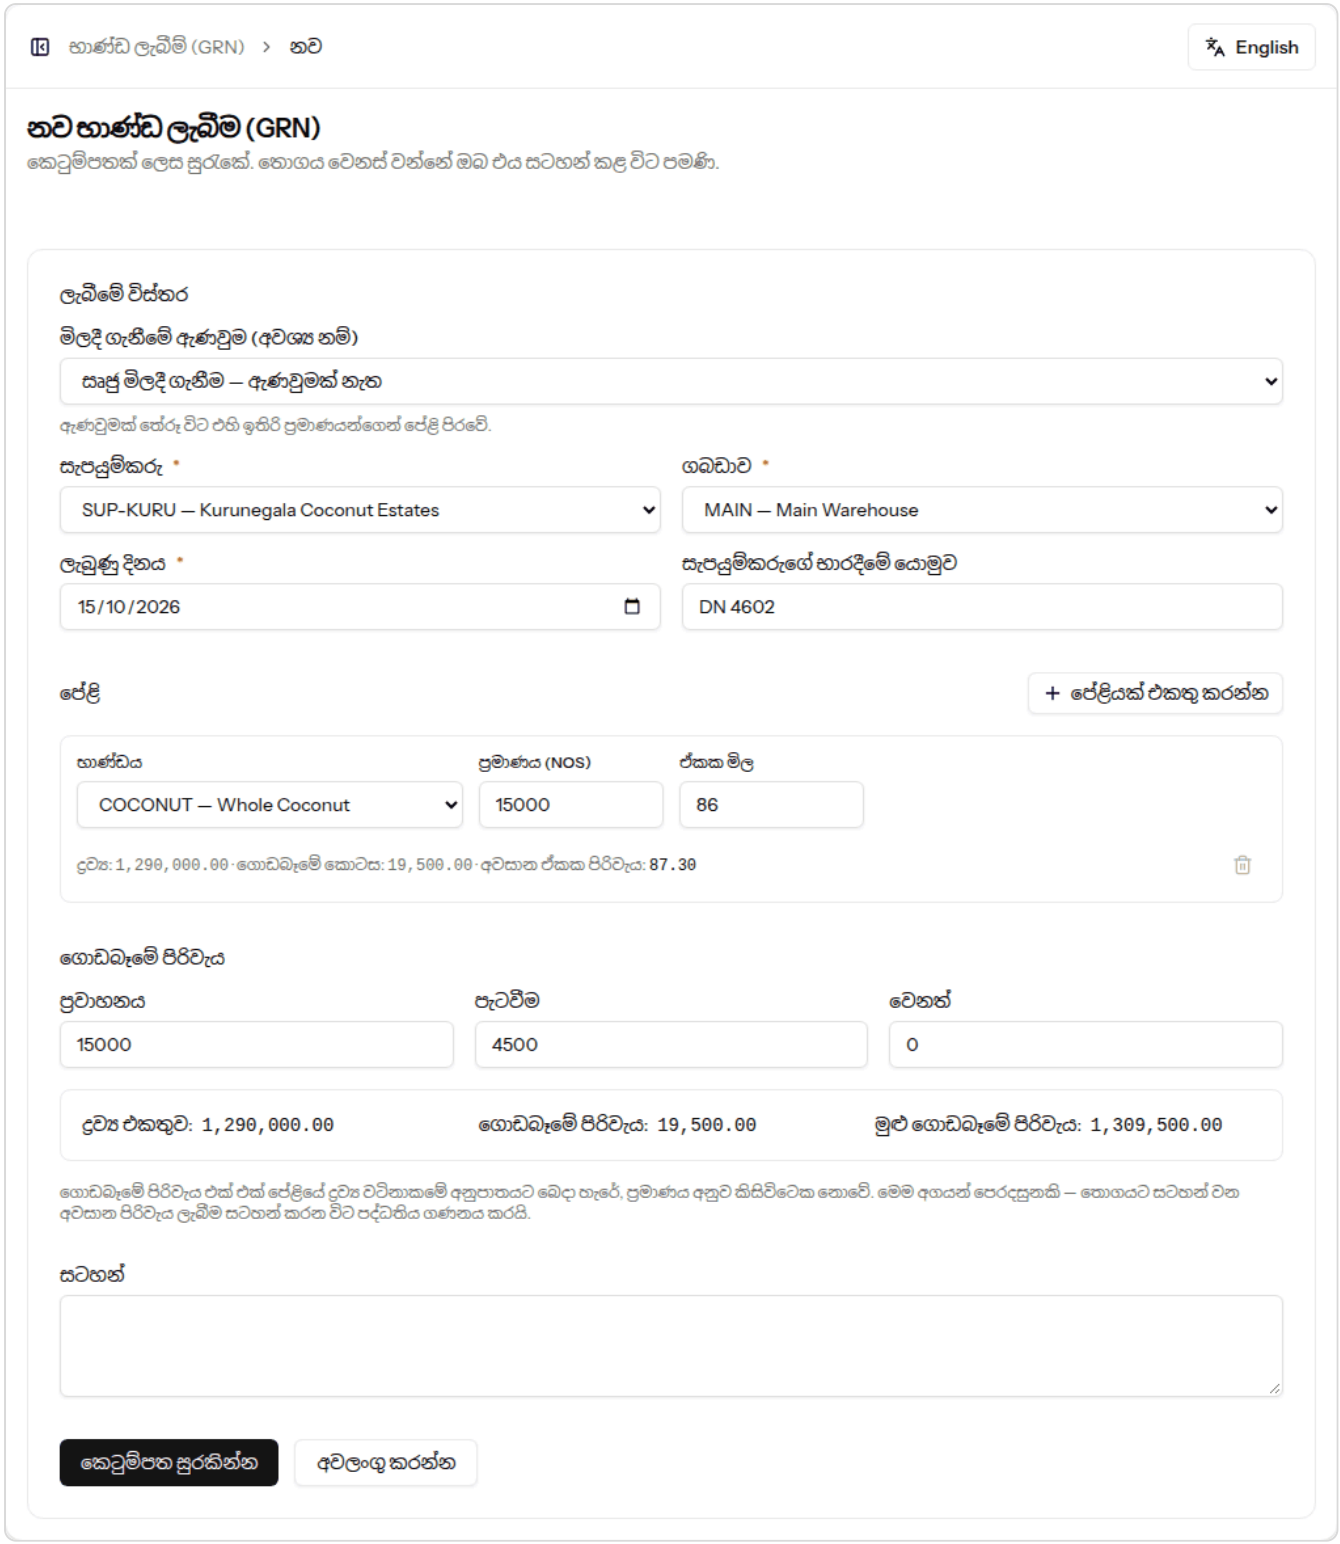

1. Open **Purchasing → Goods Receipts** and click **New goods receipt**. / **Goods Receipts → New goods receipt** ඔබන්න.
2. If there is an approved order, choose it in **Purchase order (optional)**: the supplier, warehouse and lines fill in by themselves. Otherwise choose the **Supplier** and **Warehouse** yourself. / අනුමත PO එකක් තෝරාගත් විට විස්තර ස්වයංක්‍රීයව පිරේ.
3. Set the **Receipt date** and the supplier's delivery note number. / ලැබුණු දිනය සහ සැපයුම්කරුගේ භාණ්ඩ යැවුම් අංකය.
4. On each line enter the quantity that **actually arrived** (it may be less than ordered) and the **Unit price**. For copra or shell, you may also enter the supplier's lot number. / සැබැවින්ම ලැබුණු ප්‍රමාණය දමන්න.

5. Enter **Transport**, **Loading** and **Other** costs for this delivery (0 if none). These *landed costs* are added to the cost of the goods. / ප්‍රවාහන, පැටවීම සහ වෙනත් වියදම් දමන්න — ඒවා භාණ්ඩයේ පිරිවැයට එකතු වේ.

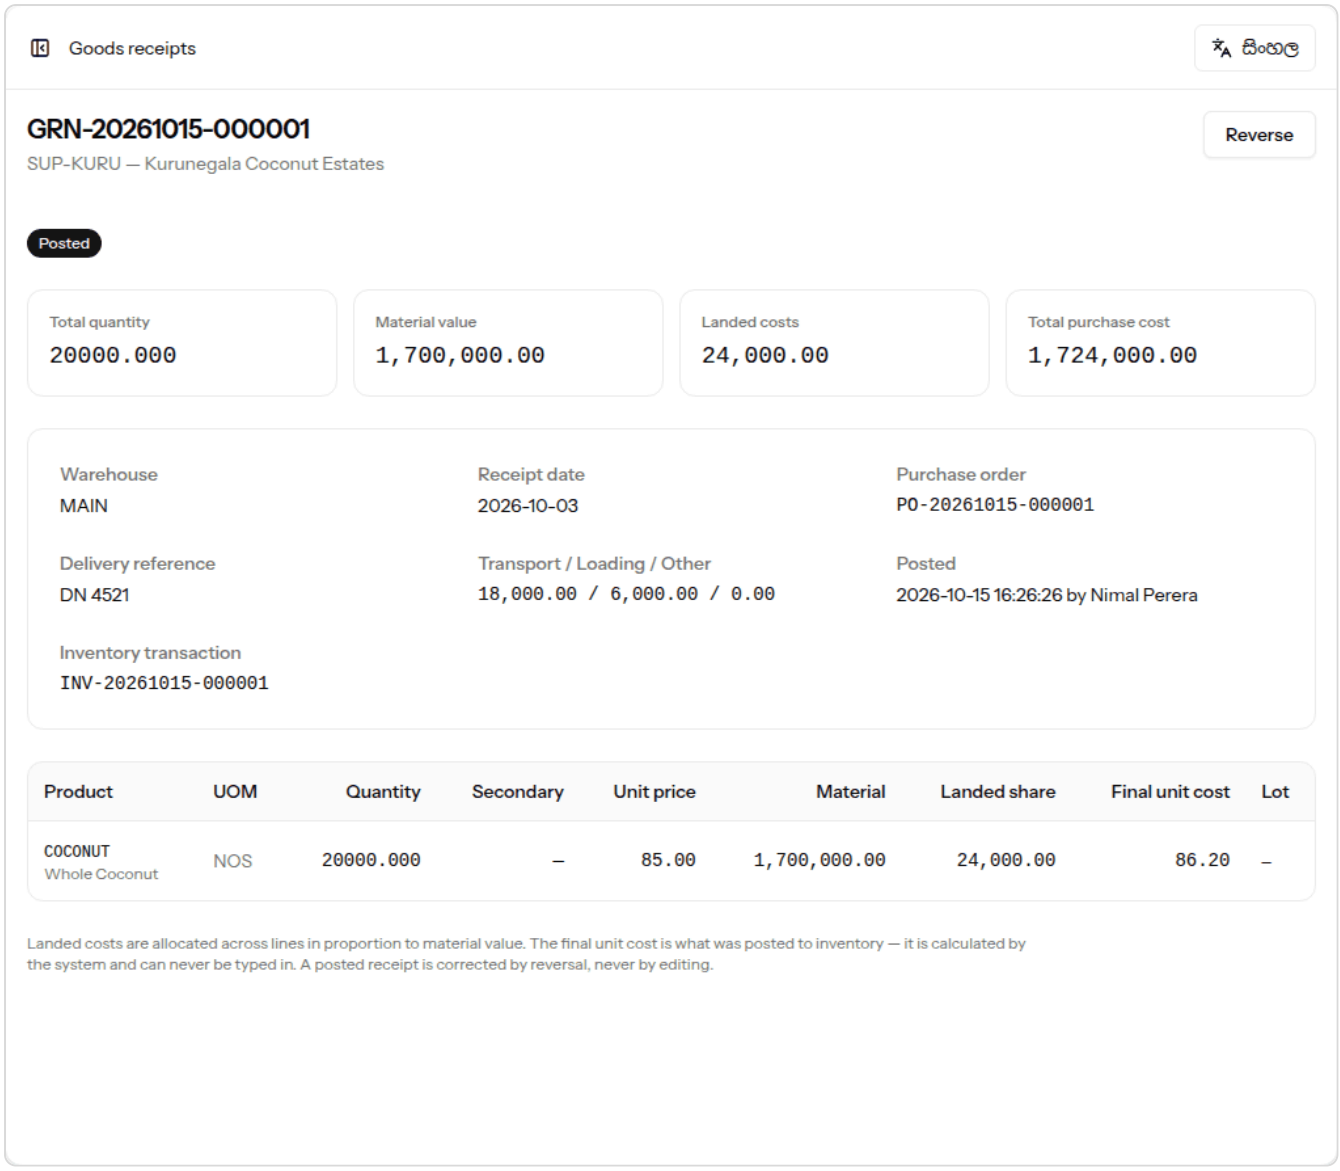

6. Click **Save draft**, check it, then click **Post**. / **Save draft** ඔබා, පරීක්ෂා කර **Post** ඔබන්න.

සිංහලෙන් / In Sinhala

After posting, the receipt shows the **Landed share** each line received and its **Final unit cost**. That cost is what reaches stock: 20,000 coconuts at Rs. 85.00 plus Rs. 24,000 of transport and loading cost Rs. 86.20 each. The system works it out; nobody types it. / සටහන් කළ පසු අවසාන ඒකක පිරිවැය පෙනේ (උදා: රු. 85 + රු. 24,000 වියදම = රු. 86.20).

සිංහලෙන් / In Sinhala

What the numbers mean: the dehusked coconuts carry the whole value of the coconuts; the raw husks carry only the labour (here 12,000 × Rs. 4.00 = Rs. 48,000). So the run's output value is the coconuts' value plus the labour. / ලෙලි ගැසූ පොල් වලට පොල් වටිනාකම්; අමු ලෙලි වලට කම්කරු ගාස්තුව පමණි.

Morning shift
Dehusking increases the physical item count — one coconut becomes two things. The dehusked coconut carries the whole coconut value; the raw husk carries the dehusking labour. So output value = input value + labour, exactly. No electricity or overhead cost is added.

4.3 Copra / කොප්පරා

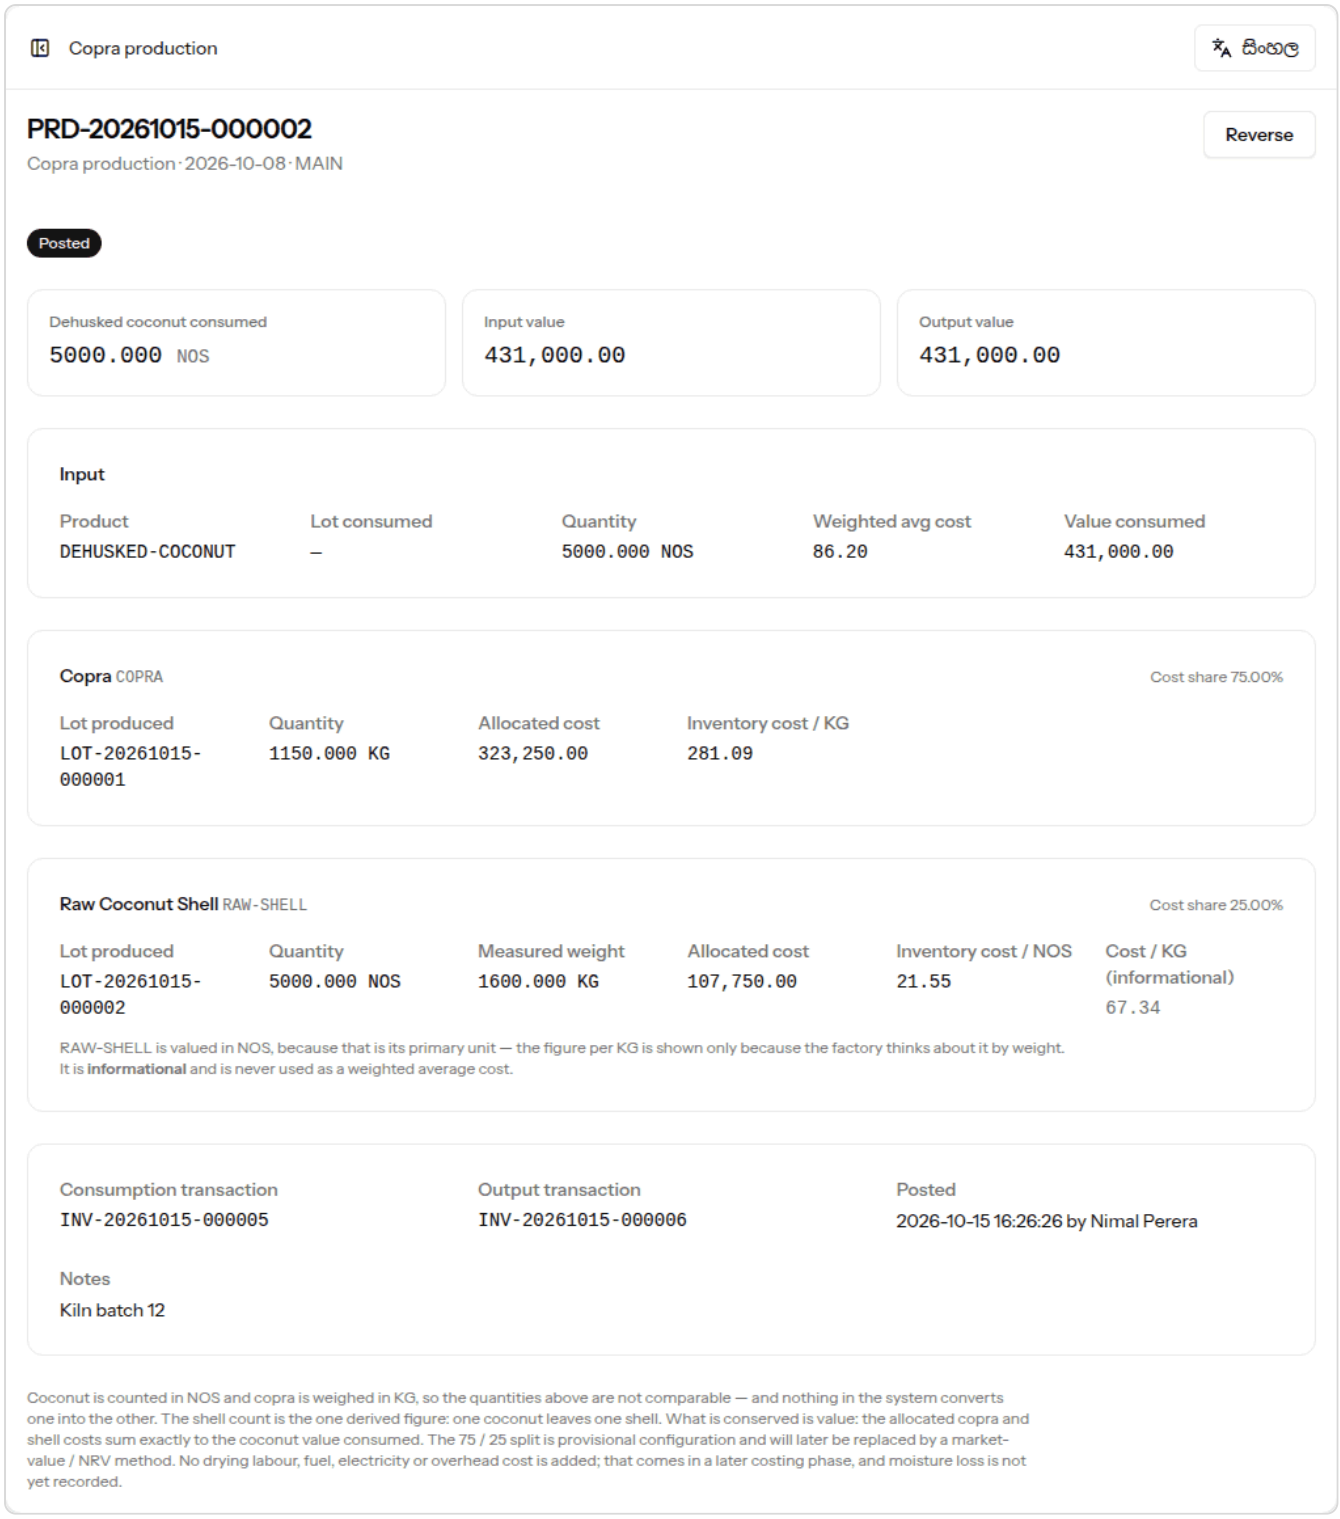

1. Open **Production → Copra production** and click **New copra production**. / **Copra → New** ඔබන්න.
2. Set the date and warehouse, and type the **Dehusked coconut to process (NOS)**. / දිනය, ගබඩාව සහ සකසන පොල් ගණන.
3. Weigh the copra and type **COPRA actual (KG)**. / කොප්පරා කිරා බර දමන්න.
4. The **shell count** fills itself in: one shell per coconut. Weigh the shells and type **RAW-SHELL actual weight (KG)**; this is required. / පොල්කටු ගණන ස්වයංක්‍රීයය; පොල්කටු බර අනිවාර්යයි.
5. Check the **Provisional cost allocation**: the coconuts' value is split 75% to copra and 25% to shell. Then **Save draft** and **Post**. / වටිනාකම 75% කොප්පරා / 25% පොල්කටු ලෙස බෙදේ.

Saved as a draft. Stock converts only when you post it.
Production details
Production date *
15/10/2026
Warehouse *
MAIN — Main Warehouse
Input — DEHUSKED-COCONUT
Company stock on hand: 3000.000 NOS
Dehusked coconut to process (NOS) *
2000
Current inventory cost (weighted average)
86.20
Estimated consumed value
172,400.00
Measured output
Weigh the copra and the shell, and enter what the scale says. Drying loss varies from batch to batch, so nothing here is calculated from the coconut count — there is no coconut-to-kilogram conversion in the system. Only the shell count is calculated, because one coconut leaves one shell.
COPRA actual (KG) *
470
Copra
RAW-SHELL (NOS) — calculated
2000.000
1.00 per NOS processed — not editable.
RAW-SHELL actual weight (KG) *
640
Shell weights vary, so this is measured, never converted from the count.

275.11 / KG
RAW-SHELL
Raw Coconut Shell
2000.000 NOS
640.000 KG
25.00%
43,100.00
21.55 / NOS
67.34 / KG (informational)
These shares total 100.00% and are configuration, not something you can type here — the consumed coconut value is divided between copra and shell in exactly these proportions, so copra production neither creates nor destroys inventory value. The 75 / 25 split is provisional and will later be replaced by a market-value / NRV method. Every figure above is an estimate: the real money is calculated when you post, from the weighted average cost in the ledger at that moment.
Shell is valued against its count, because NOS is its primary unit. The per-kilogram figure is shown for information only and is never used as a weighted average cost.
Notes

RAW-SHELL is valued in NOS, because that is its primary unit — the figure per KG is shown only because the factory thinks about it by weight. It is informational and is never used as a weighted average cost.

Notes
Kiln batch 12
Coconut is counted in NOS and copra is weighed in KG, so the quantities above are not comparable — and nothing in the system converts one into the other. The shell count is the one derived figure: one coconut leaves one shell. What is conserved is value: the allocated copra and shell costs sum exactly to the coconut value consumed. The 75 / 25 split is provisional configuration and will later be replaced by a market-value / NRV method. No drying labour, fuel, electricity or overhead cost is added; that comes in a later costing phase, and moisture loss is not yet recorded.

4.4 Reversing a run / නිෂ්පාදනයක් ආපසු හරවීම

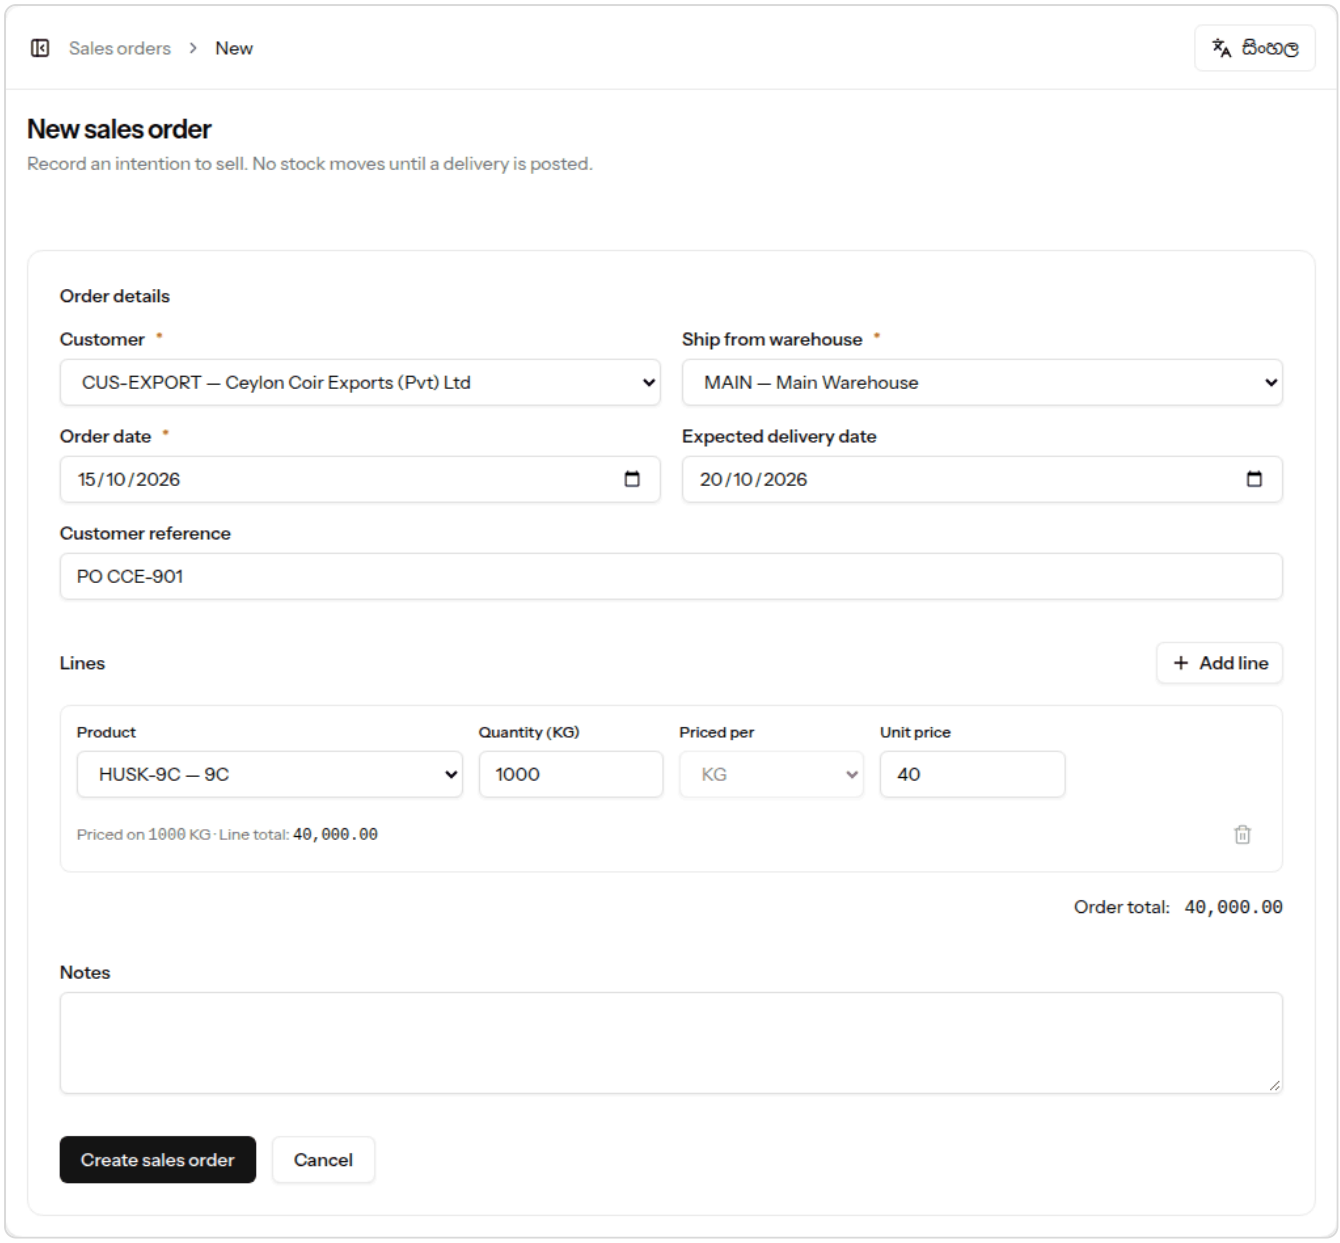

Open the posted run and click **Reverse**: the outputs leave stock and the inputs come back, at the original values. This works only while the outputs are still in stock. If some were already sold or used, reverse those documents first. A draft run can simply be edited or cancelled. / **Reverse** ඔබා ආපසු හරවන්න; නිපදවුම් තවමත් තොගයේ තිබිය යුතුය.

5. Selling / විකුණුම්

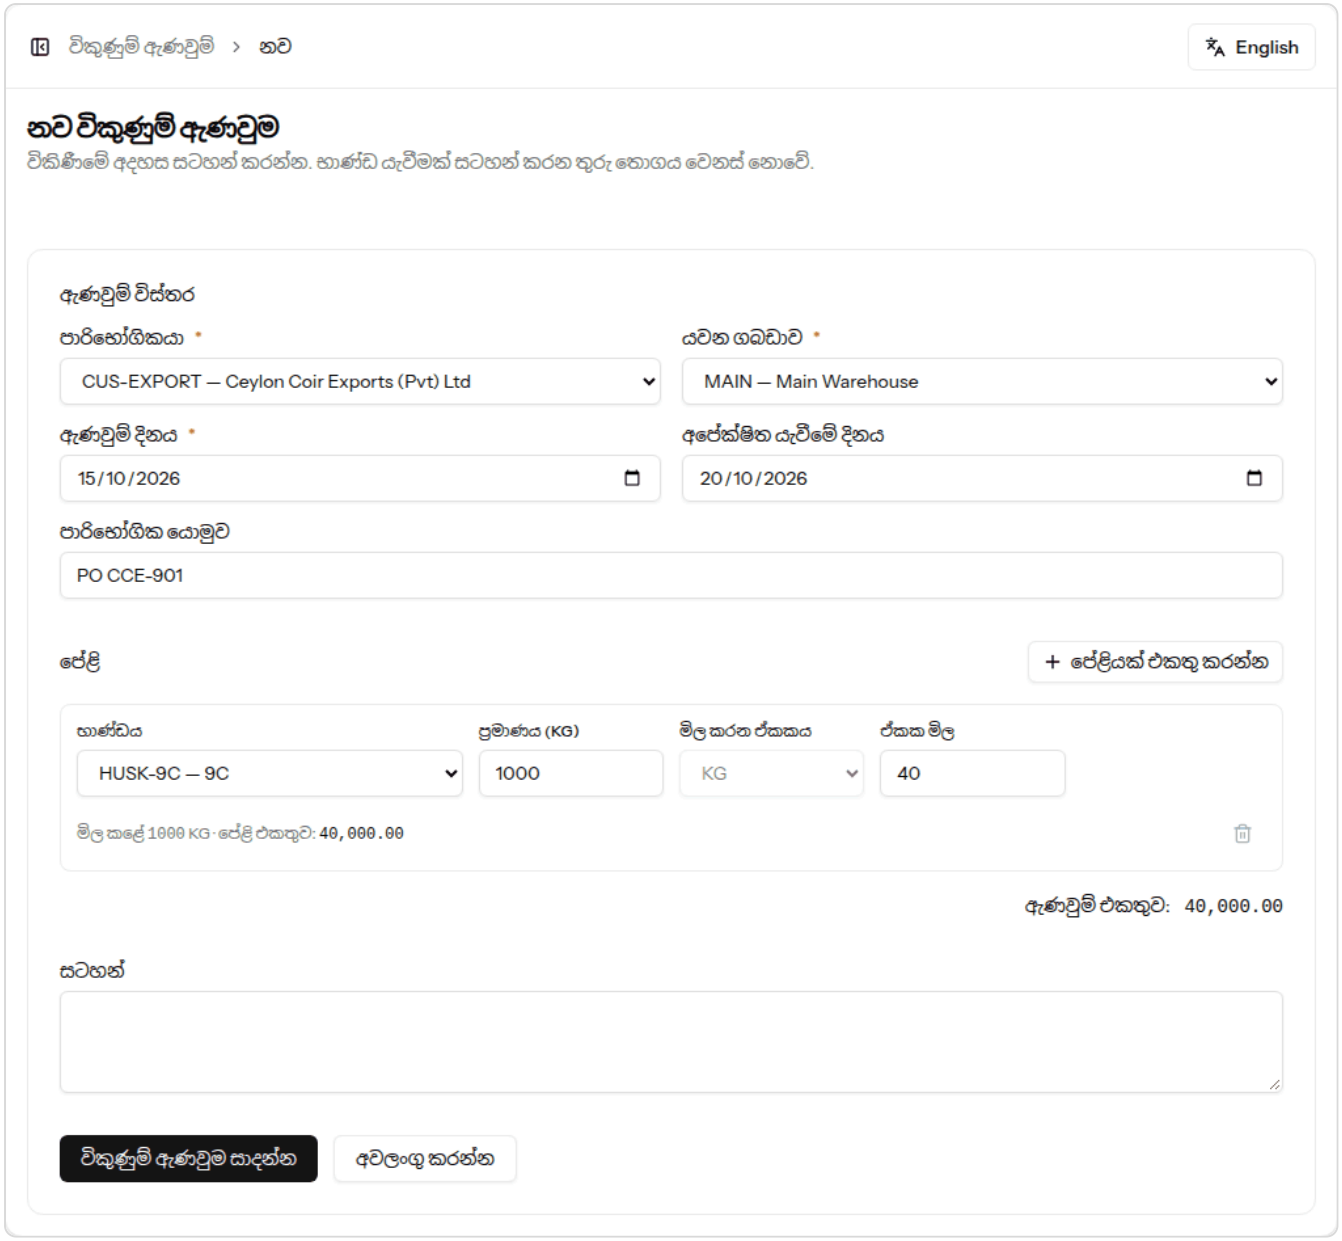

Selling mirrors buying. The **sales order** (SO) records what the customer ordered and changes no stock. The **delivery** (DN) records what left the factory; posting it takes the stock out. The customer's bill is a separate **sales invoice** made from the delivery (Chapter 10). / **විකුණුම් ඇණවුම (SO)** තොගය වෙනස් නොකරයි; **භාණ්ඩ යැවීම (DN)** සටහන් කළ විට තොගය අඩු වේ. බිල්පත වෙනම ලේඛනයකි.

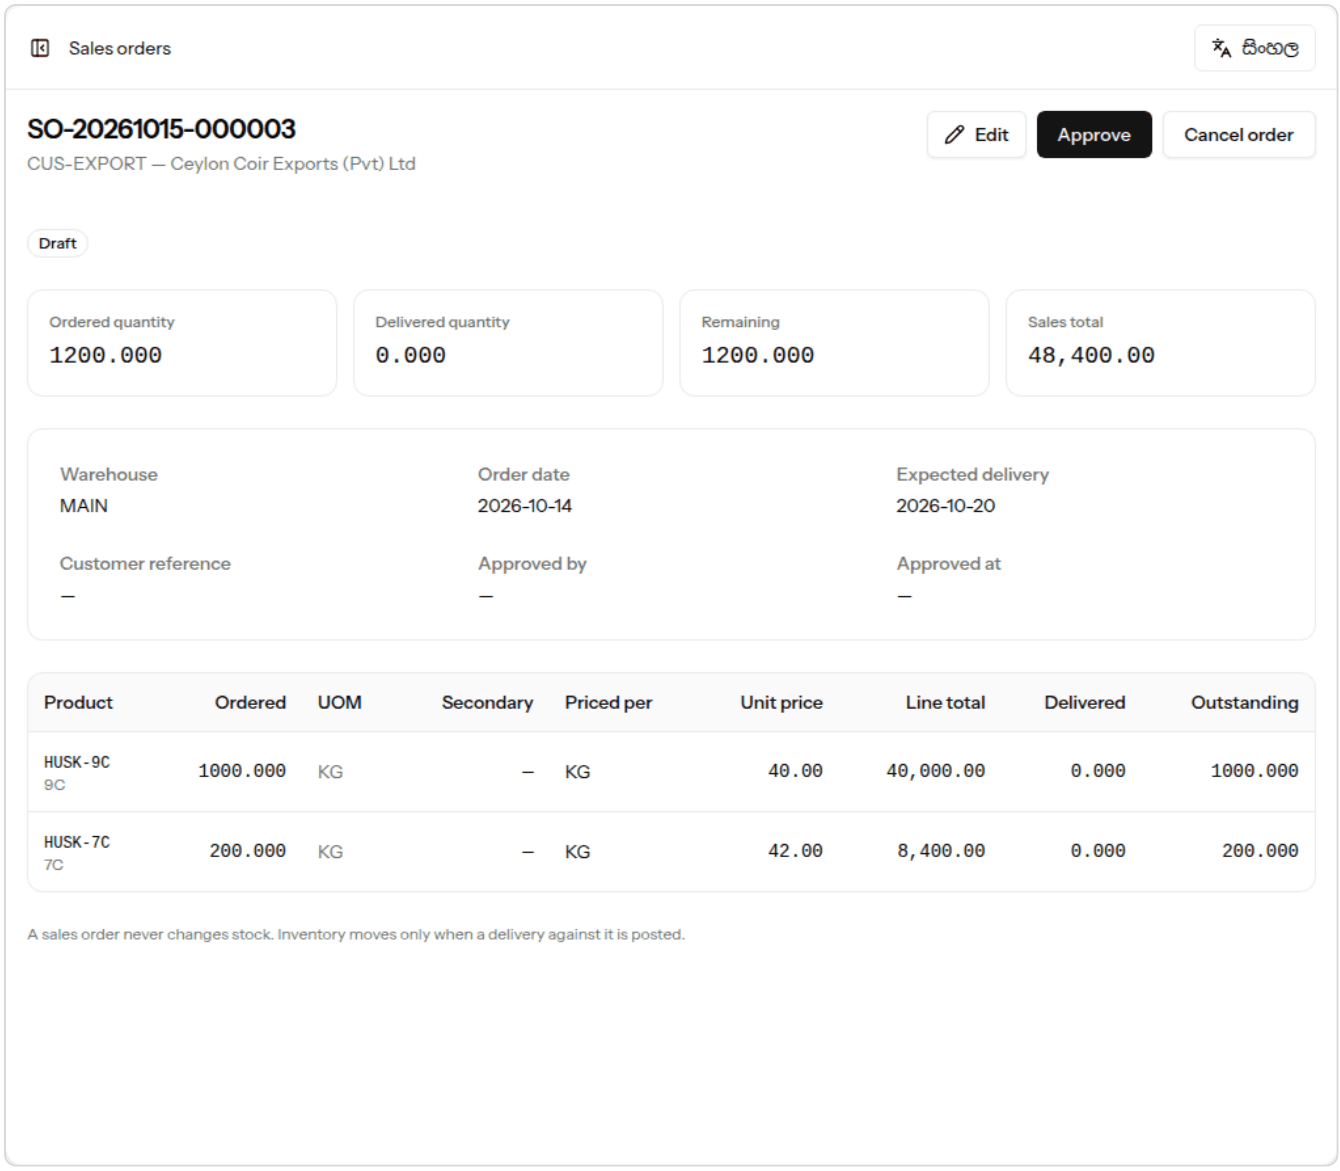

5.1 Creating a sales order / විකුණුම් ඇණවුමක්

1. Open **Sales** → **Sales Orders** and click **New sales order**. / **Sales Orders** → **New sales order** ඔබන්න.
2. Choose the **Customer** and **Ship from warehouse**; set the **Order date**, **Expected delivery date** and the customer's PO number in **Customer reference**. / පාරිභෝගිකයා, ගබඩාව සහ දිනයන් දමන්න.
3. On each line choose the **Product**, the **Quantity**, how it is **Priced per** and the **Unit price**. / භාණ්ඩය, ප්‍රමාණය, මිල ගණනය කරන ඒකකය සහ මිල.
4. Click **Create sales order**, check it, then **Approve** it. A draft can be edited or cancelled; an approved order cannot be edited. / සෑදීමෙන් පසු **Approve** ඔබන්න.

A sales order never changes stock. Inventory moves only when a delivery against it is posted.

සිංහලෙන් / In Sinhala

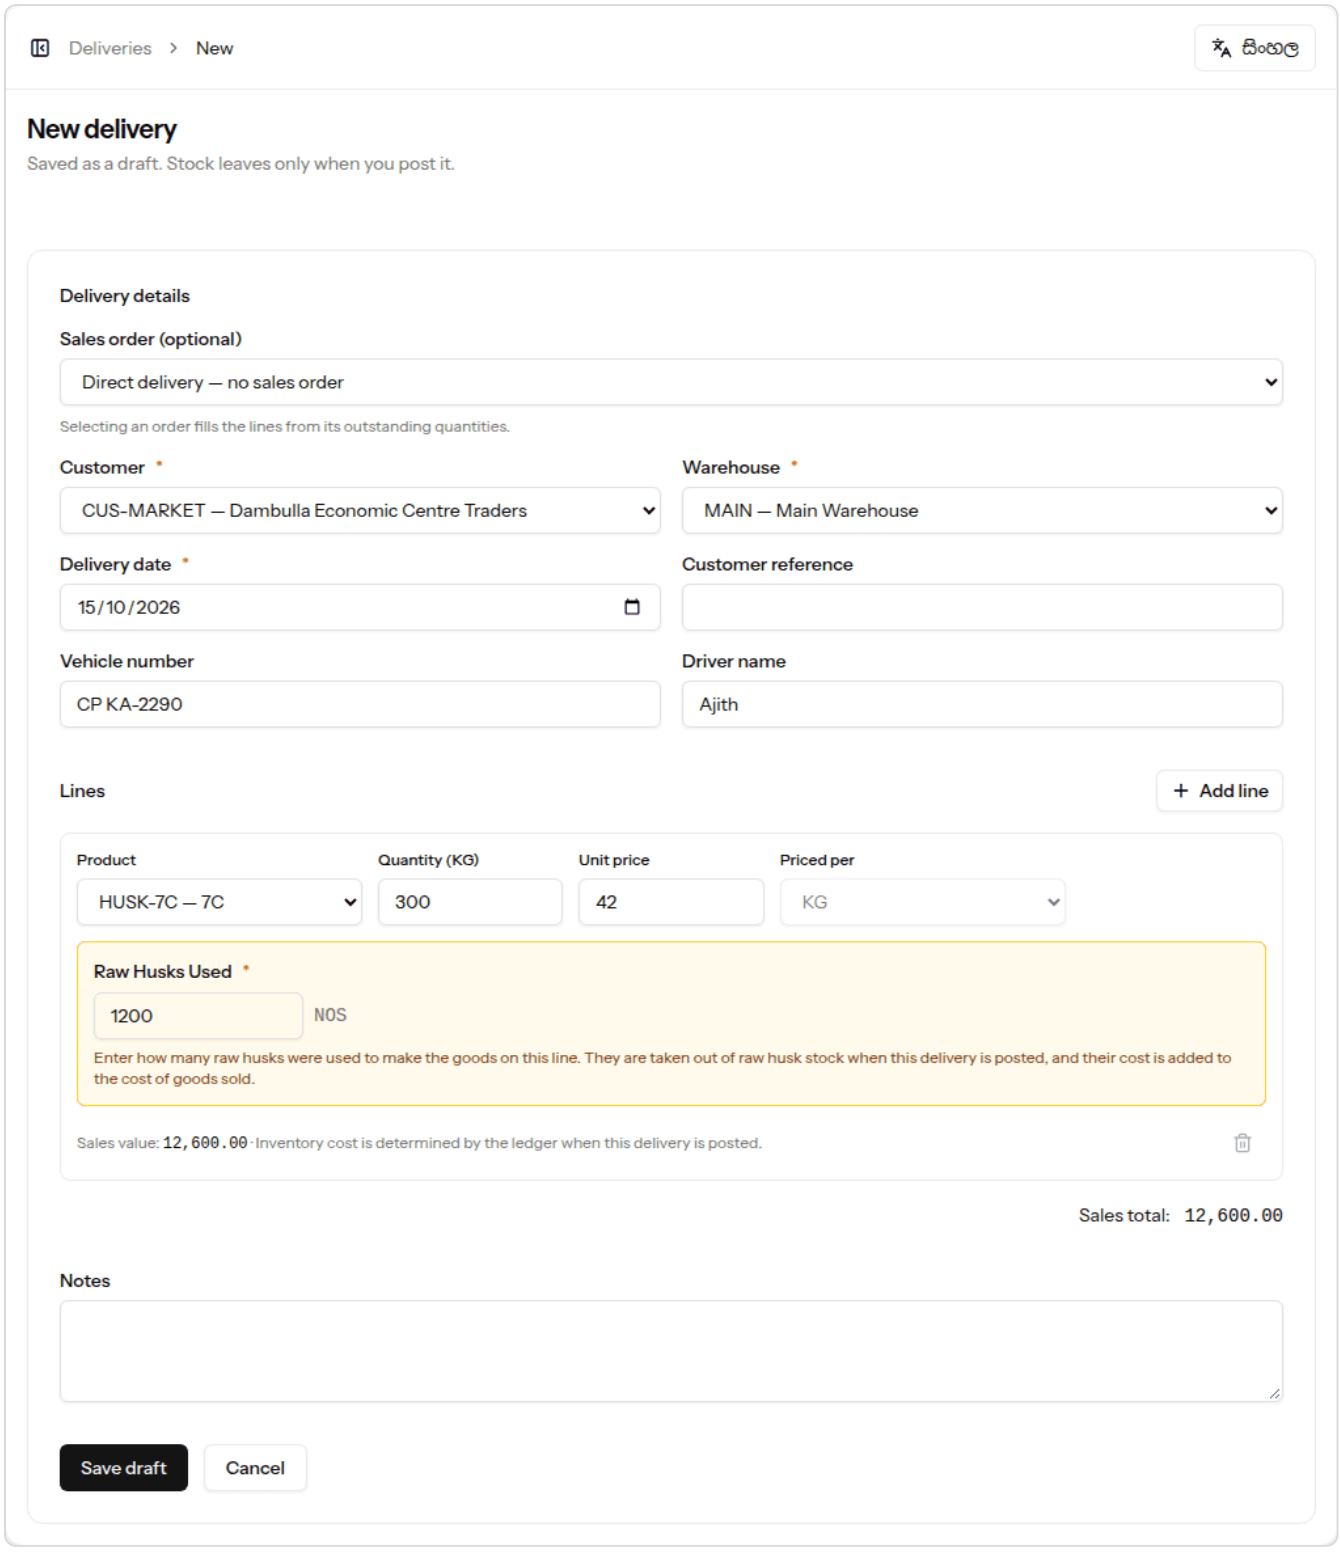

Priced per: most products are priced per their own unit. Coconut shell can be priced **per KG** even though it is counted in NOS. Then you also type the weight, and the price applies to the weight. / පොල්කටු ගණනින් තබා ගත්තත් KG එකකට මිල නියම කළ හැක.

5.2 Delivering the goods / භාණ්ඩ යැවීම

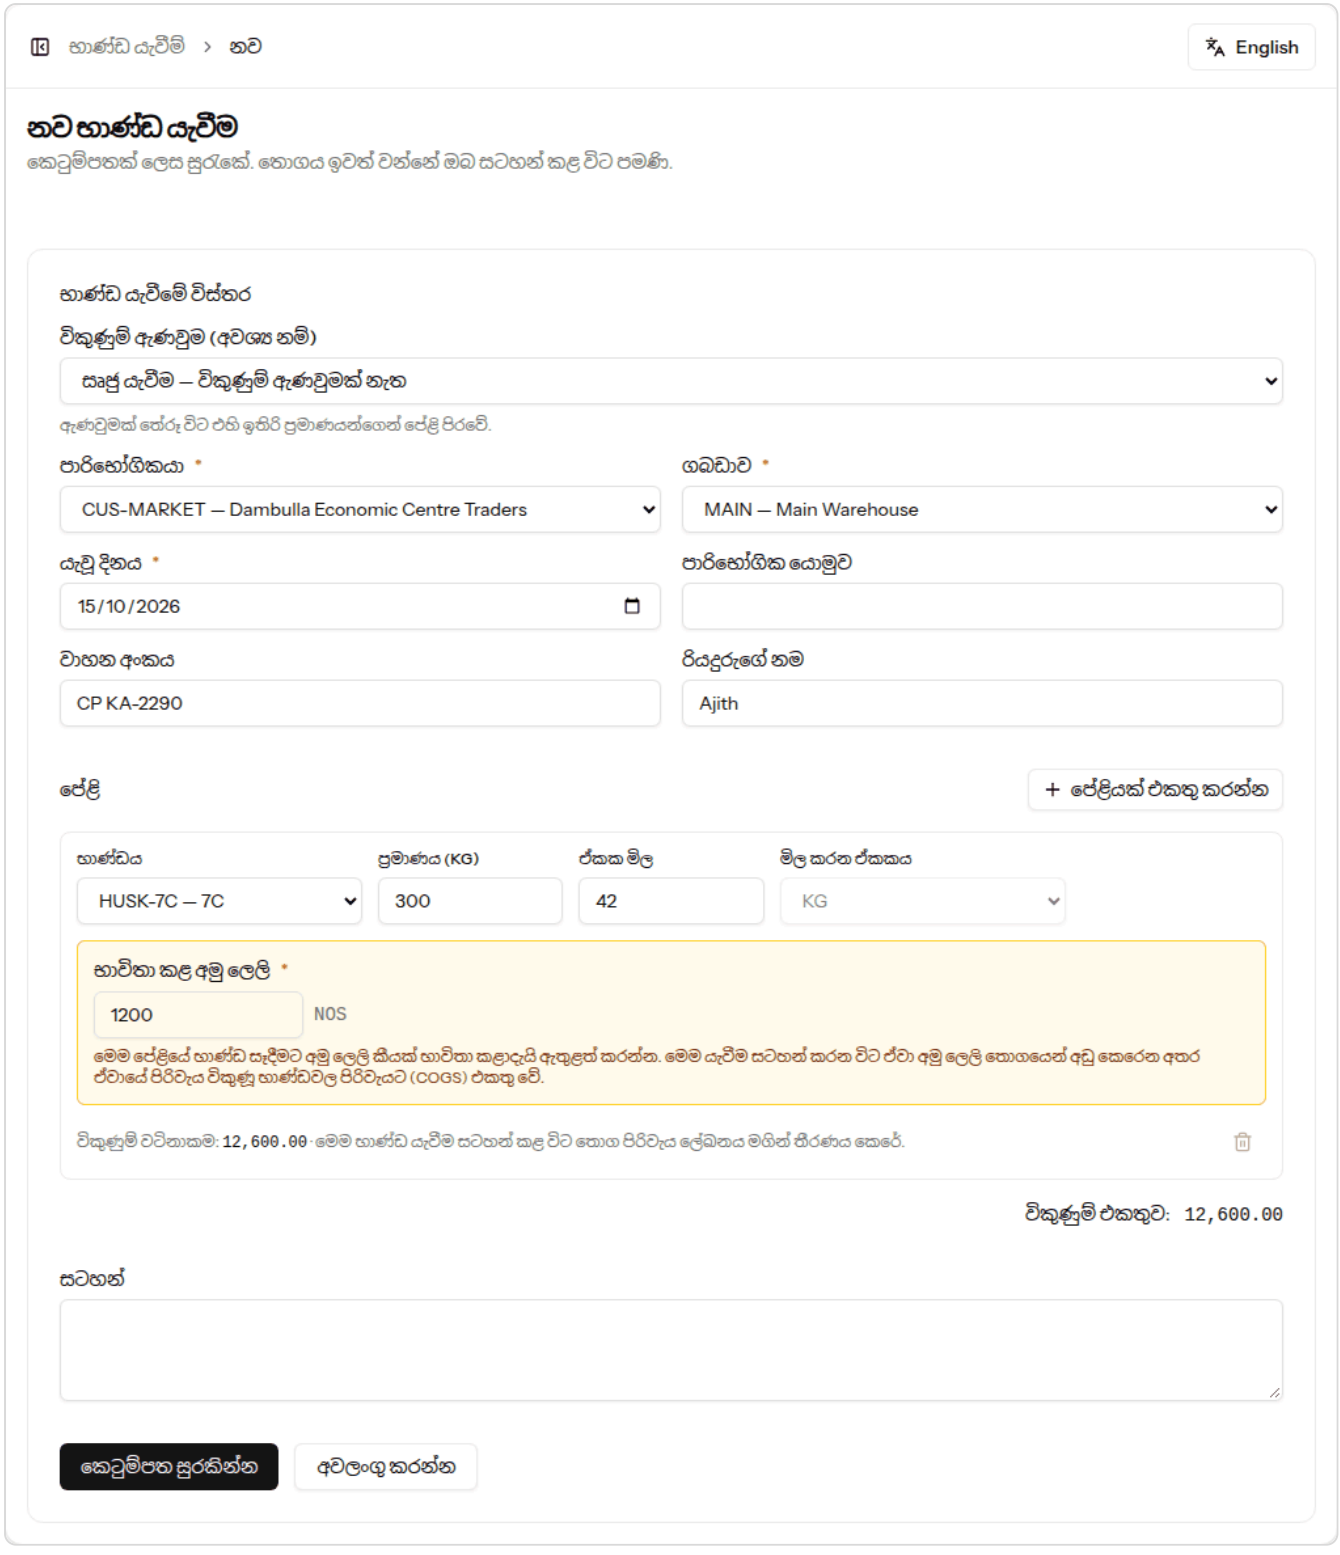

1. Open **Sales** → **Deliveries** and click **New delivery**. / **Deliveries** → **New delivery** ඔබන්න.
2. Choose the approved order in **Sales order (optional)** and the lines fill in from what is still outstanding, or leave it as **Direct delivery** and fill in the customer and lines yourself. / ඇණවුම තෝරාගත් විට පේළි ස්වයංක්‍රීයව පිරේ.
3. Enter the **Delivery date**, **Vehicle number** and **Driver name**. / දිනය, වාහන අංකය සහ රියදුරු.
4. Check each line's quantity and price. Then two special fields: / පේළි පරීක්ෂා කරන්න; විශේෂ කොටු දෙකක්:

- **Raw Husks Used** (chips and cocopeat only, required): how many raw husks went into the goods on this line. They are taken from raw husk stock when you post, and their cost becomes part of the cost of the chips. / **භාවිතා කළ අමු ලෙලි** — කොහු කෑලි සහ කොකෝපීට් සඳහා අනිවාර්යයි.
- **Lot** (copra and shell only): choose which batch is leaving. / **Lot** — කොප්පරා සහ පොල්කටු සඳහා කාණ්ඩය තෝරන්න.

5. Click **Save draft**, then **Post**. / **Save draft** සහ **Post**.

සිංහලෙන් / In Sinhala

The posted delivery shows the **Sales value**, the **Cost of goods sold** (the stock's average cost, plus the raw husks for chips), the **Gross profit** and **Gross margin**. You never type the cost; the system reads it from stock. / සටහන් කළ පසු විකුණුම් අගය, පිරිවැය සහ ලාභය පෙනේ; පිරිවැය කවදාවත් ටයිප් නොකරයි.

Inventory unit cost is the weighted average the ledger used when this delivery was posted — it is never entered by hand, and the selling price never affects it. Cost of goods sold follows the primary quantity, because that is what left stock, even on a line priced by weight. For chips and cocopeat it also includes the raw husks used, taken from stock at their average cost when the delivery was posted. Figures here are operational profitability; the delivery journal records the cost of sales, and revenue is recognised when it is invoiced.

5.3 When a delivery is refused or wrong / යැවීම ප්‍රතික්ෂේප වූ විට

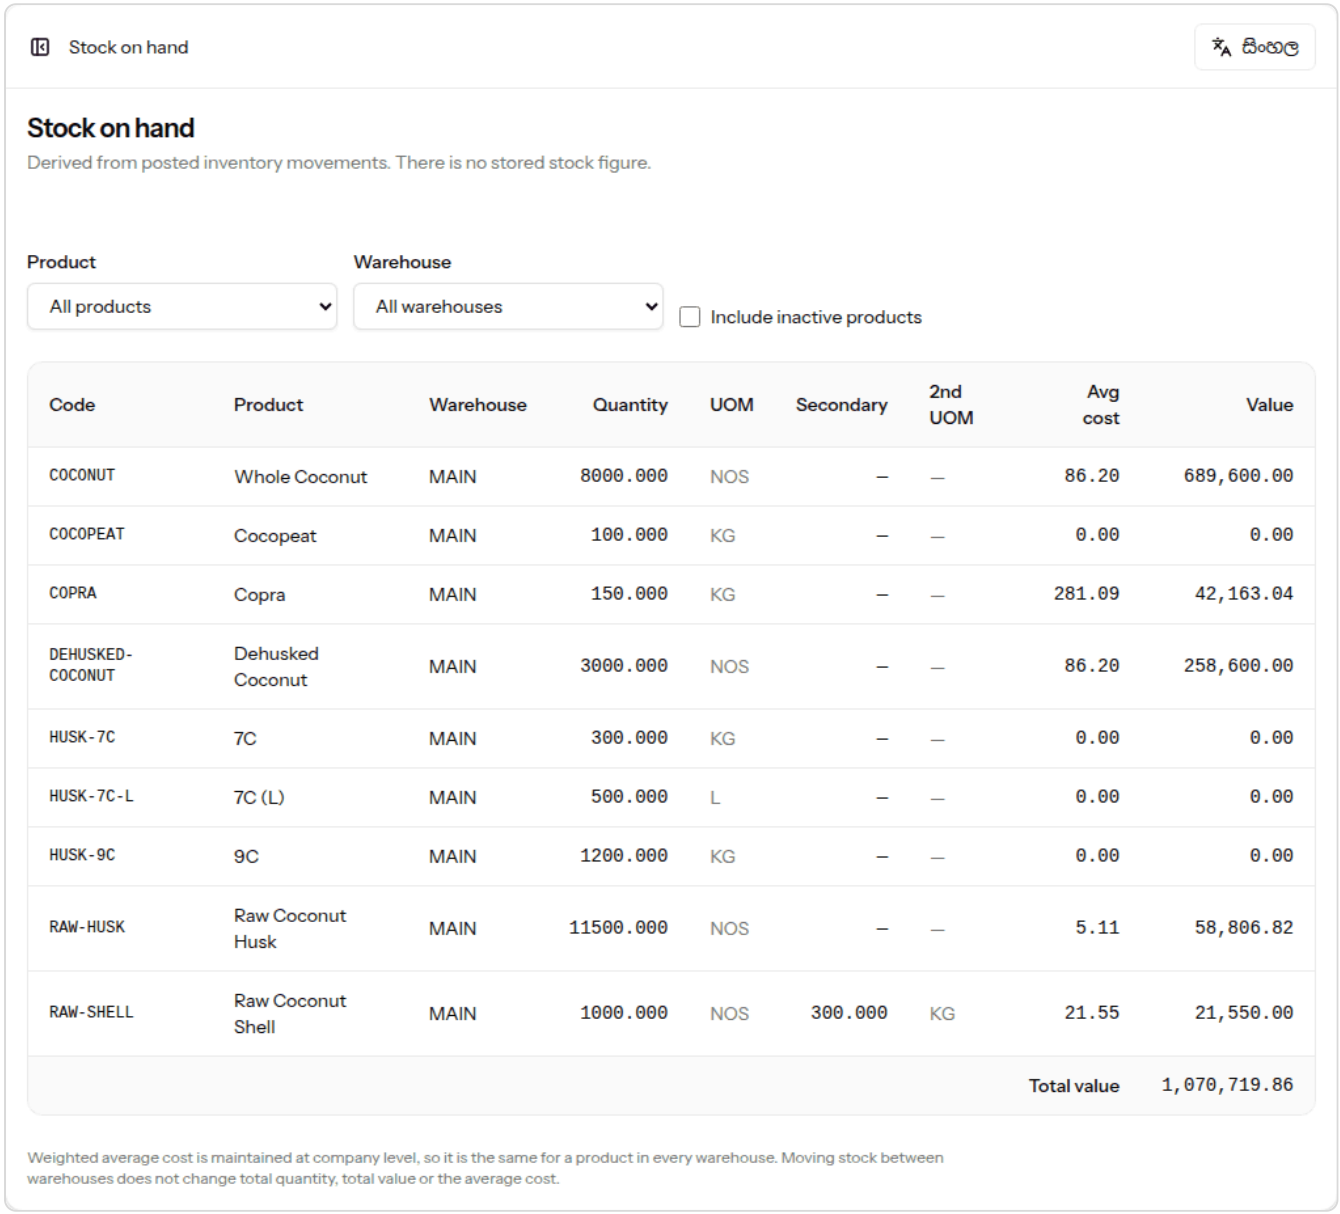

- **Not enough stock** (of the product or of raw husks): the whole delivery is refused and nothing changes. Post the receipt or production run that brings the stock first. / තොගය මදි නම් යැවීම සම්පූර්ණයෙන්ම ප්‍රතික්ෂේප වේ.
- **Posted with a mistake:** click **Reverse**. The goods, and any raw husks, return to stock at their original cost. A delivery that has already been invoiced cannot be reversed; reverse the invoice first. / වැරදි නම් **Reverse**; ඉන්වොයිසි කළ යැවීමක් මුලින් ඉන්වොයිසිය ආපසු හරවන්න.
- **Goods returned by a customer** have no screen yet (sales returns are not built). Speak to the accountant. / ආපසු එන භාණ්ඩ සඳහා තිරයක් තවම නැත.

6. Stock / තොගය

Stock is never typed in. Every quantity on these screens is worked out from posted documents: receipts and production outputs add stock; deliveries, production inputs and raw husks used take it away. That is why the stock screens have no Edit button, and why a mistake is fixed by reversing the document that caused it. / **තොගය කවදාවත් ටයිප් නොකරයි.** එය සටහන් කළ ලේඛන වලින් ගණනය වේ; වැරද්දක් නිවැරදි කරන්නේ එම ලේඛනය ආපසු හරවීමෙනි.

6.1 Stock on Hand / පවතින තොගය

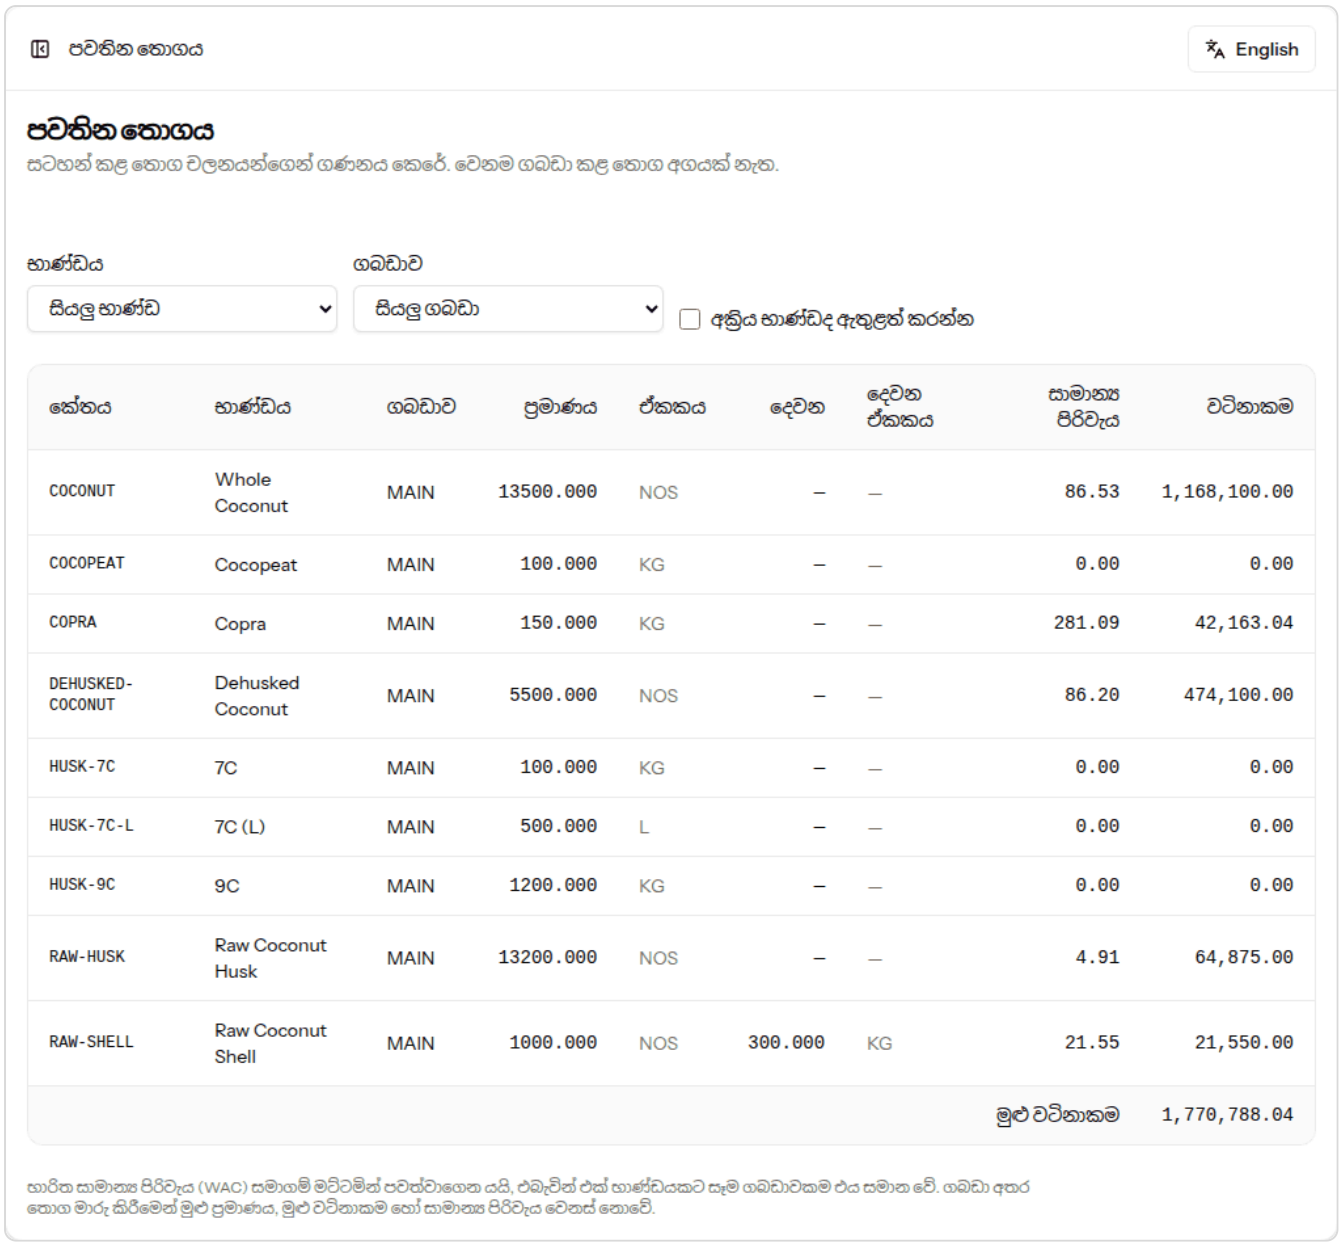

Inventory → Stock on Hand shows what is in each warehouse now: the **Quantity**, the **Secondary** quantity where one is kept (shell weight), the **Average cost** per unit and the **Value**. Filter by **Product** or **Warehouse** at the top. / සෑම ගබඩාවකම දැනට ඇති ප්‍රමාණය, සාමාන්‍ය පිරිවැය සහ වටිනාකම.

Code	Product	Warehouse	Quantity	UOM	Secondary	2nd UOM	Avg cost	Value
COCONUT	Whole Coconut	MAIN	8000.000	NOS	–	–	86.20	689,600.00
COCOPEAT	Cocopeat	MAIN	100.000	KG	–	–	0.00	0.00
COPRA	Copra	MAIN	150.000	KG	–	–	281.09	42,163.04
DEHUSKED-COCONUT	Dehusked Coconut	MAIN	3000.000	NOS	–	–	86.20	258,600.00
HUSK-7C	7C	MAIN	300.000	KG	–	–	0.00	0.00
HUSK-7C-L	7C (L)	MAIN	500.000	L	–	–	0.00	0.00
HUSK-9C	9C	MAIN	1200.000	KG	–	–	0.00	0.00
RAW-HUSK	Raw Coconut Husk	MAIN	11500.000	NOS	–	–	5.11	58,806.82
RAW-SHELL	Raw Coconut Shell	MAIN	1000.000	NOS	300.000	KG	21.55	21,550.00
							Total value	1,070,719.86

Weighted average cost is maintained at company level, so it is the same for a product in every warehouse. Moving stock between warehouses does not change total quantity, total value or the average cost.

සිංහලෙන් / In Sinhala

පවතින තොගය

English

පවතින තොගය

සටහන් කළ තොග චලනයන්ගෙන් ගණනය කෙරේ. වෙනම ගබඩා කළ තොග අගයක් නැත.

භාණ්ඩය: සියලු භාණ්ඩ

ගබඩාව: සියලු ගබඩා

අක්‍රිය භාණ්ඩද ඇතුළත් කරන්න

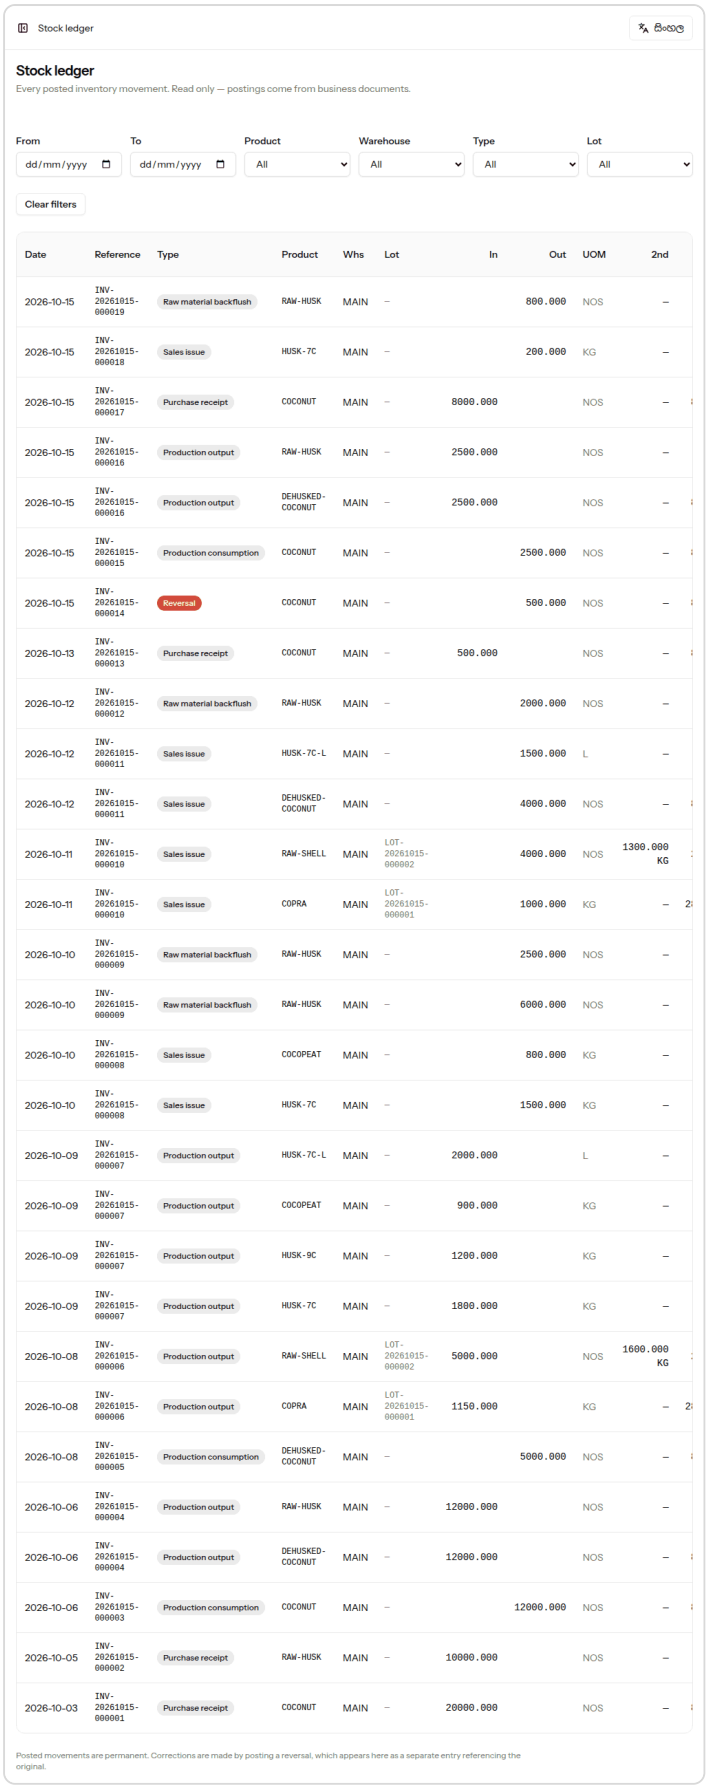

කේතය	භාණ්ඩය	ගබඩාව	ප්‍රමාණය	ඒකකය	දෙවන	දෙවන ඒකකය	සාමාන්‍ය පිරිවැය	වටිනාකම
COCONUT	Whole Coconut	MAIN	13500.000	NOS	–	–	86.53	1,168,100.00
COCOPEAT	Cocopeat	MAIN	100.000	KG	–	–	0.00	0.00
COPRA	Copra	MAIN	150.000	KG	–	–	281.09	42,163.04
DEHUSKED-COCONUT	Dehusked Coconut	MAIN	5500.000	NOS	–	–	86.20	474,100.00
HUSK-7C	7C	MAIN	100.000	KG	–	–	0.00	0.00
HUSK-7C-L	7C (L)	MAIN	500.000	L	–	–	0.00	0.00
HUSK-9C	9C	MAIN	1200.000	KG	–	–	0.00	0.00
RAW-HUSK	Raw Coconut Husk	MAIN	13200.000	NOS	–	–	4.91	64,875.00
RAW-SHELL	Raw Coconut Shell	MAIN	1000.000	NOS	300.000	KG	21.55	21,550.00
							මුළු වටිනාකම	1,770,788.04

භාරිත සාමාන්‍ය පිරිවැය (WAC) සමාගම් මට්ටමින් පවත්වාගෙන යයි, එබැවින් එක් භාණ්ඩයකට සෑම ගබඩාවකම එය සමාන වේ. ගබඩා අතර තොග මාරු කිරීමෙන් මුළු ප්‍රමාණය, මුළු වටිනාකම හෝ සාමාන්‍ය පිරිවැය වෙනස් නොවේ.

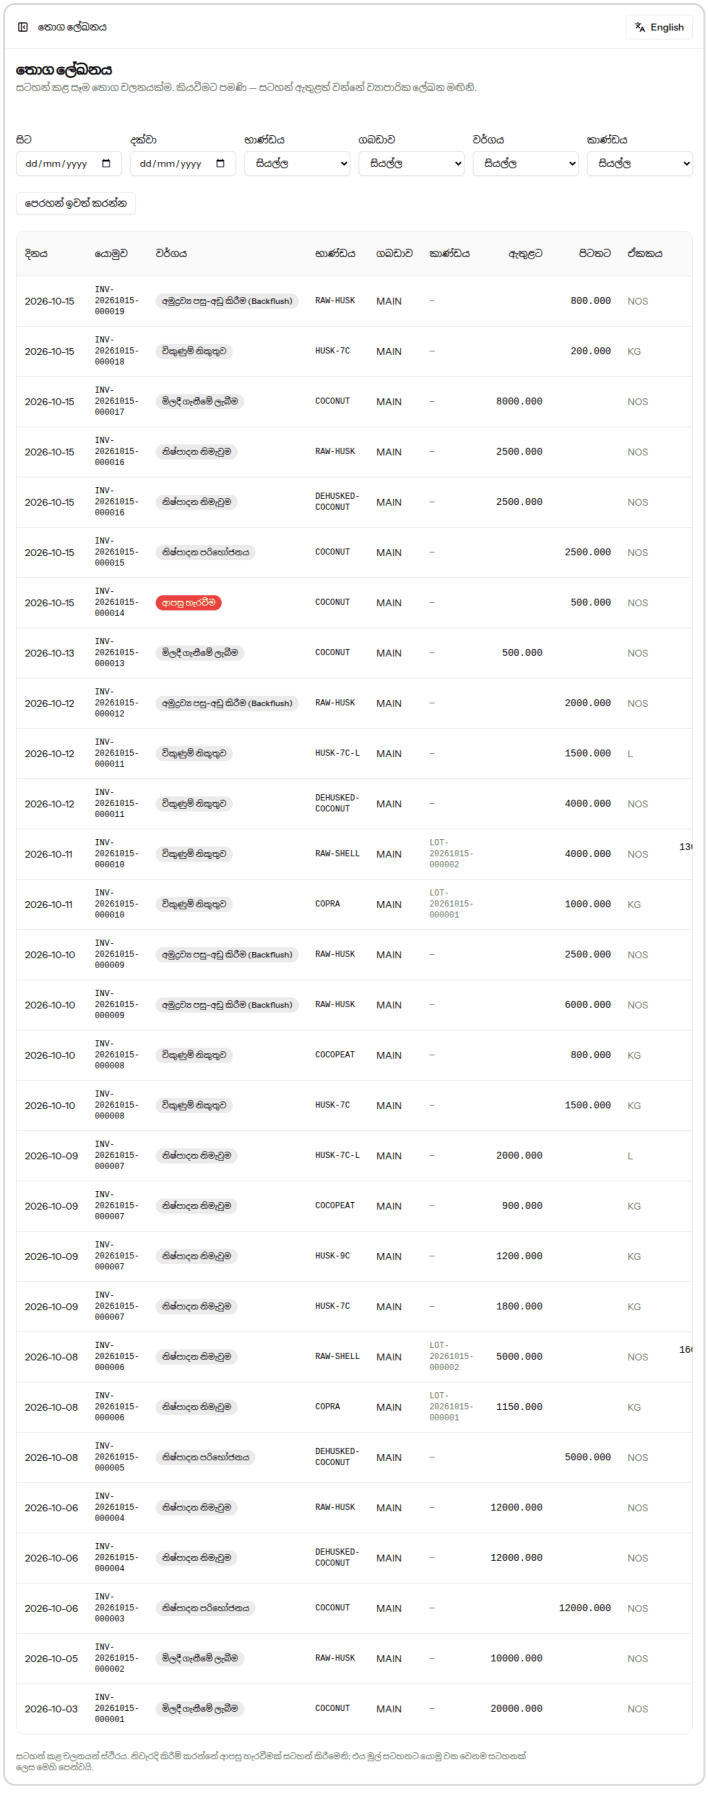

- **Average cost** is one company-wide *weighted average* per product: each new receipt or run blends into it. / සාමාන්‍ය පිරිවැය භාණ්ඩයකට එකක් පමණි.
- **Chips and cocopeat show 0.00 cost** until they are delivered. Their raw husk cost is added at delivery (Chapter 5), so this is expected. / කොහු කෑලි වල පිරිවැය 0.00 වීම සාමාන්‍යයි.
- **Stock can never go below zero.** A document that would need more than there is gets refused, and nothing changes. / තොගය කවදාවත් බින්දුවට අඩු නොවේ.

6.2 Stock Ledger / තොග ලේඛනය

Inventory → Stock Ledger lists every movement, newest first: the date, a reference, the **Type** (purchase receipt, production output, sales issue, raw material backflush, reversal…), the product, warehouse and lot, and the quantity **In** or **Out**. Use **From**, **To**, **Product**, **Warehouse**, **Type** and **Lot** to narrow it down, and **Clear filters** to see everything again. / සෑම තොග චලනයක්ම මෙහි ඇත; පෙරහන් වලින් සොයන්න.

සටහන් කළ චලනයන් ස්ථිරය. නිවැරදි කිරීම් කරන්නේ ආපසු හැරවීමක් සටහන් කිරීමෙනි; එය මුල් සටහනට යොමු වන වෙනම සටහනක් ලෙස මෙහි පෙන්වයි.

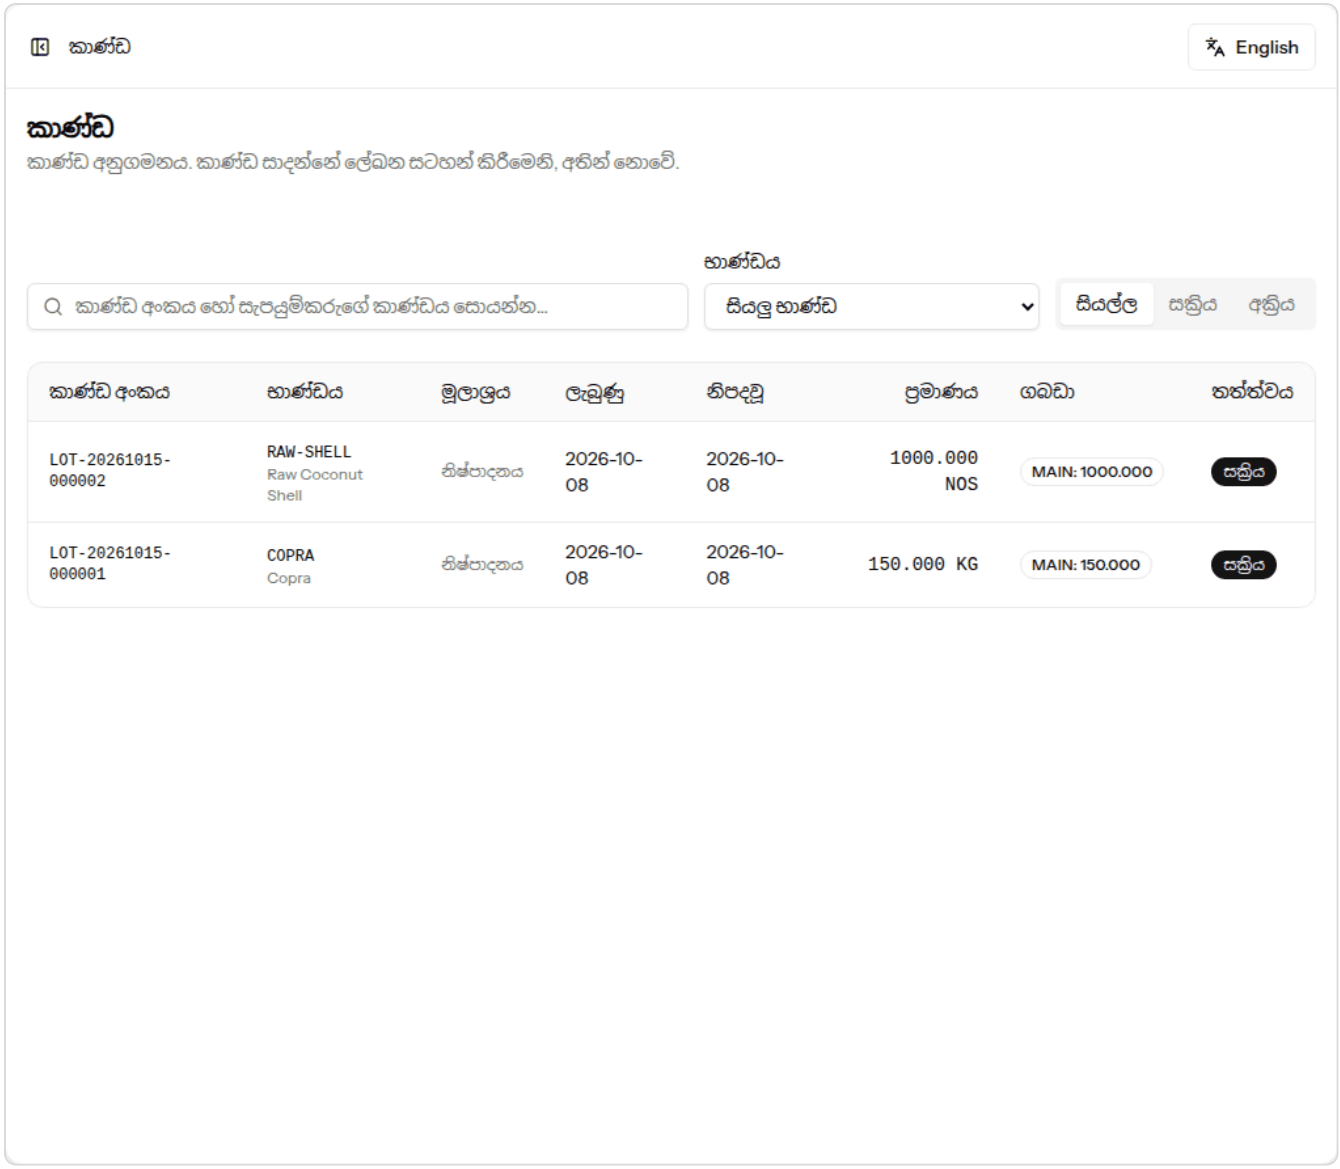

Use it to answer *"where did these husks go?"*: filter the product to `RAW-HUSK` and read the In and Out lines. / උදා: `RAW-HUSK` තෝරා අමු ලෙලි ගිය තැන බලන්න.

6.3 Lots / කාණ්ඩ

Inventory → Lots lists the batches of copra and shell: when each was made, how much of it is left and in which warehouse. Lots are created automatically by copra runs and receipts; nobody creates them by hand. Search by lot number, or filter by product or by **Active** / **Inactive** (used up). / කොප්පරා සහ පොල්කටු කාණ්ඩ සහ ඉතිරි ප්‍රමාණය.

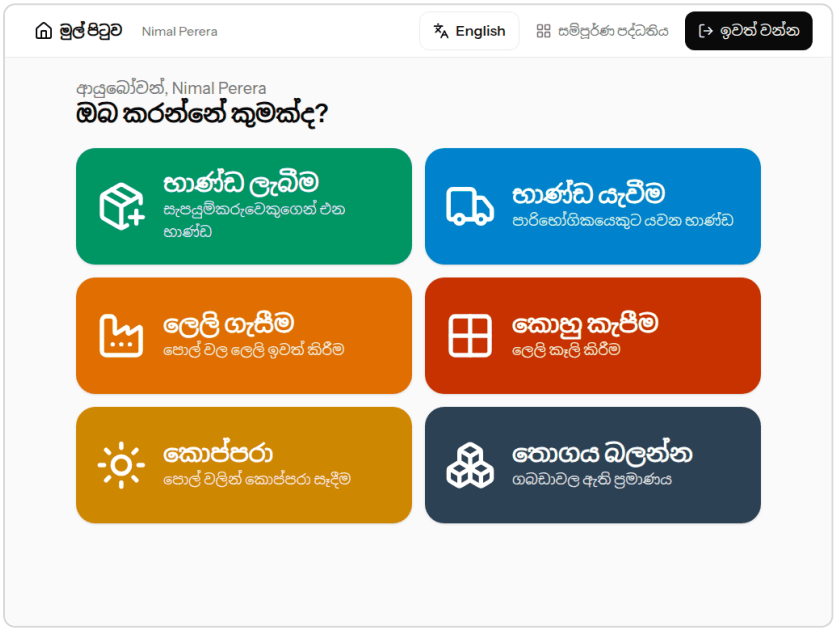

සිංහලෙන් / In Sinhala

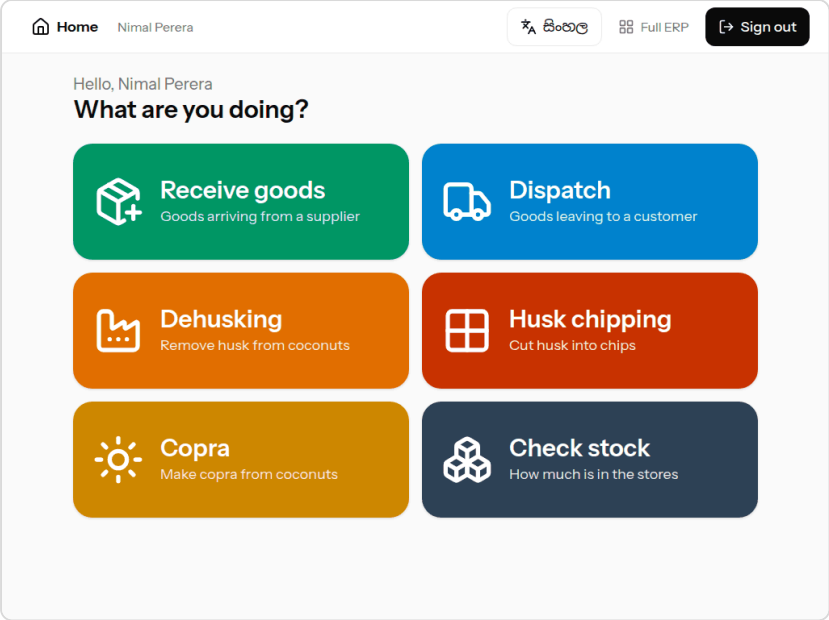

7. Simple mode for factory workers / කම්කරුවන් සඳහා සරල ක්‍රමය

සරල ක්‍රමයේ විශාල බොත්තම් ඇත; සෑම තිරයක්ම එක ප්‍රශ්නයක් අසයි. අවසානයේ **අවසන්** ඔබන විට වැඩය සුරකින අතර සටහන් ද කරයි. / Simple mode has big buttons and asks one question per screen. **අවසන් (Done)** on the last screen saves *and* posts the work in one go, so check the summary first.

- **විවෘත කිරීම:** මෙනුවේ **සරල ක්‍රමය** ඔබන්න. පරිපාලක විසින් *Start in simple mode* තෙරූ අයට ඇතුල් වූ වහාම මෙය විවෘත වේ. / Open it with **Simple mode** in the menu; people set to *Start in simple mode* land here when they sign in.
- **භාෂාව:** ඉහළින් **English** / **සිංහල** ඔබන්න. එය උපකරණයට මතක තබා ගනී. / The language button at the top is remembered per device.
- **අංක තැබීම:** තිරයේ අංක බොත්තම් ඔබන්න, නැතහොත් යතුරු පුවරුවෙන් ටයිප් කරන්න (Backspace මකයි; Enter = **ඊළඟ**). / Use the on-screen number pad or a keyboard. Enter means **Next**, never Done.
- **ආපසු** පෙර පියවරට යයි; **මුල් පිටුව** පළමු තිරයට යයි; **සම්පූර්ණ පද්ධතිය** සාමාන්‍ය තිරවලට යයි. / **Back** goes one step back, **Home** to the first screen, **Full system** to the normal screens.

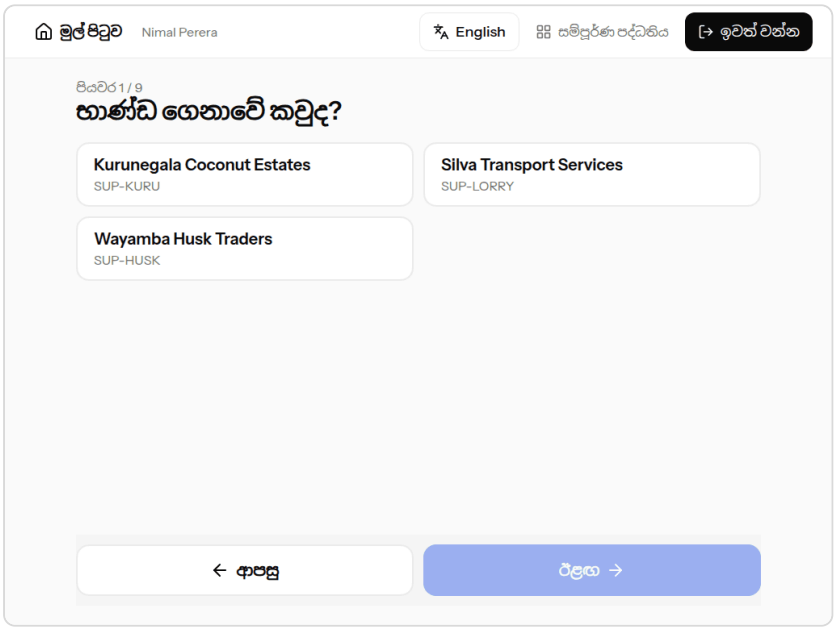

> ඔබට පෙනෙන්නේ ඔබගේ භූමිකාවට අදාළ වැඩ පමණි. / You only see the jobs your role allows.

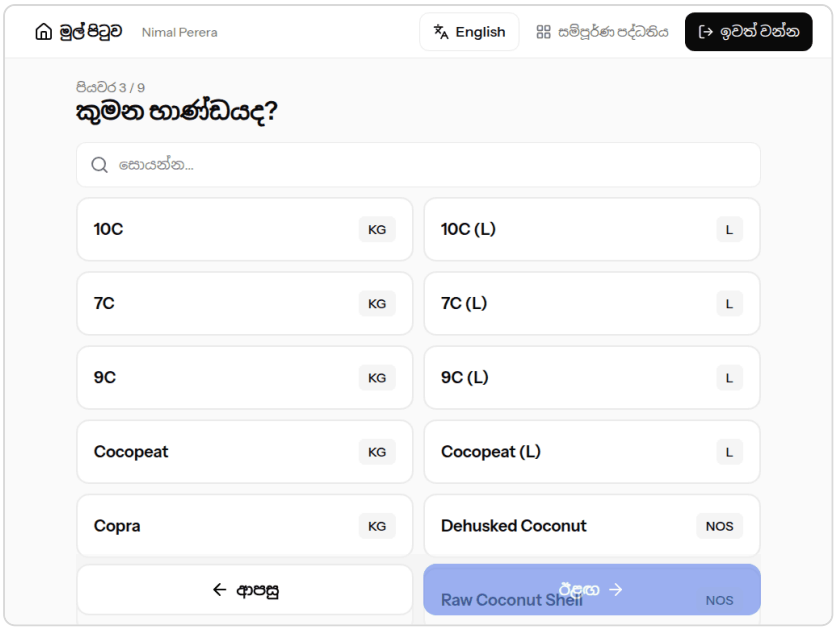

7.1 භාණ්ඩ ලැබීම / Receiving goods (9 steps)

1. භාණ්ඩ ගෙනාවේ කවුද? — සැපයුම්කරු ඔබන්න. / Tap the supplier.

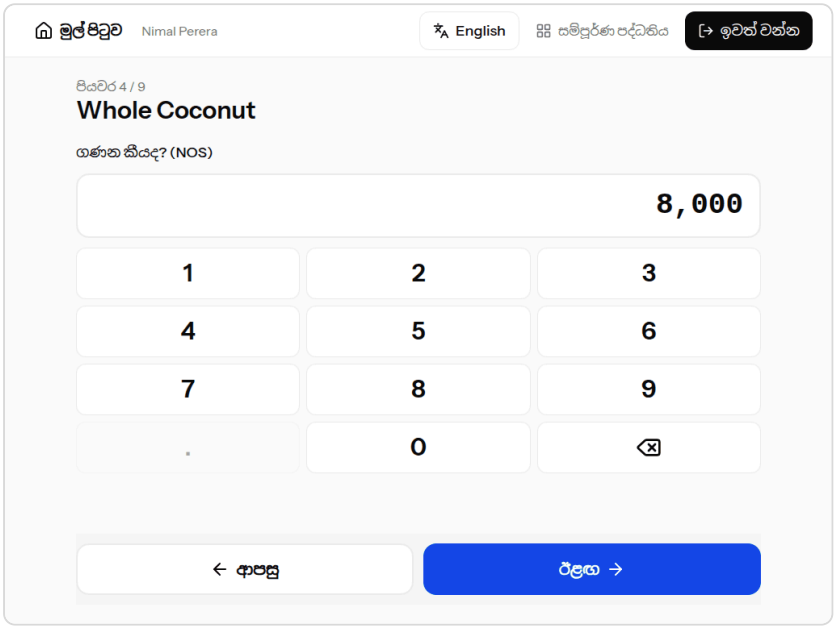

2. කුමන ගබඩාවද? — ගබඩාව ඔබා **ඊළඟ**. / Tap the warehouse, then Next.

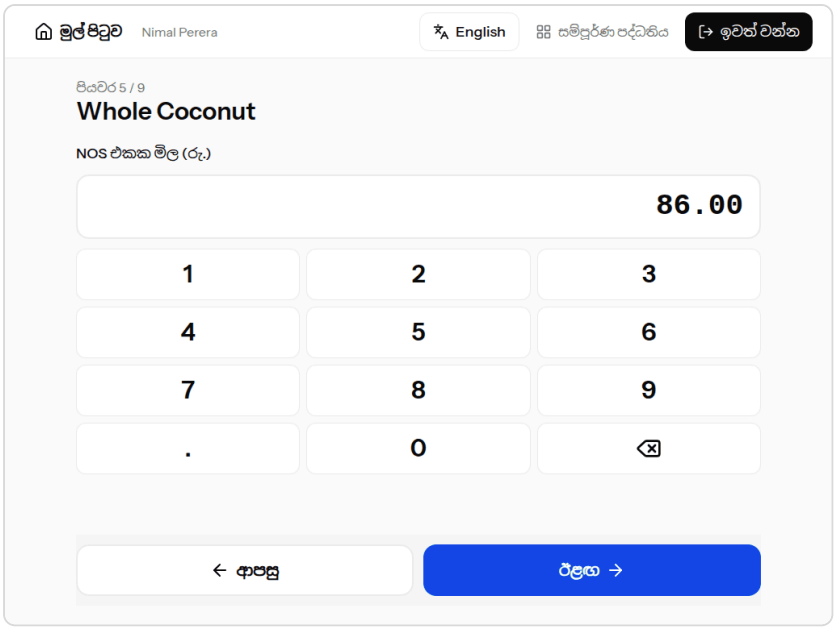

3. කුමන භාණ්ඩයද? — භාණ්ඩය ඔබන්න. / Tap the product.

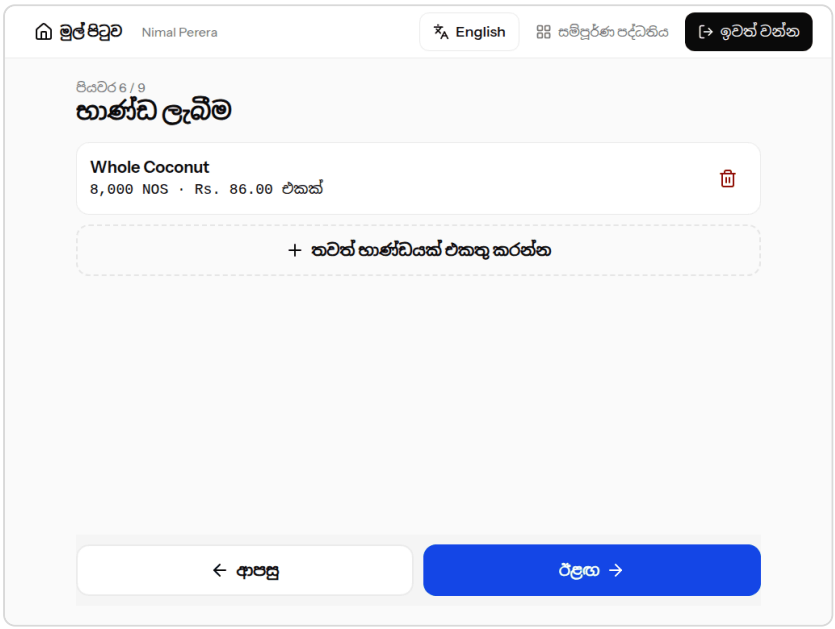

4. ගණන කීයද? — ප්‍රමාණය දමා **ඊළඟ**. / Type the quantity.

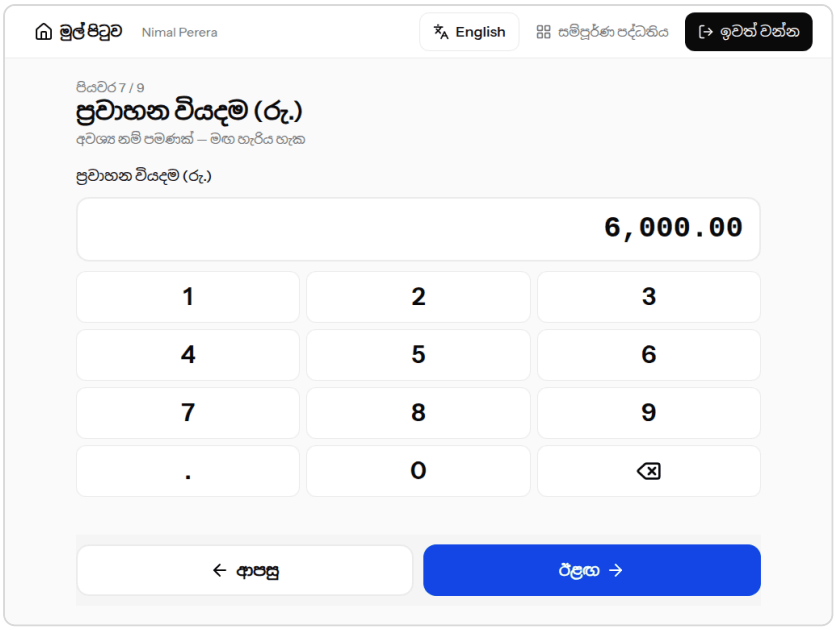

5. එකකවල මිල — මිල දමා **ඊළඟ**. / Type the price per unit.

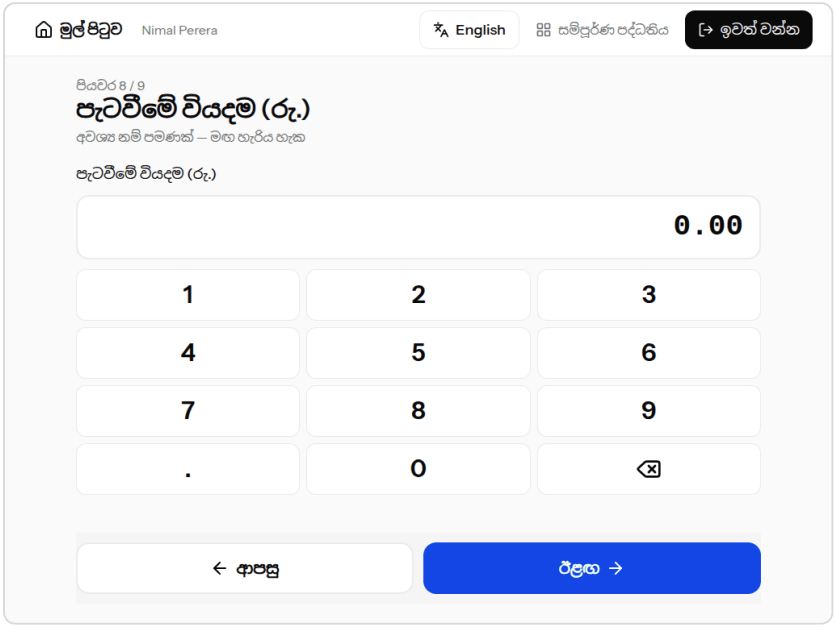

6. භාණ්ඩ ලැයිස්තුව පරීක්ෂා කරන්න. තවත් භාණ්ඩයක් ඇත්නම් **තවත් භාණ්ඩයක් එකතු කරන්න** ඔබන්න. / Check the items; add another if needed.

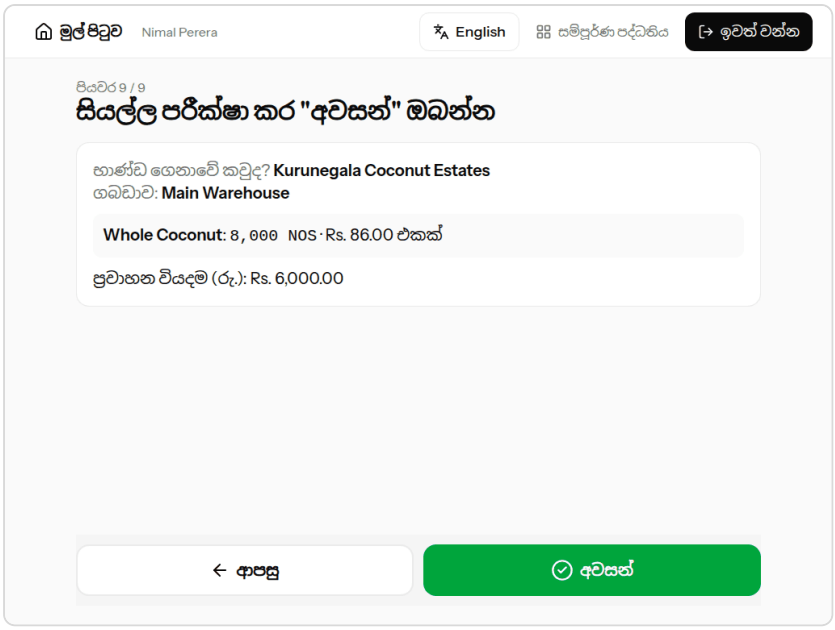

7–8. ප්‍රවාහන සහ පැටවීමේ වියදම — ඇත්නම් පමණක් දමන්න; නැත්නම් **ඊළඟ**. / Transport and loading cost, only if any.

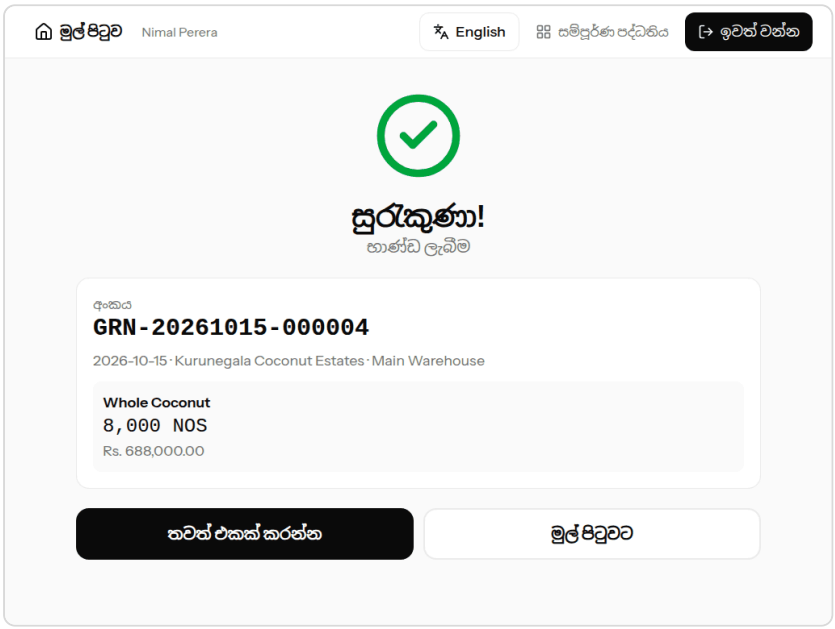

9. සියල්ල පරීක්ෂා කර **අවසන්** ඔබන්න. / Check everything and tap Done.

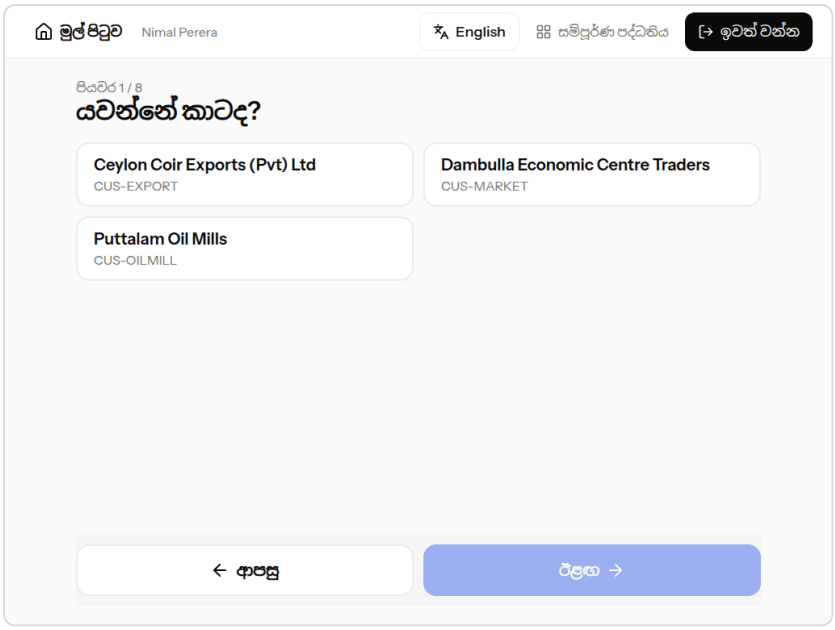

සුරැකුණා! තිරය ලේඛන අංකය පෙන්වයි. **තවත් එකක් කරන්න** හෝ **මුල් පිටුවට** ඔබන්න. / The *Saved!* screen shows the document number.

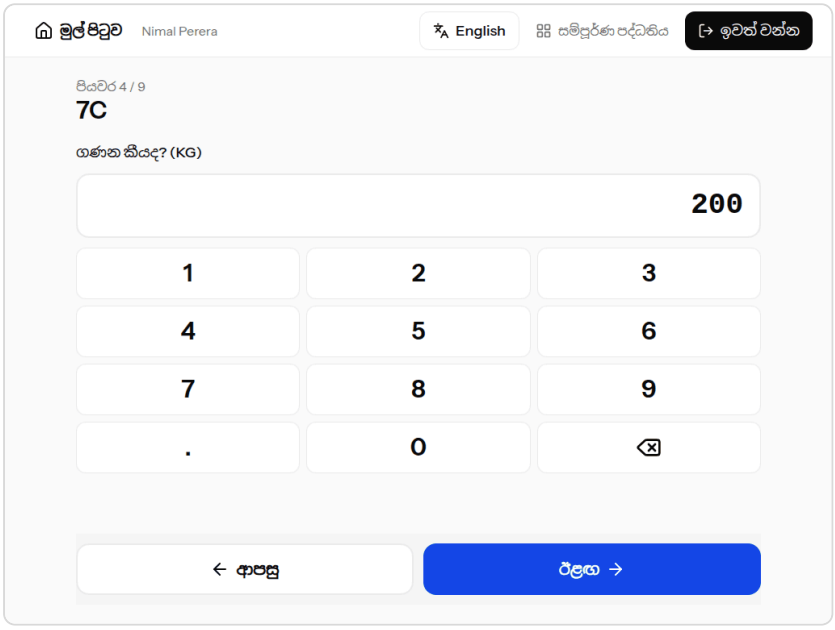

7.2 භාණ්ඩ යැවීම / Dispatching goods (8 steps)

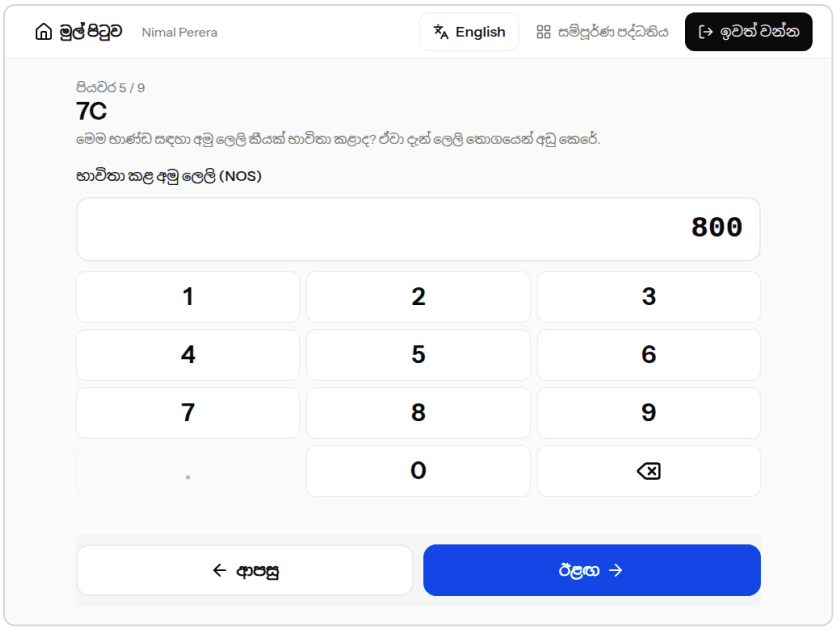

1. යවන්නේ කාටද? — පාරිභෝගිකයා ඔබන්න. ඊළඟට ගබඩාව සහ භාණ්ඩය තෝරන්න. / Tap the customer, then the warehouse and product.

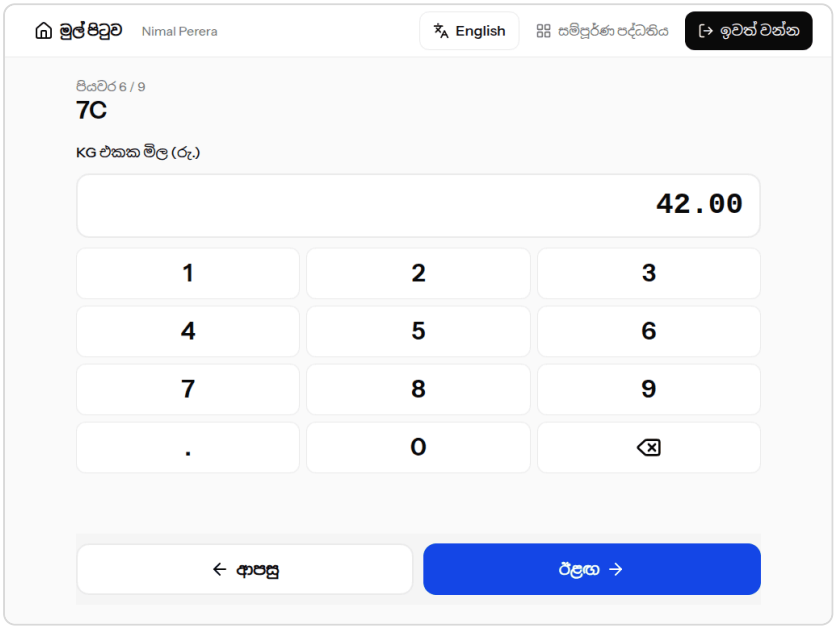

2. ගණන කීයද? — ප්‍රමාණය දමන්න (KG, L හෝ ගණන). / Type the quantity.

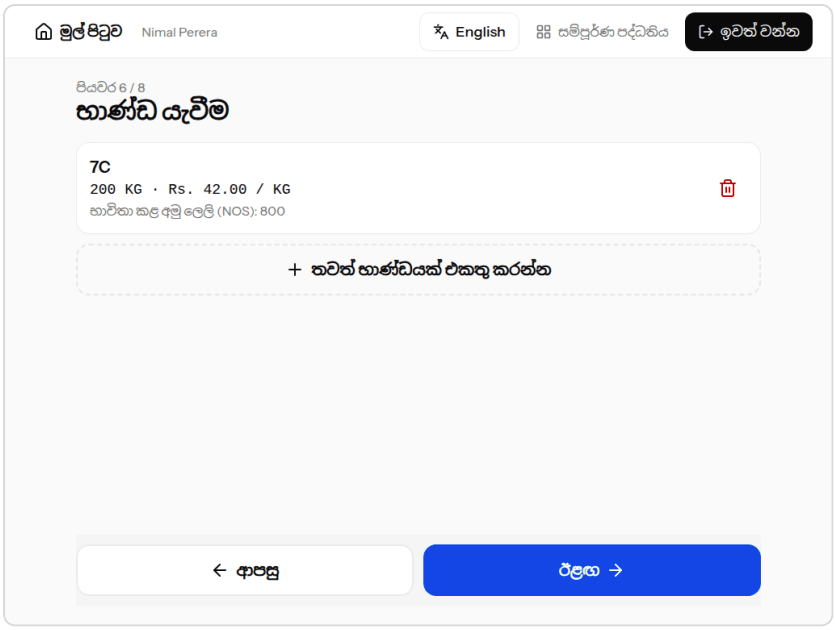

3. **කොහු කෑලි හෝ කොකෝපීට් නම්:** මෙම භාණ්ඩ සඳහා භාවිතා කළ අමු ලෙලි ගණන දමන්න. ඒවා ලෙලි තොගයෙන් අඩු වේ. / For chips or cocopeat, type how many raw husks were used.

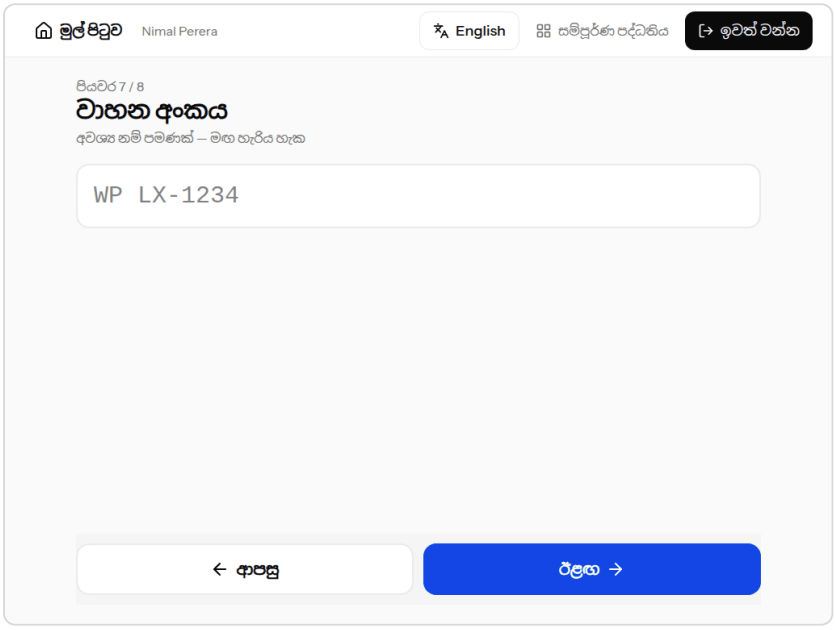

4. ඒකකයක මිල දමන්න. / Type the price per unit.

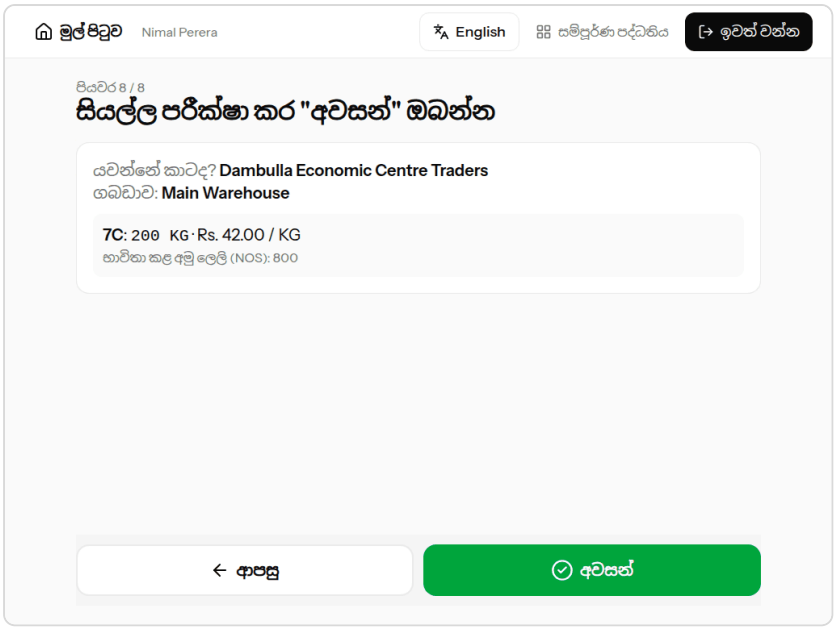

5. භාණ්ඩ ලැයිස්තුව පරීක්ෂා කරන්න; අවශ්‍ය නම් තවත් භාණ්ඩයක් එකතු කරන්න. / Check the items.

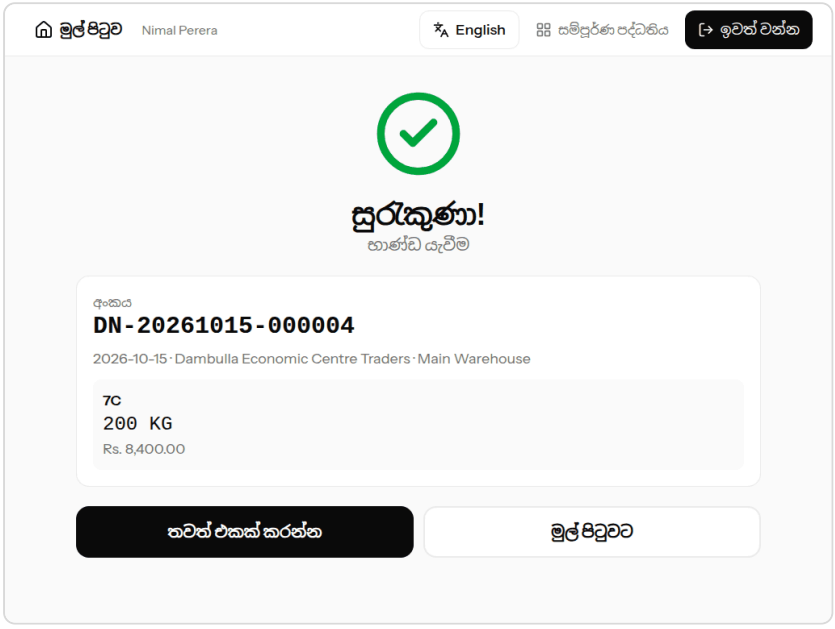

6. වාහන අංකය (අවශ්‍ය නම් පමණි). / The vehicle number, if any.

7. පරීක්ෂා කර **අවසන්** ඔබන්න. / Check and tap Done.

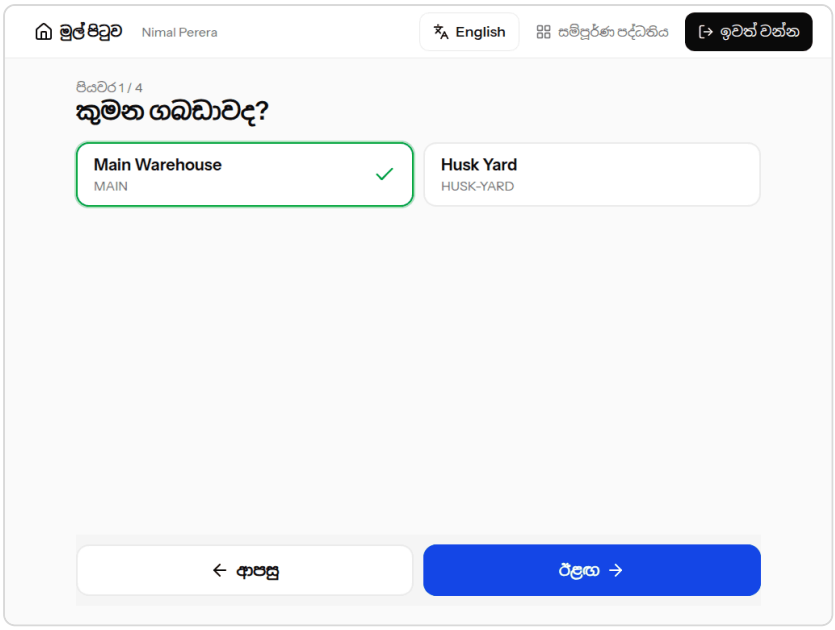

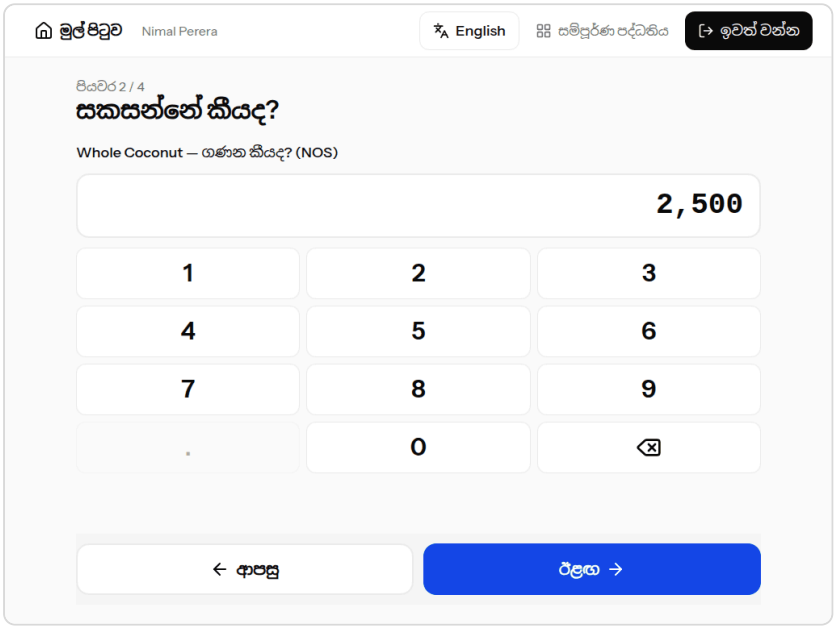

> ලෙලි හෝ භාණ්ඩ මදි නම් යැවීම ප්‍රතික්ෂේප වේ; කිසිවක් සුරැකෙන්නේ නැත. කාර්යාලයට කියන්න. / If there is not enough stock or husk, Done is refused and nothing is saved. Tell the office.

7.3 ලෙලි ගැසීම / Dehusking (4 steps)

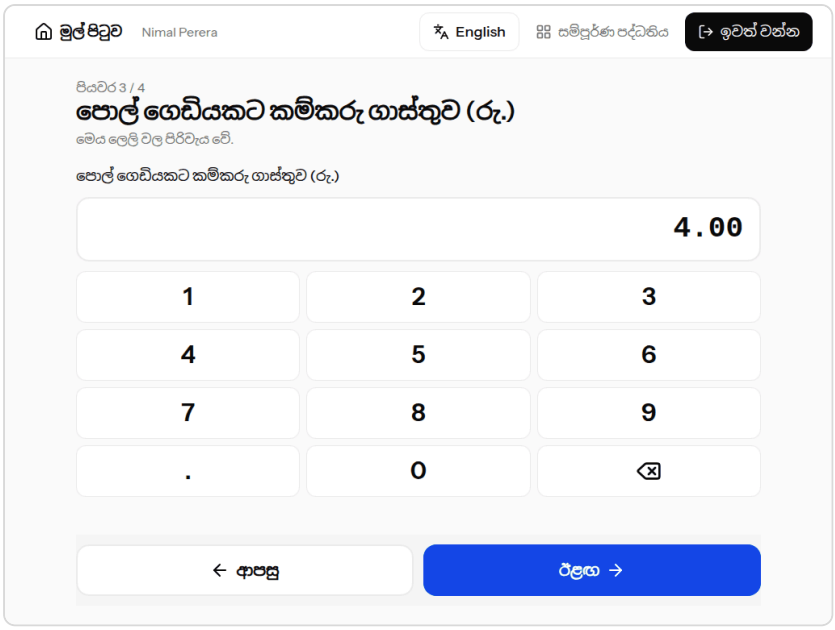

1. ගබඩාව තෝරන්න. / Choose the warehouse.

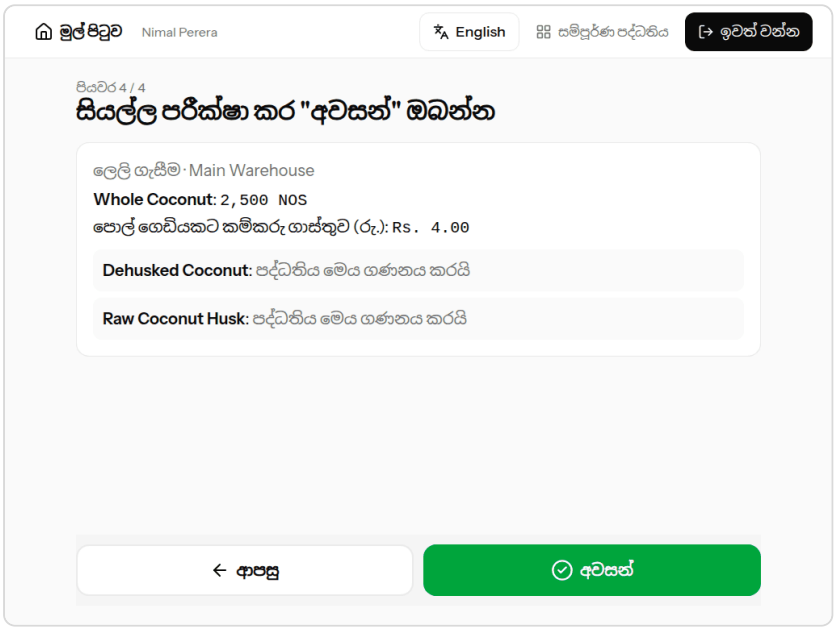

2. ලෙලි ගැසූ පොල් ගණන දමන්න. / Type how many coconuts.

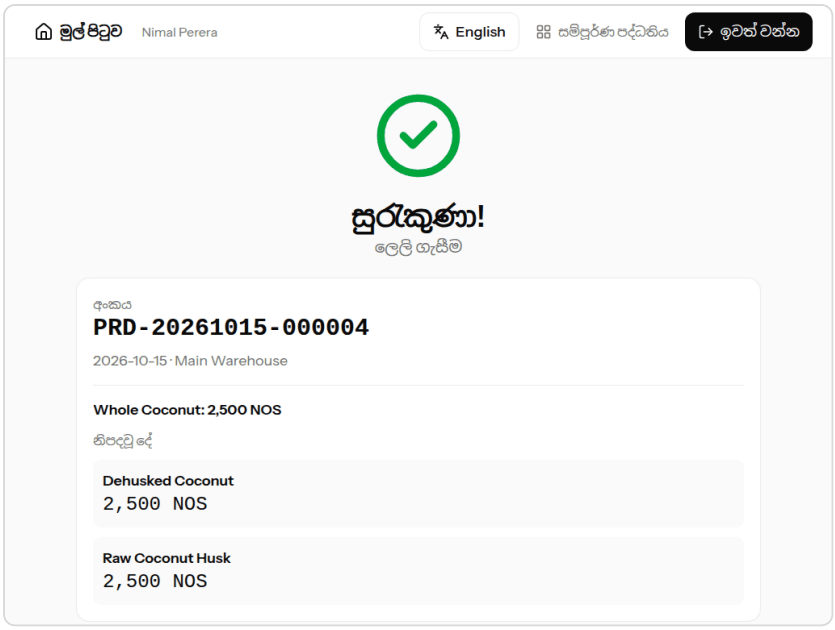

3. පොල් ගෙඩියකට කම්කරු ගාස්තුව — සාමාන්‍යයෙන් රු. 4.00; වෙනස් නම් පමණක් වෙනස් කරන්න. / Labour per coconut, normally Rs. 4.00.

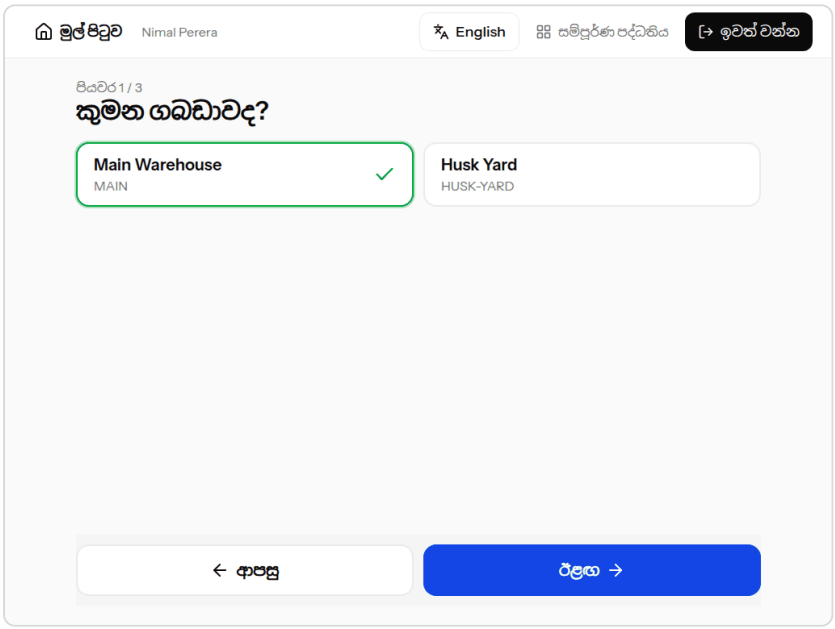

4. පරීක්ෂා කර **අවසන්**. ලෙලි ගැසූ පොල් සහ ලෙලි ගණන පද්ධතිය ගණනය කරයි. / Check and tap Done; the outputs are calculated.

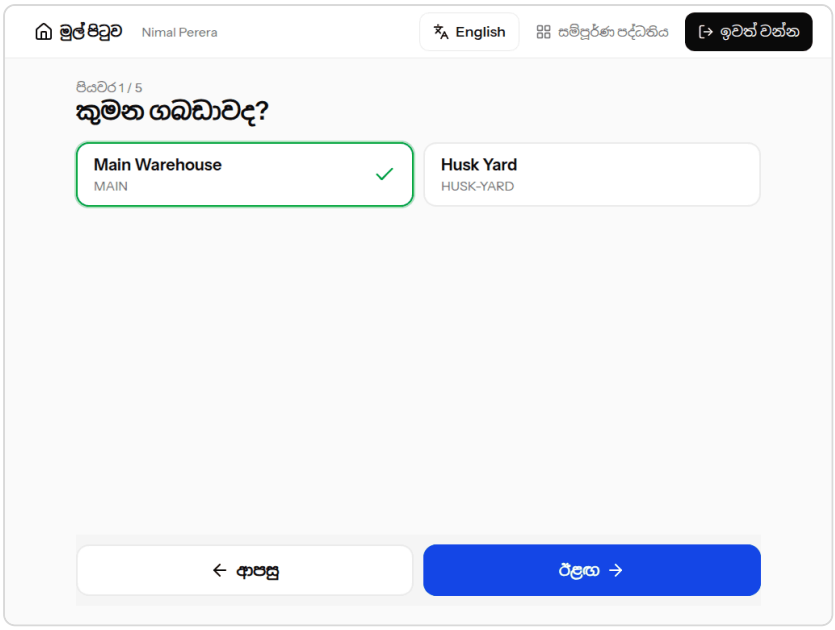

7.4 කොහු කැපීම සහ කොප්පරා / Husk chipping and copra

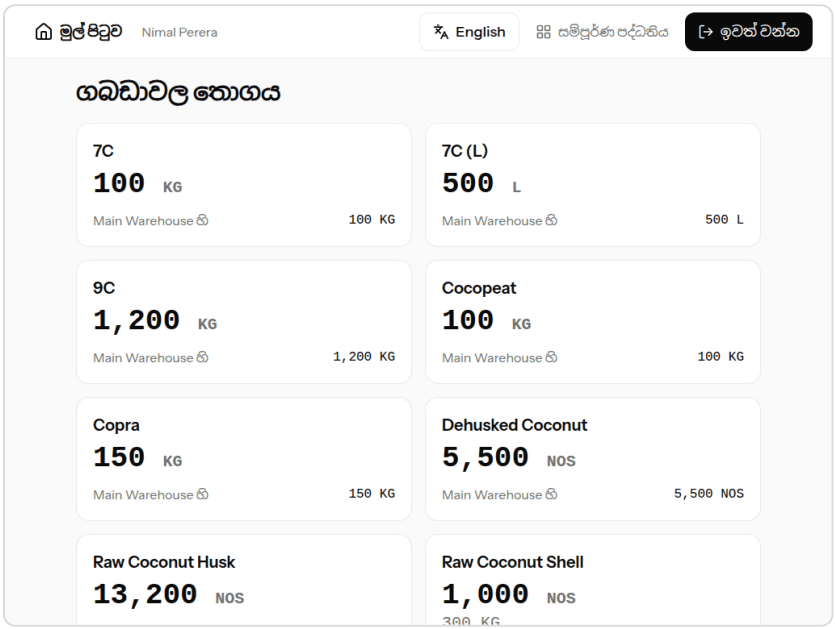

එකම ආකාරයට වැඩ කරයි: ගබඩාව, පසුව මැනූ ප්‍රමාණ (කොහු කෑලි: සෑම වර්ගයකම KG හෝ L; කොප්පරා: පොල් ගණන, කොප්පරා KG සහ පොල්කටු KG), අවසානයේ **අවසන්**. කොහු කැපීමේදී ලෙලි ගණනක් අසන්නේ නැත; පොල්කටු ගණන පද්ධතිය ගණනය කරයි. / The same pattern: warehouse, then the measured amounts (chips: each grade in KG or L; copra: coconuts, copra KG and shell KG), then Done. Chipping never asks for husks, and the shell count is calculated.

7.5 තොගය බලන්න / Checking stock

තොගය බලන්න ඔබා ගබඩාවල ඇති ප්‍රමාණය බලන්න. මෙහි කිසිවක් වෙනස් කළ නොහැක. / **Check stock** shows what is in each warehouse. It changes nothing.

7.6 දුරකථන යෙදුම (ඊළඟට) / The phone app (coming next)

Version 1.2.0 prepares the system for an Android phone app, which is being built now. It does the same jobs as simple mode — receive, dispatch, dehusking, husk chipping, copra — **without internet**, and sends them when the phone is back on wifi. / අනුවාදය 1.2.0 දැන් සාදමින් පවතින Android දුරකථන යෙදුමක් සඳහා පද්ධතිය සකසයි. එය සරල ක්‍රමයේ වැඩ (ලැබීම, යැවීම, ලෙලි ගැසීම, කොහු කැපීම, කොප්පරා) **අන්තර්ජාලය නොමැතිව** කර, දුරකථනය wifi වෙත සම්බන්ධ වූ විට යවයි.

- **Record now, send later:** the phone keeps each entry until it is on wifi; then press sync. / දුරකථනය wifi වෙත සම්බන්ධ වන තෙක් සටහන් එයම තබා ගනී; ඉන්පසු sync ඔබන්න.

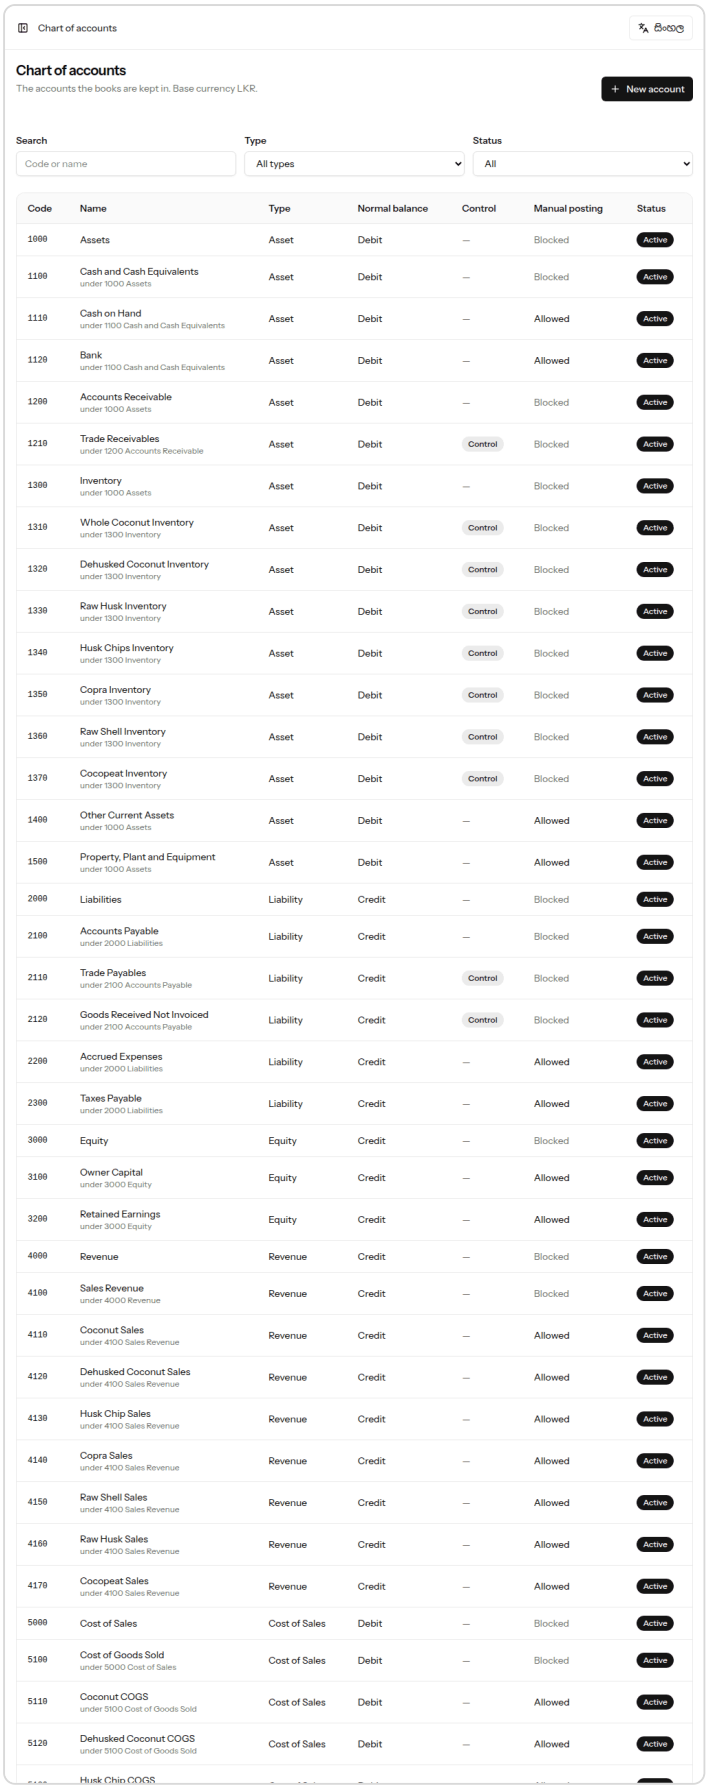

- **Saved and posted in one step,** like **අවසන් (Done)** in simple mode — there are no drafts. / සරල ක්‍රමයේ **අවසන්** මෙන් එක් පියවරකින් සුරකිනු සහ සටහන් වේ.
- **Never twice:** sending the same entry again, for example after the connection drops, never records it a second time. / සම්බන්ධතාවය බිඳී නැවත යැවුවත්, එකම සටහන දෙවරක් චේතත් නොවේ.
- **The real date:** work recorded on Monday and sent on Wednesday is dated Monday. If that month is already closed in accounting, the accountant must reopen it or the entry is refused. / සඳුදා සටහන් කර බදාදා යැවූ වැඩ සඳුදා දිනයට වාර්තා වේ.
- **Refused entries:** stock is checked when the entry arrives. If there is not enough, the whole entry is refused, nothing is saved, and the phone shows why — correct it and send again. Entries go oldest first and stop at a refused one. / තොගය මදි නම් සම්පූර්ණ සටහන ප්‍රතික්ෂේප වේ, කිසිවක් සුරකිනු නොවේ; දුරකථනය හේතුව පෙන්වයි. නිවැරදි කර නැවත යවන්න.
- **Mistakes after sending** are corrected in the ERP by **Reverse**, as for any posted document (3.4). / යැවූ පසු වැරදි ERP තුළ **ආපසු හරවන්න** මගින් නිවැරදි කරන්න.
- **Who may use it:** sign in with your normal email and password; you need the same permissions as for simple mode. A lost phone: the administrator deactivates the user or changes their password, which signs every phone out. / සාමාන්‍ය email සහ මුරපදයෙන් ඇතුල් වන්න. දුරකථනයක් නැති වූවහොත්, පරිපාලක මුරපදය වෙනස් කරයි — සියලු දුරකථන වලින් පිටවේ.
- **Traced:** the system keeps who sent each entry, from which phone, when it was made and when it arrived. / එක් එක් සටහන යැවූයේ කවුද, කුමන දුරකථනයෙන්ද, කවදා සාදා, කවදා ලැබුණේද යන්න පද්ධතිය තබා ගනී.

8. Accounting setup (accountant) / ගණුම් සැකසුම (ගණකාධිකාරී)

The accountant does this once, before the factory starts recording real work. Until accounting is switched on, documents move stock but write no journals. / සැබෑ වැඩ ආරම්භ කිරීමට පෙර ගණකාධිකාරී මෙය එක් වරක් කරයි.

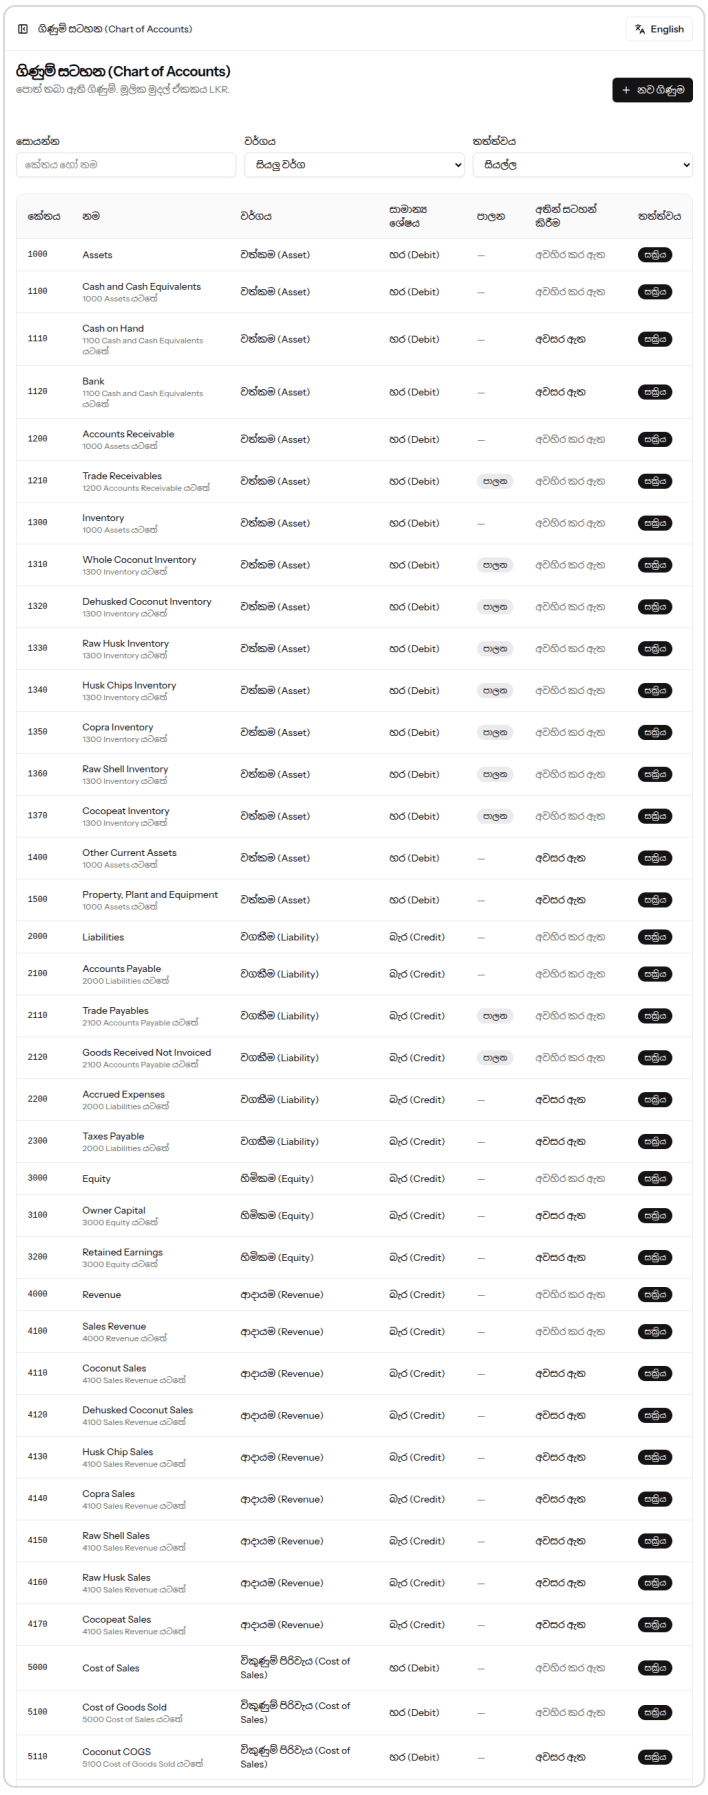

8.1 Chart of accounts / ගණුම් සටහන

Finance → Chart of Accounts lists every ledger account, grouped under headers (Assets, Liabilities, Equity, Revenue, Cost of Sales, Operating Expenses). A standard chart is already loaded. Add an account with **New account** (code, name, type and parent). An account that is no longer needed is **deactivated**, never deleted. Control accounts (Trade Payables, Trade Receivables, GRNI and the inventory accounts) are posted by the system only. / ගණුම් සටහන දැනටමත් පූරණය කර ඇත; ගණුම් මකා දැමෙන්නේ නැත, අක්‍රිය කරයි.

Close
A period cannot be closed while it still holds a draft — the draft would become unpostable and invisible to every report. Closing is final: reopening is deliberately not offered, because a closed period is the record of something already reported on. A reversal of an entry in a closed period posts into the open period containing the reversal's own date.

සිංහලෙන් / In Sinhala

Closing a period (when the month's books are final) is permanent: nothing more can be posted into it. A period that still holds a draft journal cannot be closed. / කාලපරිච්ඡේදයක් වැසීම ස්ථිරයි; නැවත විවෘත කළ නොහැක.

8.3 Accounting setup: the start date and product accounts / ආරම්භක දිනය සහ භාණ්ඩ ගණුම්

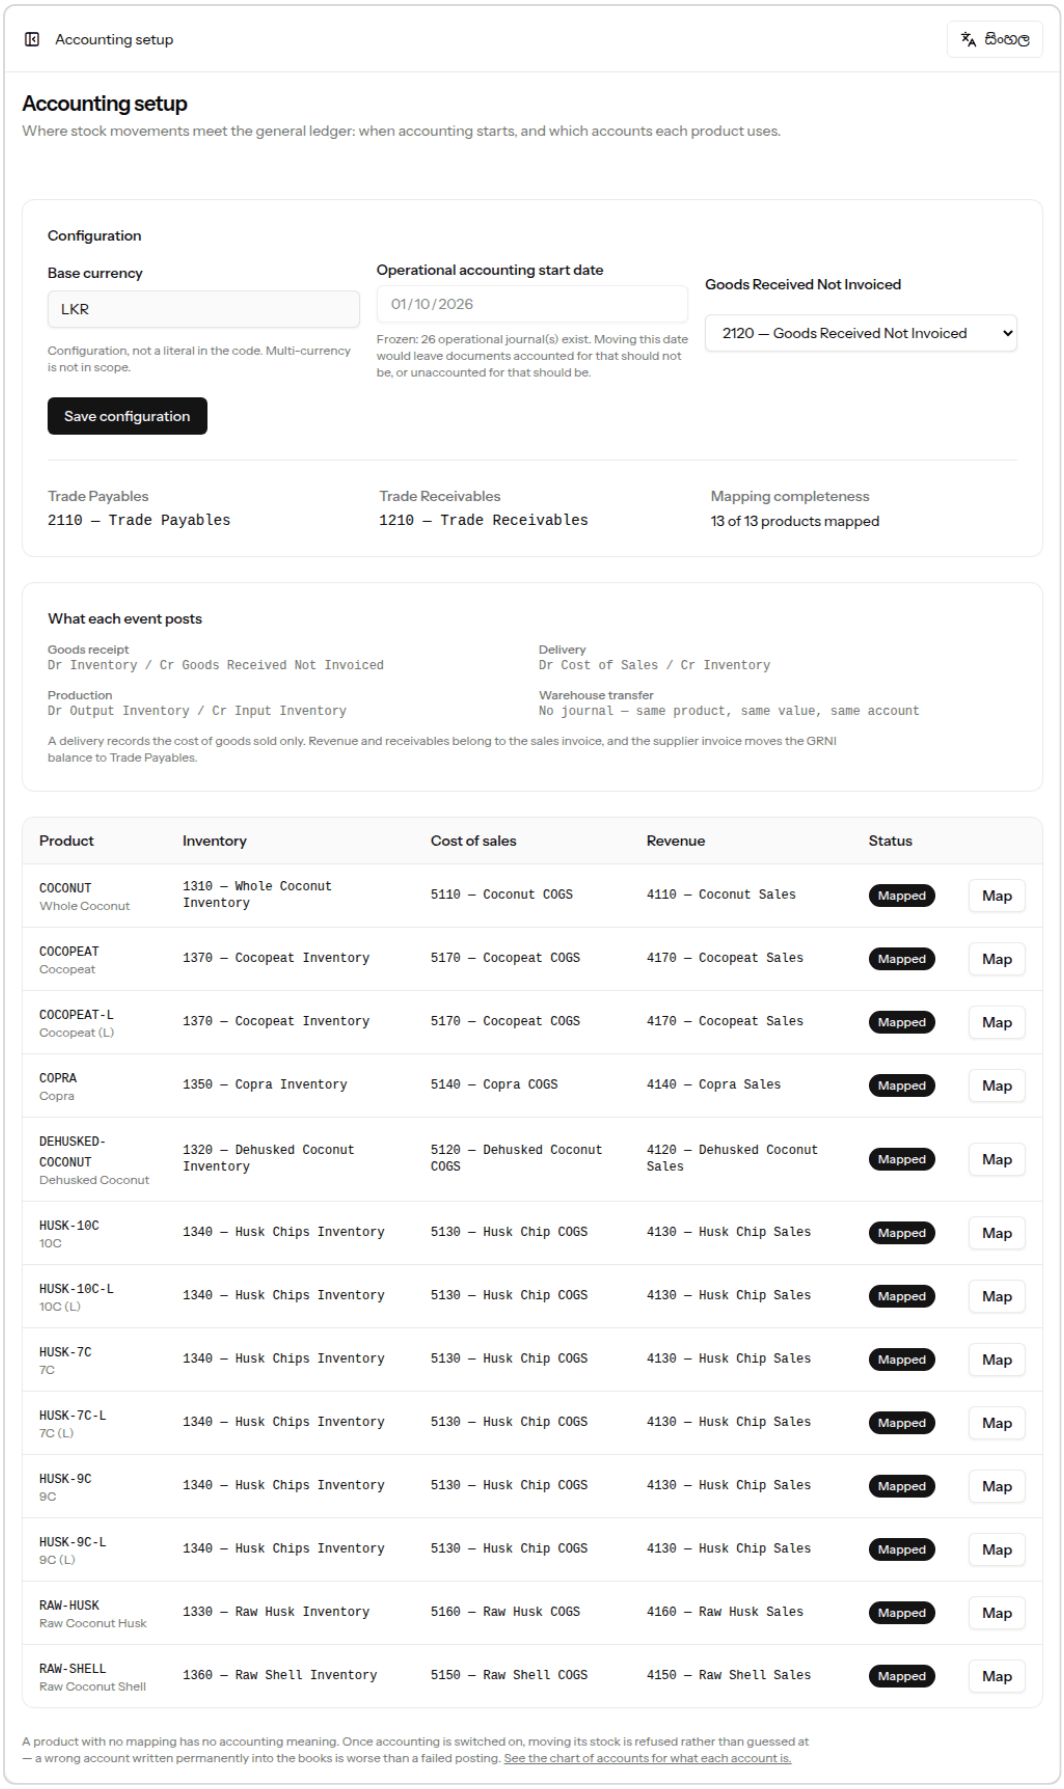

Open **Finance → Accounting Setup**. / **Accounting Setup** විවෘත කරන්න.

1. **Operational accounting start date:** from this date on, every receipt, production run, delivery, invoice and payment writes its journal automatically. Documents dated earlier never do. Choose the first day you want the books to cover and click **Save configuration**. **Once set, the date cannot be changed**, so agree it with the owner first. / මෙම දිනයෙන් පසු සෑම ලේඛනයක්ම සටහන් ස්වයංක්‍රීයව ලියයි. **සකසූ පසු වෙනස් කළ නොහැක.**

2. **Goods Received Not Invoiced:** the liability that holds a receipt's value until the supplier's invoice arrives. Leave it as set. / GRNI ගණුම එලෙසම තබන්න.

3. **Product accounts:** every product needs an Inventory, a Cost of sales and a Revenue account. The table shows **Mapped** for each. A new product shows *not mapped*: click **Map** and choose its three accounts. An unmapped product is refused, not guessed at. / සෑම භාණ්ඩයකටම ගණුම් තුනක් අවශ්‍යයි; නව භාණ්ඩයකට **Map** ඔබන්න.

The page also shows *what each event posts*, for example a delivery is *Dr Cost of Sales / Cr Inventory*. / සෑම සිදුවක්ම ලියන සටහන මෙහි පෙනේ.

Accounting setup
සිංහල
Accounting setup
Where stock movements meet the general ledger: when accounting starts, and which accounts each product uses.
Configuration
Base currency

සම්බන්ධ කිරීමක් (Mapping) නැති භාණ්ඩයකට ගිණුම්කරණ අර්ථයක් නැත. ගිණුම්කරණය සක්‍රිය කළ පසු, අනුමාන කරනවා වෙනුවට එහි තොගය චලනය කිරීම ප්‍රතික්ෂේප කෙරේ — පොත්වල ස්ථිරව ලියැවෙන වැරදි ගිණුමක් අසාර්ථක සටහන් කිරීමකට වඩා නරකය. එක් එක් ගිණුම කුමක්දැයි දැනගැනීමට ගිණුම් සටහන (Chart of Accounts) බලන්න.

8.4 Cash and bank accounts / මුදල් සහ බැංකු ගණුම්

Cash & bank → Cash / Bank Accounts lists the accounts money may be paid from or into. Only accounts listed here can be used on payments, receipts, vouchers and transfers. Click **Configure account**, choose the ledger account, whether it is **Cash** or **Bank**, and for a bank its name, branch and account number. Cash payments must use a Cash account; cheques and transfers a Bank account. / මෙහි ඇති ගණුම් පමණක් ගෙවීම් සහ ලැබීම් සඳහා භාවිතා කළ හැක.

සිංහලෙන් / In Sinhala

8.5 Opening balances / ආරම්භක ශේෂ

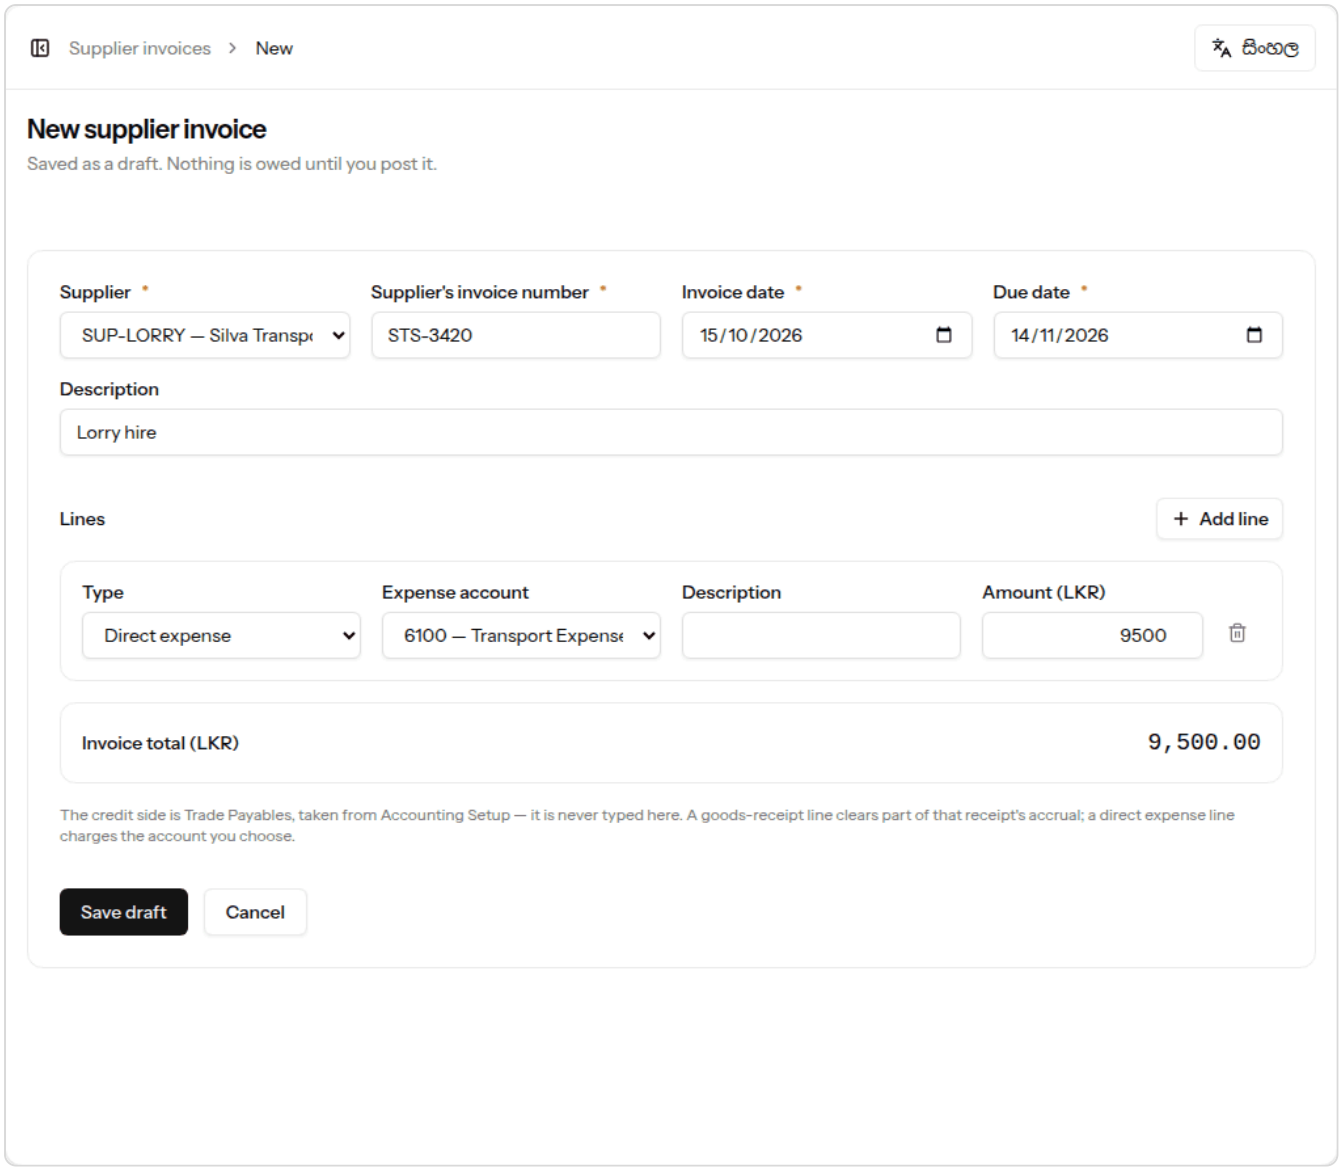

Money already in the bank and in the safe on the start date is entered as a **manual journal** (Chapter 11), for example *Dr Bank, Dr Cash on Hand / Cr Owner Capital*. Stock that was already in the factory before the start date has no journal behind it; the **Inventory vs GL** report (Chapter 12) shows that difference so the accountant can deal with it. / ආරම්භක මුදල් ශේෂ අතින් සටහනක් (journal) ලෙස ඇතුළත් කරන්න.

9. Paying suppliers (accounts payable) / සැපයුම්කරුවන්ට ගෙවීම

When goods are received, the system records that you owe for them but have not yet been billed (*Goods Received Not Invoiced*, GRNI). The **supplier invoice** turns that into a real debt to a named supplier, and the **supplier payment** settles it. / භාණ්ඩ ලැබෙන විට ණයක් සටහන් වේ; සැපයුම්කරුගේ ඉන්වොයිසිය එය සැබෑ ණයක් බවට පත් කරයි; ගෙවීම එය පියවයි.

9.1 Entering a supplier invoice / සැපයුම්කරු ඉන්වොයිසිය

1. Open **Accounts payable** → **Supplier Invoices** and click **New supplier invoice**. / **Supplier Invoices** → **New** ඔබන්න.
2. Choose the **Supplier**, type **Supplier's invoice number**, the **Invoice date** and the **Due date**. / සැපයුම්කරු, ඉන්වොයිසි අංකය සහ දිනයන්.
3. Add a line for each part of the bill and choose its **Type**: / සෑම පේළියකටම වර්ගය තෝරන්න:
    - **Goods received (GRNI match):** for goods, transport or loading on a goods receipt. Pick the **Goods receipt** and type the amount billed. Part of a receipt is fine, and the goods, transport and loading may each come from a different company. / ලැබුණු භාණ්ඩ සඳහා: GRN එක තෝරා මුදල දමන්න.
    - **Direct expense:** for a bill that is not for stock (lorry hire, repairs). Pick the expense account. / වියදම් සඳහා: වියදම් ගණුම තෝරන්න.
4. Click **Save draft**, check the total against the paper invoice, then **Post**. / **Save draft** සහ **Post**.

A payment settles invoices; it never touches Goods Received Not Invoiced, which the invoice already cleared, and it never touches inventory. Reversing it restores each invoice's outstanding balance without deleting anything — the allocations stay on the record and simply stop counting.

712,500.00
2110 Trade Payables carries 712,500.00 in the general ledger, against an aging total of 712,500.00 — reconciled.
Every figure is derived from posted invoices less the payments still allocated to them — nothing is stored, and no supplier carries a balance column. A reversed invoice disappears from this report entirely, and a reversed payment stops reducing what is owed. No revenue or tax is modelled anywhere in this phase.

The accrued figure is read from each receipt's own posted journal, never re-derived from quantity and unit cost. A receipt may be invoiced by several suppliers — goods, transport and loading are commonly three different companies — so an amount left over here is normal until every one of them has billed. Nothing is written off automatically: if invoices never fully clear a receipt, the remainder stays visible.

Each line bills part of what was delivered, at the value the delivery already recorded — nothing is repriced here. The revenue account comes from the product's mapping, so there is no account to choose. Billing less than the remaining amount is fine; the rest stays available for a later invoice.

Posting this invoice changed no inventory and added no cost of sales: the delivery already recorded what the goods cost when they left. It bills the value the delivery stored, so nothing is repriced here. Reversal is an audit correction, not a credit note — a commercial return or allowance is a separate document that is not built yet.

A receipt settles invoices. It recognises no revenue — the invoice already did that — and it touches no inventory or cost of sales. Reversing it restores each invoice's outstanding balance without deleting anything: the allocations stay on the record and simply stop counting.

1210 Trade Receivables carries 481,000.00 in the general ledger, against an aging total of 481,000.00 — reconciled.
Every figure is derived from posted invoices less the receipts still allocated to them — nothing is stored, and no customer carries a balance column. A reversed invoice disappears from this report entirely, and a reversed receipt stops reducing what is owed. No revenue or tax is modelled anywhere in this phase.

A delivery records what the goods cost when they leave; the revenue waits for the invoice. An amount still unbilled here is work done but not yet charged for, not an error. The delivered value shown is the figure the delivery itself stored, which is why a line priced per measured kilogram carries through exactly — nothing is repriced. A delivery appears here only once its cost of sales has reached the ledger.

සිංහලෙන් / In Sinhala

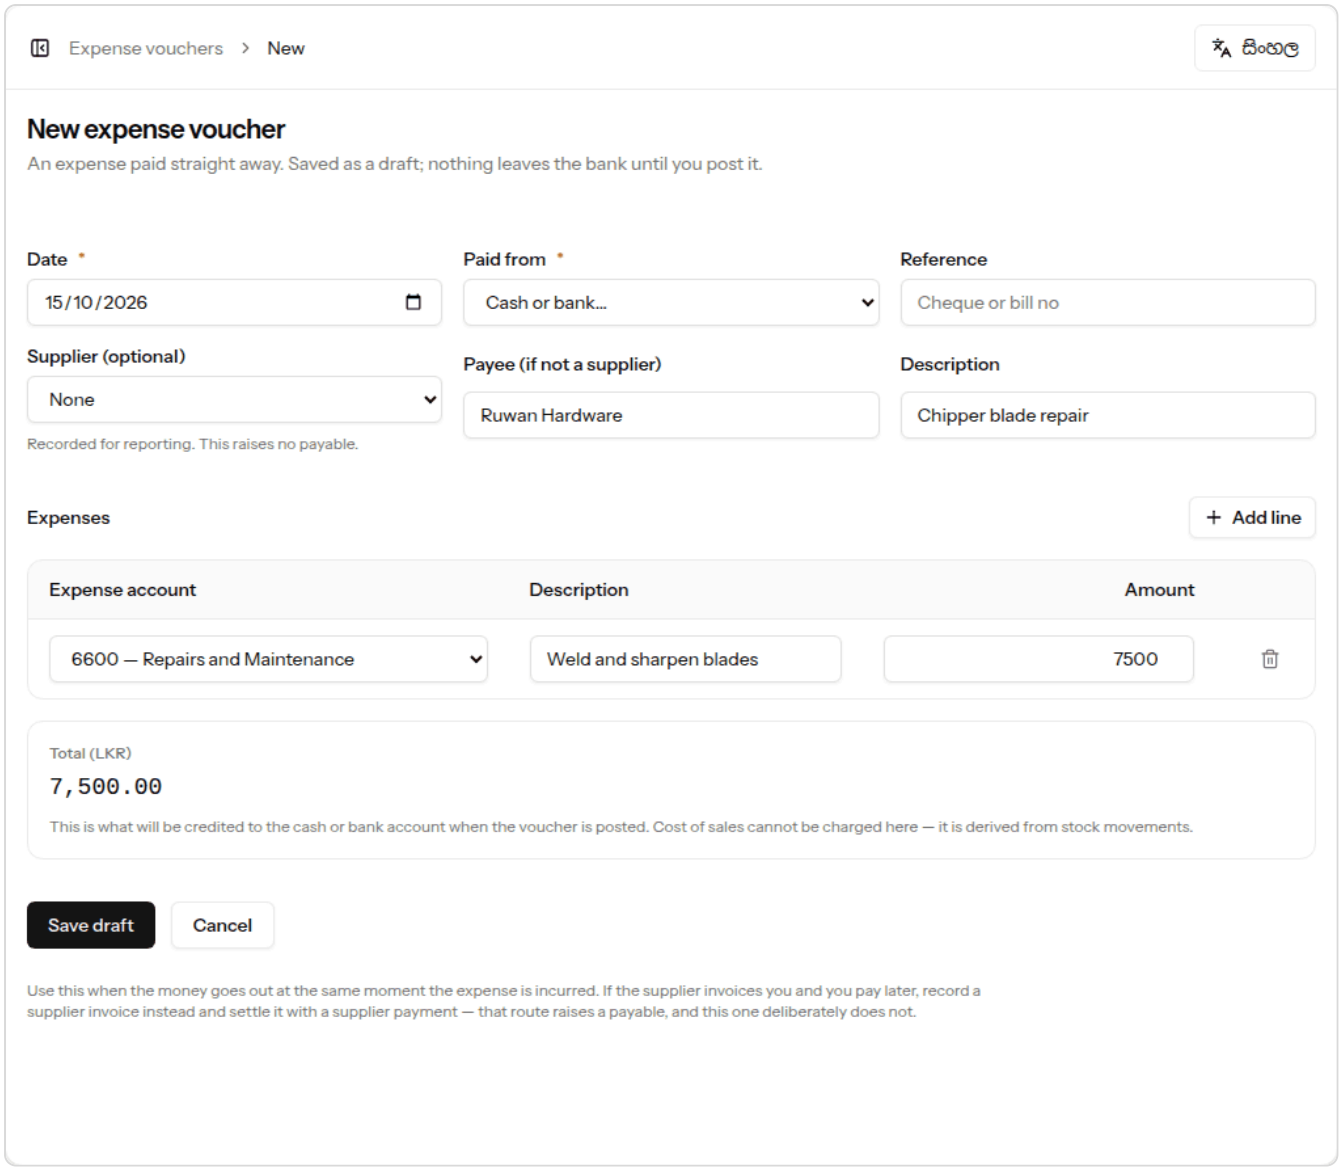

> **Reversing an invoice means it should never have existed.** It is not a credit note. Returns, discounts after the sale and quality allowances need credit notes, which are not built yet. Speak to the accountant. / ආපසු හරවීම ණය සටහනක් (credit note) නොවේ.

11. Cash, bank and journals / මුදල්, බැංකු සහ සටහන්

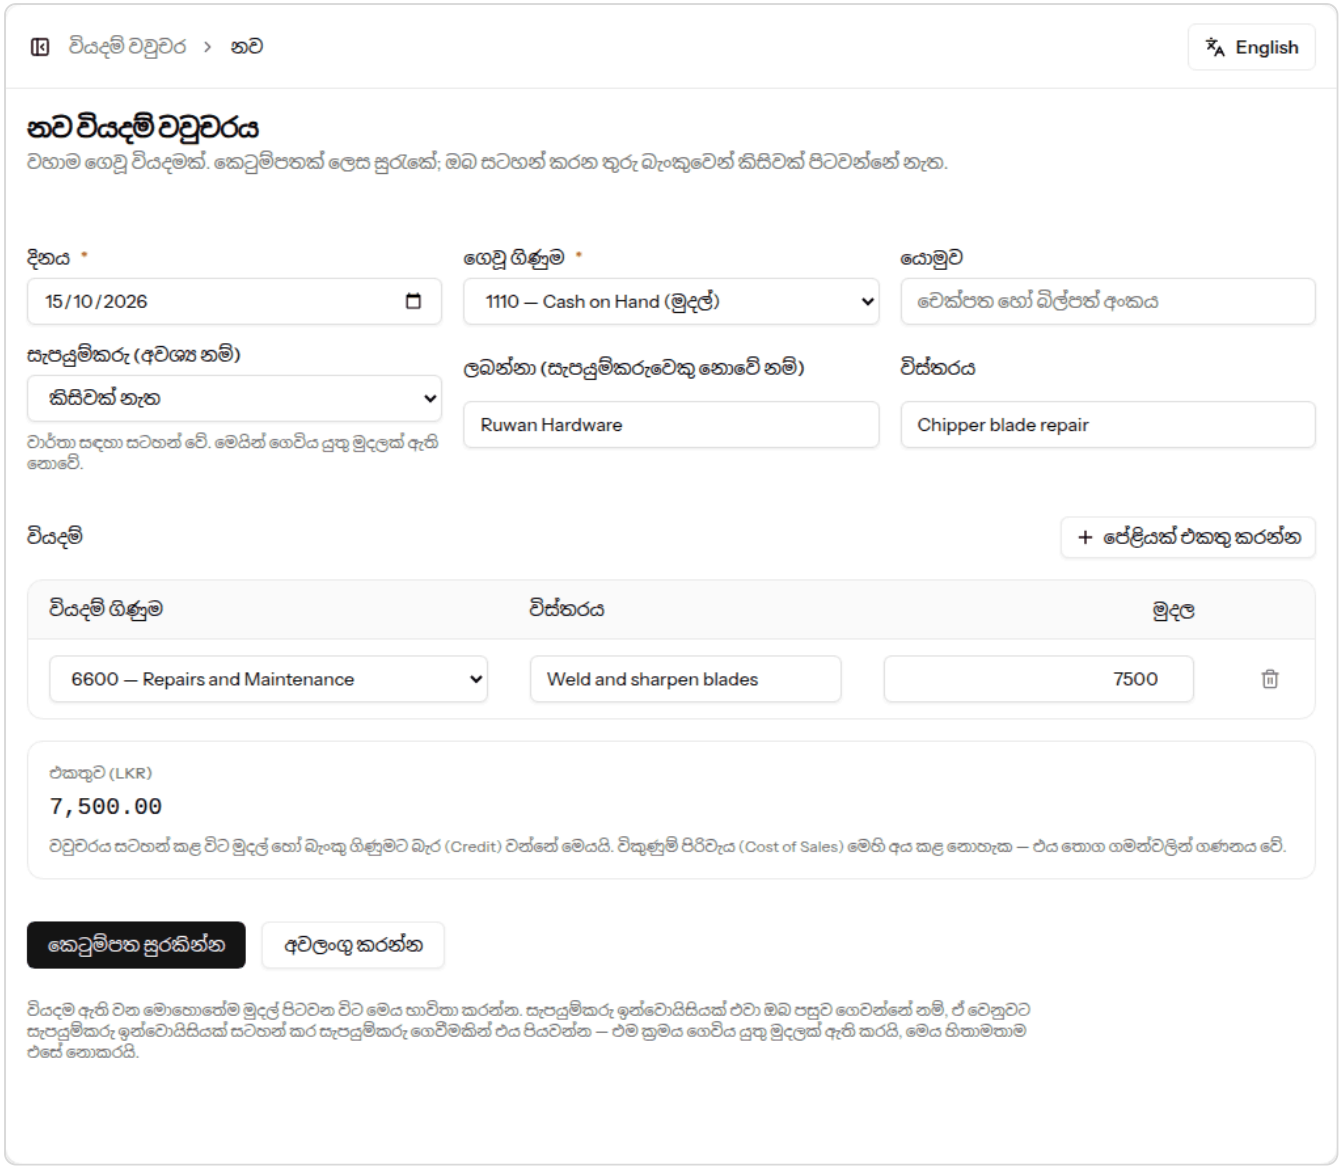

11.1 Expense vouchers: expenses already paid / වියදම් වවුචර

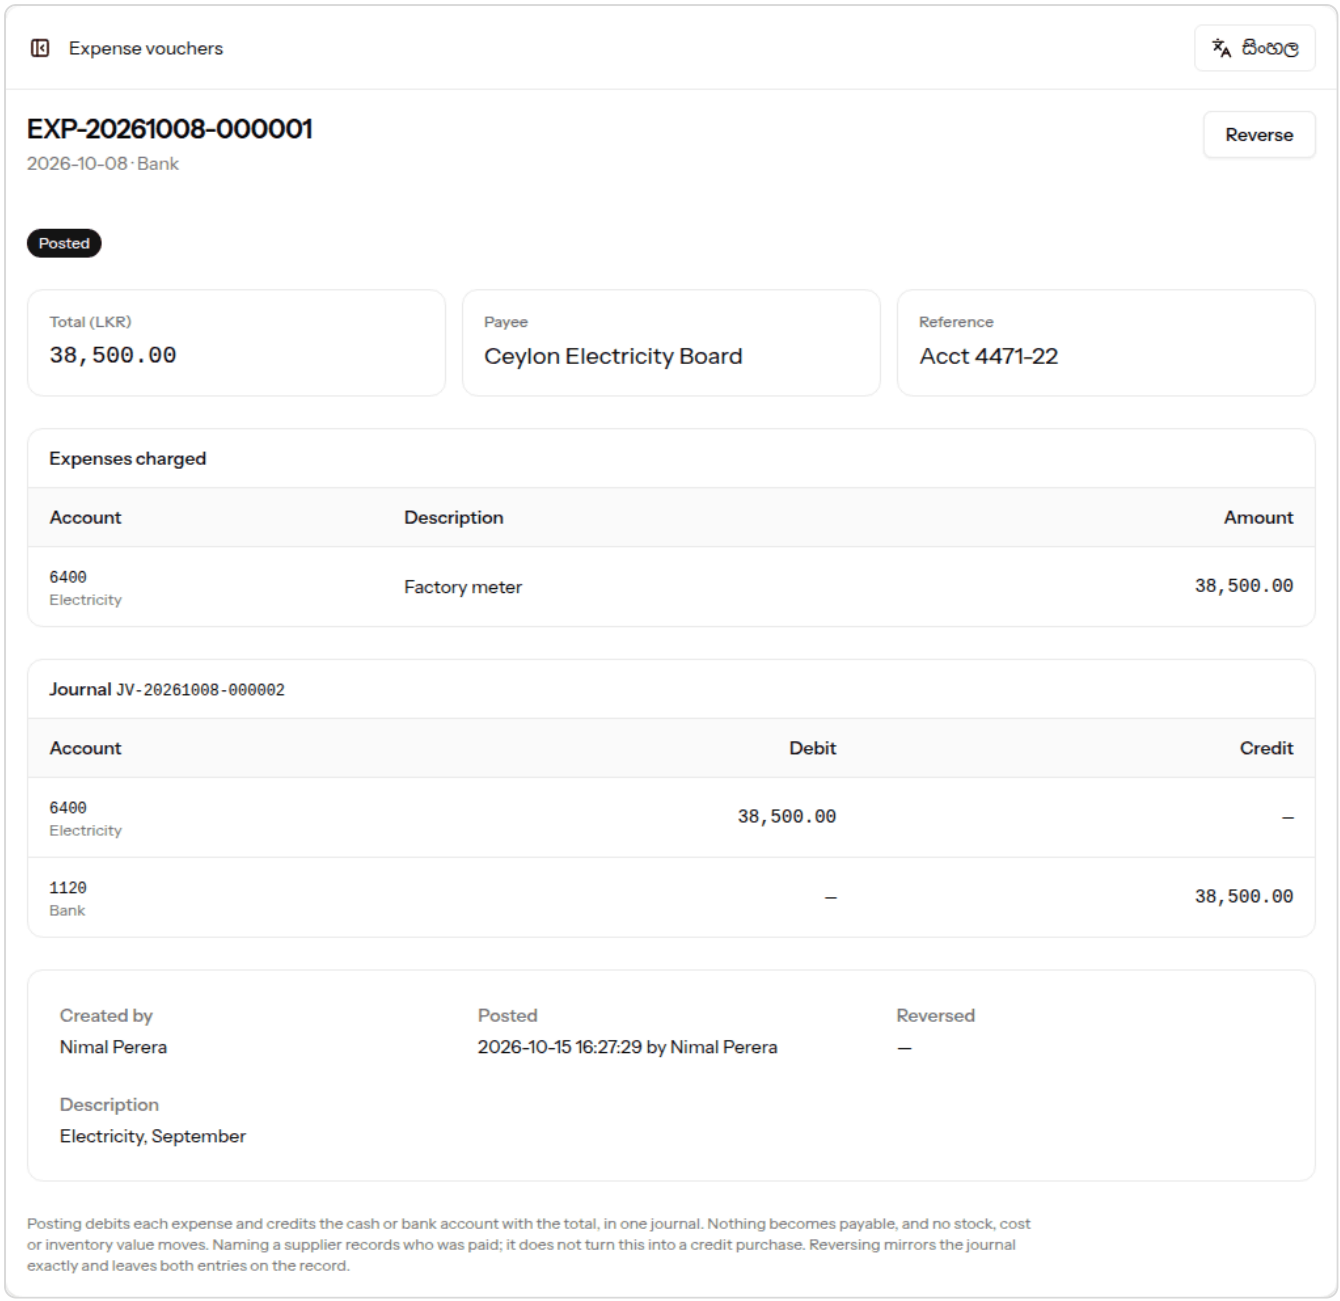

Use a voucher for an expense you **paid on the spot**: electricity, diesel, a small repair. It takes the money straight out of cash or bank. If the supplier will send a bill and be paid later, use a **supplier invoice** instead (Chapter 9). Never use both for the same expense. / එවේලේම ගෙවූ වියදම් සඳහා වවුචරය; පසුව ගෙවන බිල්පත් සඳහා සැපයුම්කරු ඉන්වොයිසිය. දෙකම එකවර භාවිතා නොකරන්න.

1. Open **Cash & bank** → **Expense Vouchers** → **New expense voucher**. / **Expense Vouchers** → **New** ඔබන්න.
2. Set the **Date** and the account it was **Paid from** (cash or bank). / දිනය සහ ගෙවූ ගණුම.
3. Name who was paid: a **Supplier (optional)** from the list, or type a **Payee**. Add a reference and description. / ගෙවූ අයගේ නම.
4. On each line choose the **expense account**, a short description and the **amount**. **Add line** splits one payment over several expenses. / වියදම් ගණුම, විස්තරය සහ මුදල.
5. Click **Save draft**, then **Post**. / **Save draft** සහ **Post**.

Use this when the money goes out at the same moment the expense is incurred. If the supplier invoices you and you pay later, record a supplier invoice instead and settle it with a supplier payment — that route raises a payable, and this one deliberately does not.

An expense voucher is for money that has already gone — it debits the expense and credits cash or the bank in one step, and raises no payable. A supplier who invoices you and is paid later belongs on a supplier invoice instead.

සිංහලෙන් / In Sinhala

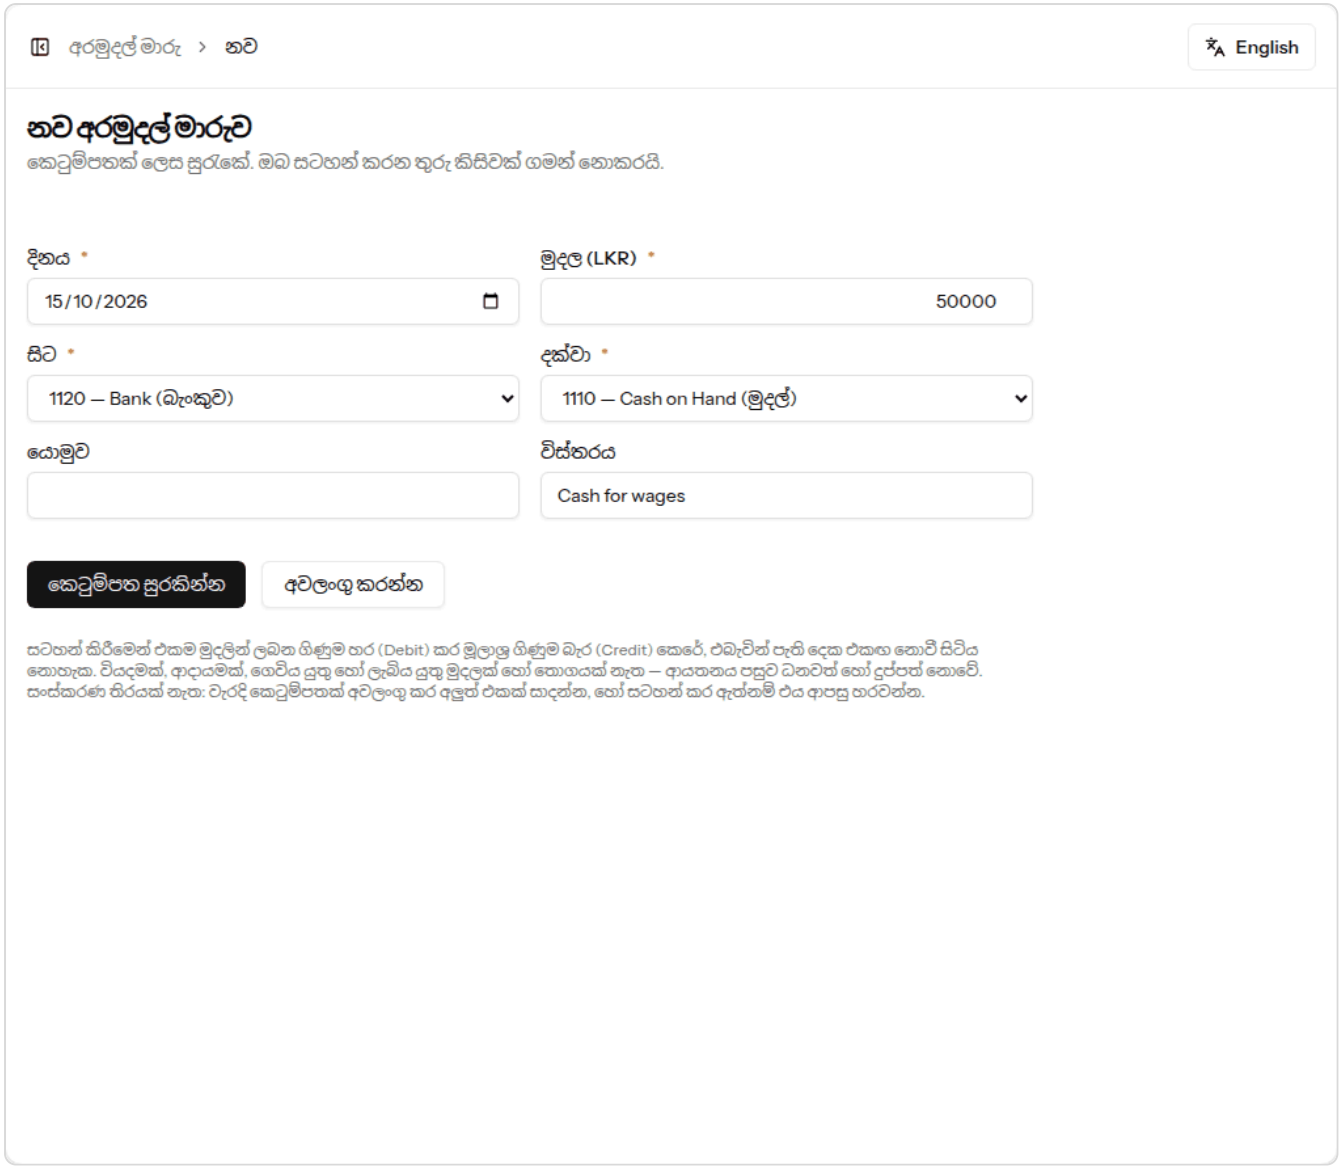

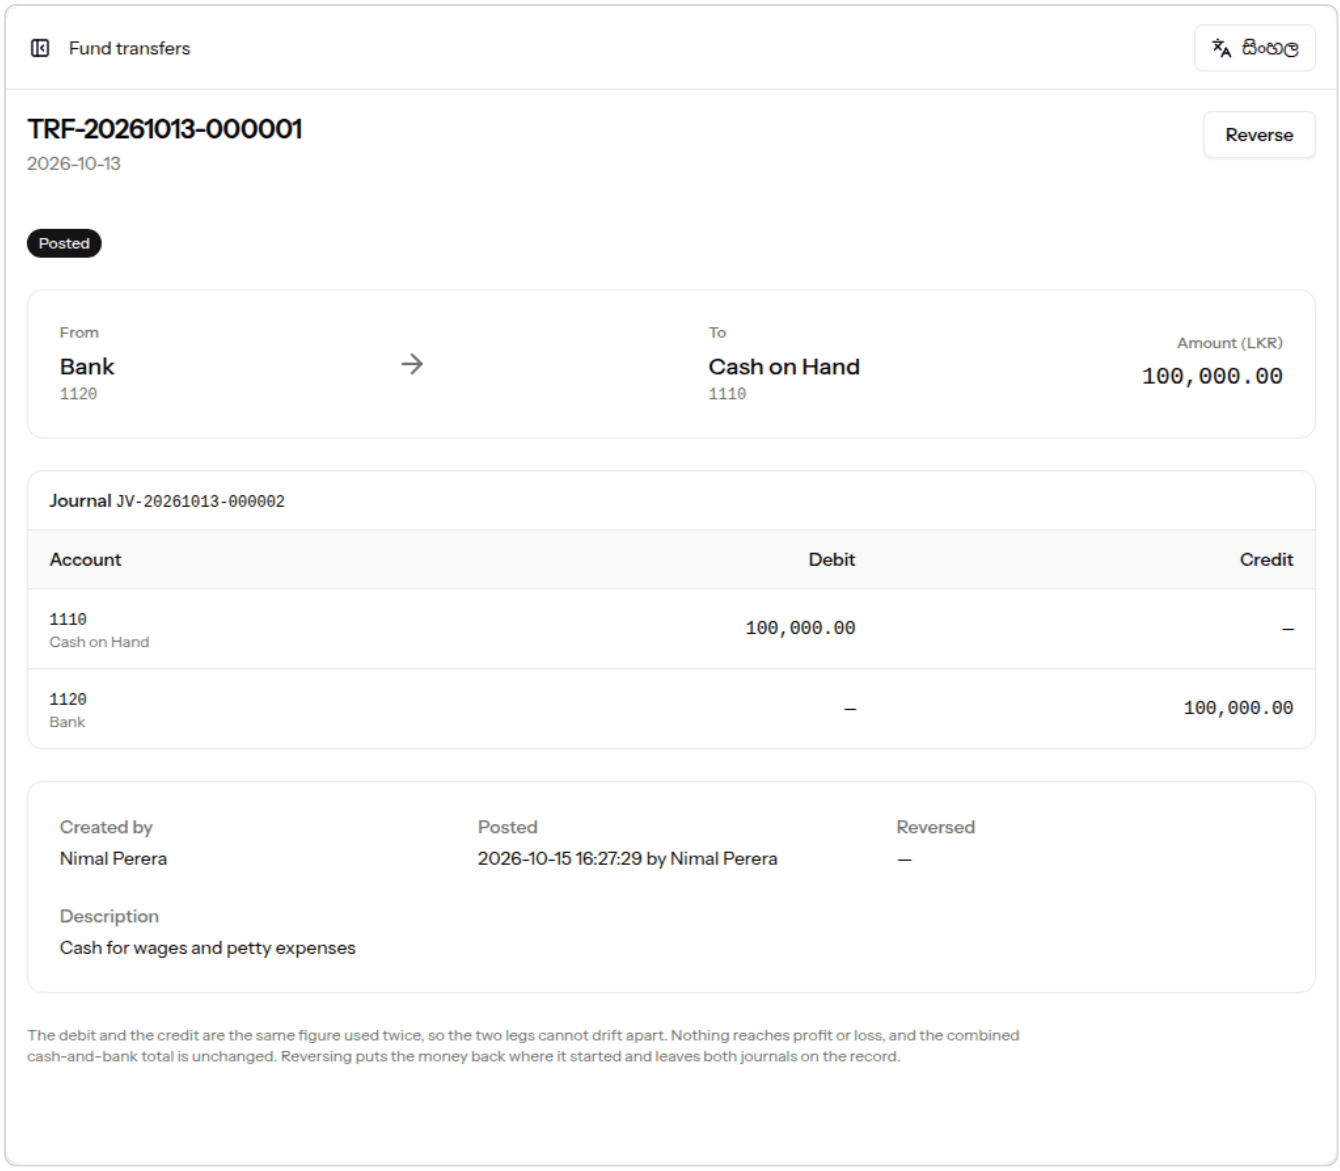

11.2 Fund transfers: moving money between cash and bank / මුදල් මාරු කිරීම

Withdrawing cash from the bank for wages, or banking the day's cash, is a **fund transfer**: **Cash & bank → Fund Transfers → New fund transfer**, then the **Date**, **Amount**, **From** and **To** accounts and a reference. **Save draft**, then **Post**. A transfer is not an expense; the total of cash plus bank stays the same. / බැංකුවෙන් මුදල් ගැනීම හෝ බැංකුවට දැමීම — වියදමක් නොවේ.

Posting debits the destination and credits the source with the same figure, so the two sides cannot disagree. No expense, no revenue, no payable, no receivable and no inventory — the company is neither richer nor poorer afterwards. There is no edit screen: cancel an incorrect draft and make a new one, or reverse it if it has posted.

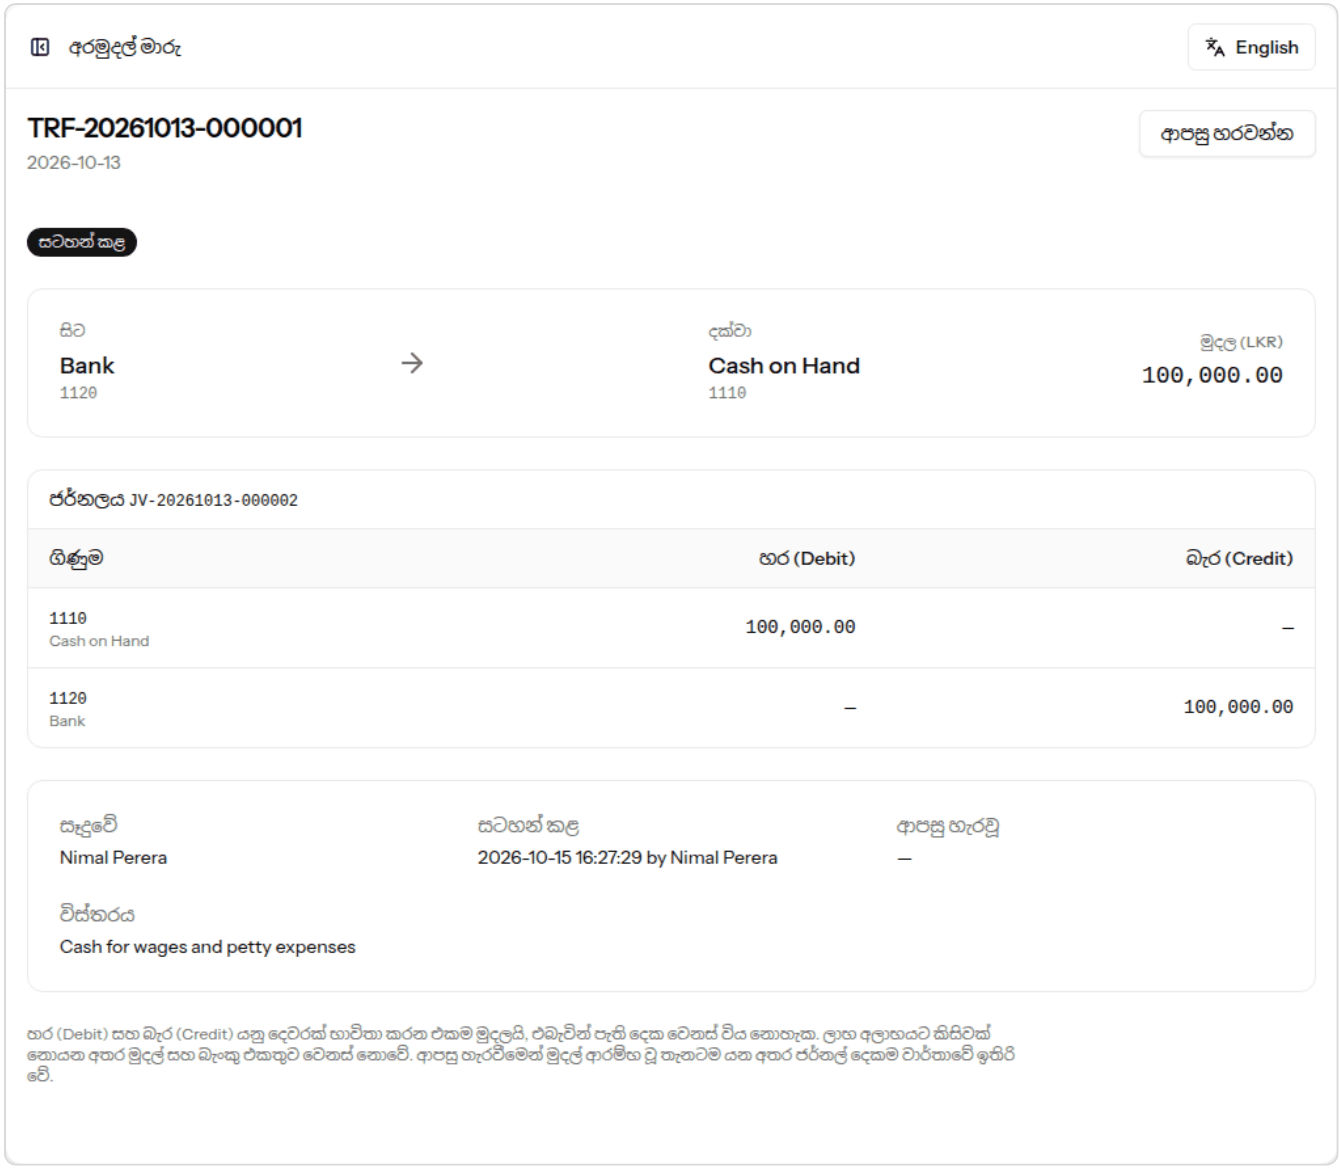

සිංහලෙන් / In Sinhala

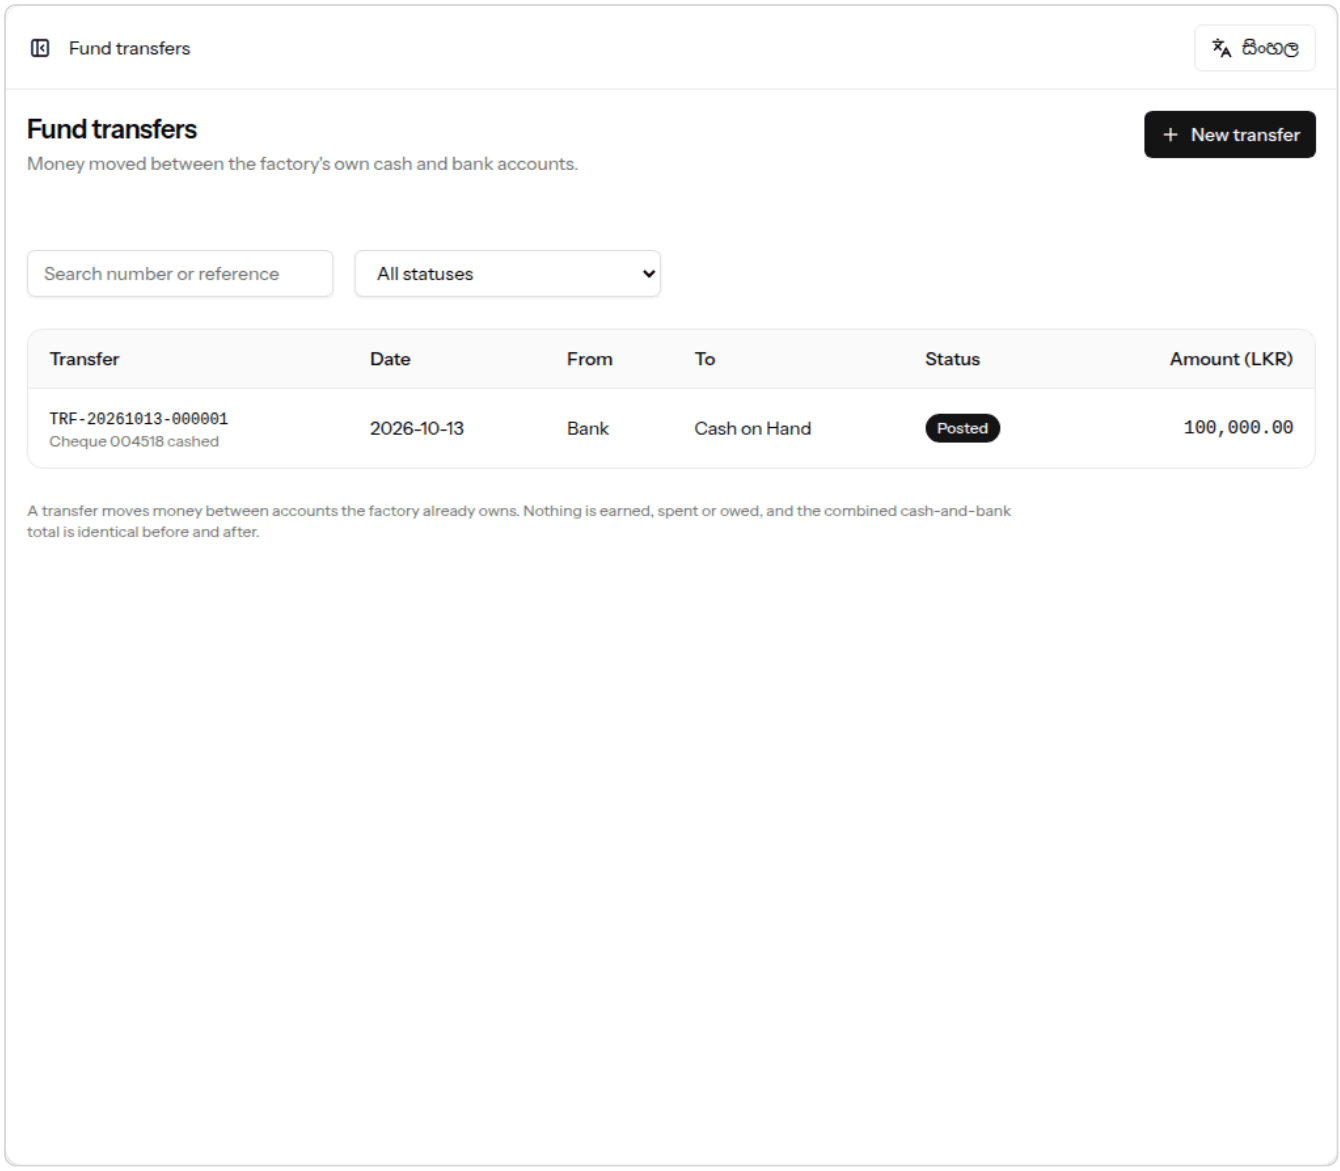

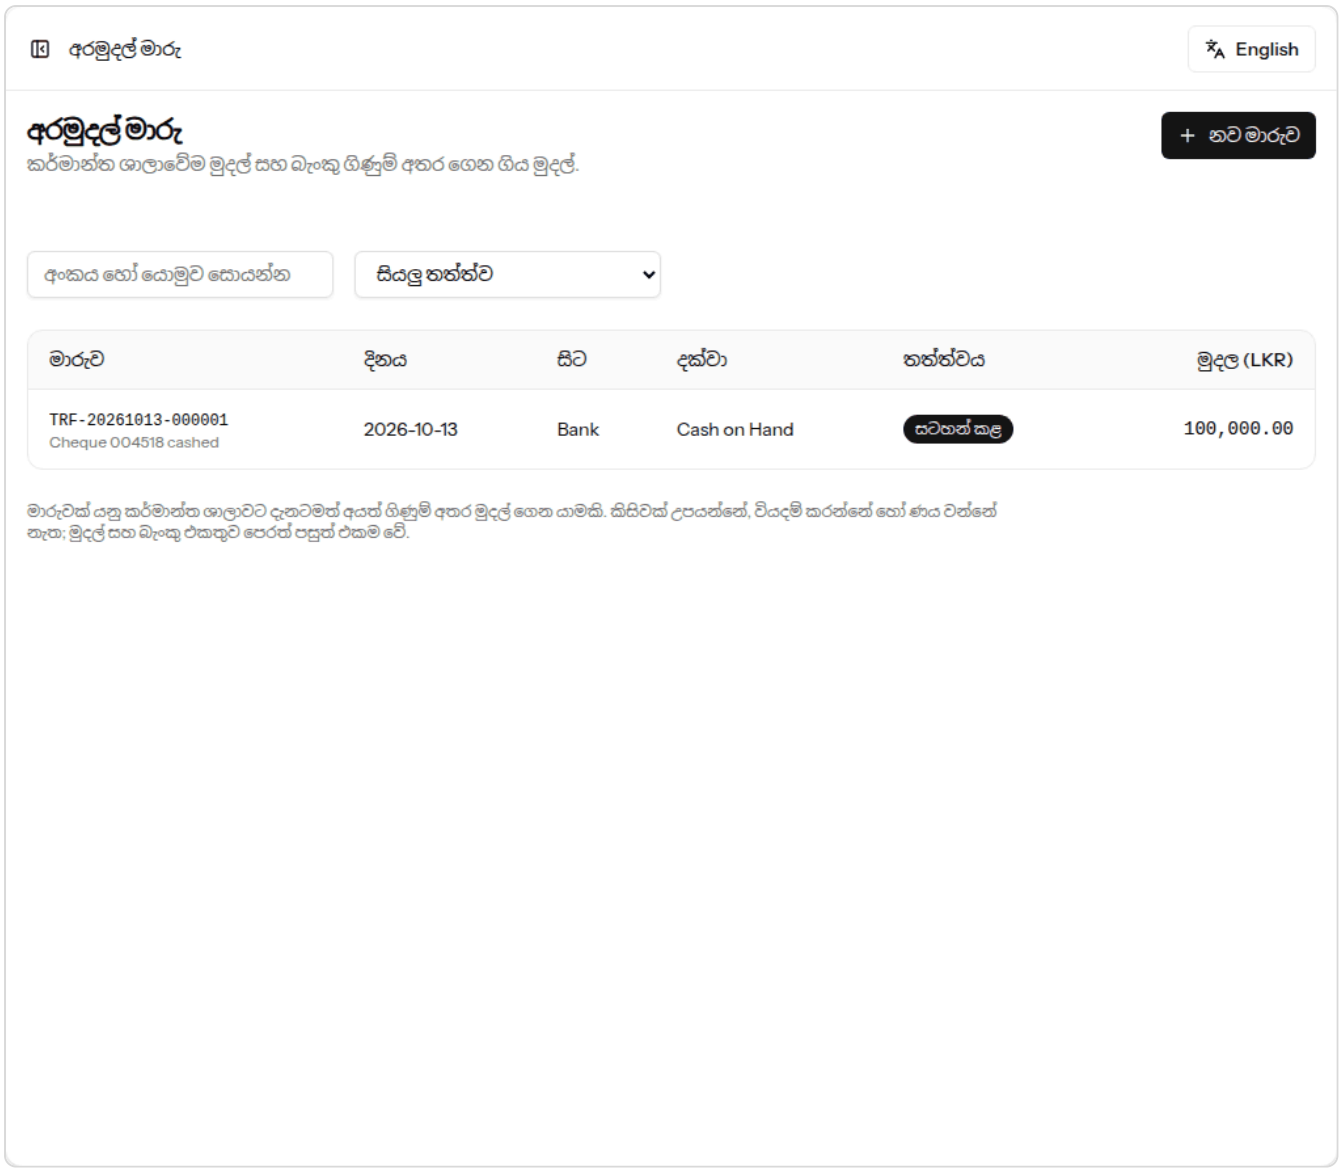

The debit and the credit are the same figure used twice, so the two legs cannot drift apart. Nothing reaches profit or loss, and the combined cash-and-bank total is unchanged. Reversing puts the money back where it started and leaves both journals on the record.

Every row is a posted journal line touching this account — a supplier payment, a customer receipt, an expense voucher, a fund transfer or a journal written by hand. None of them is treated specially: they appear because each posted a line, which is also why the closing balance always equals the general ledger. Money in is a debit, money out a credit, and the running balance is worked out as this page loads. A reversed document stays visible with its reversal beside it; nothing is ever hidden.

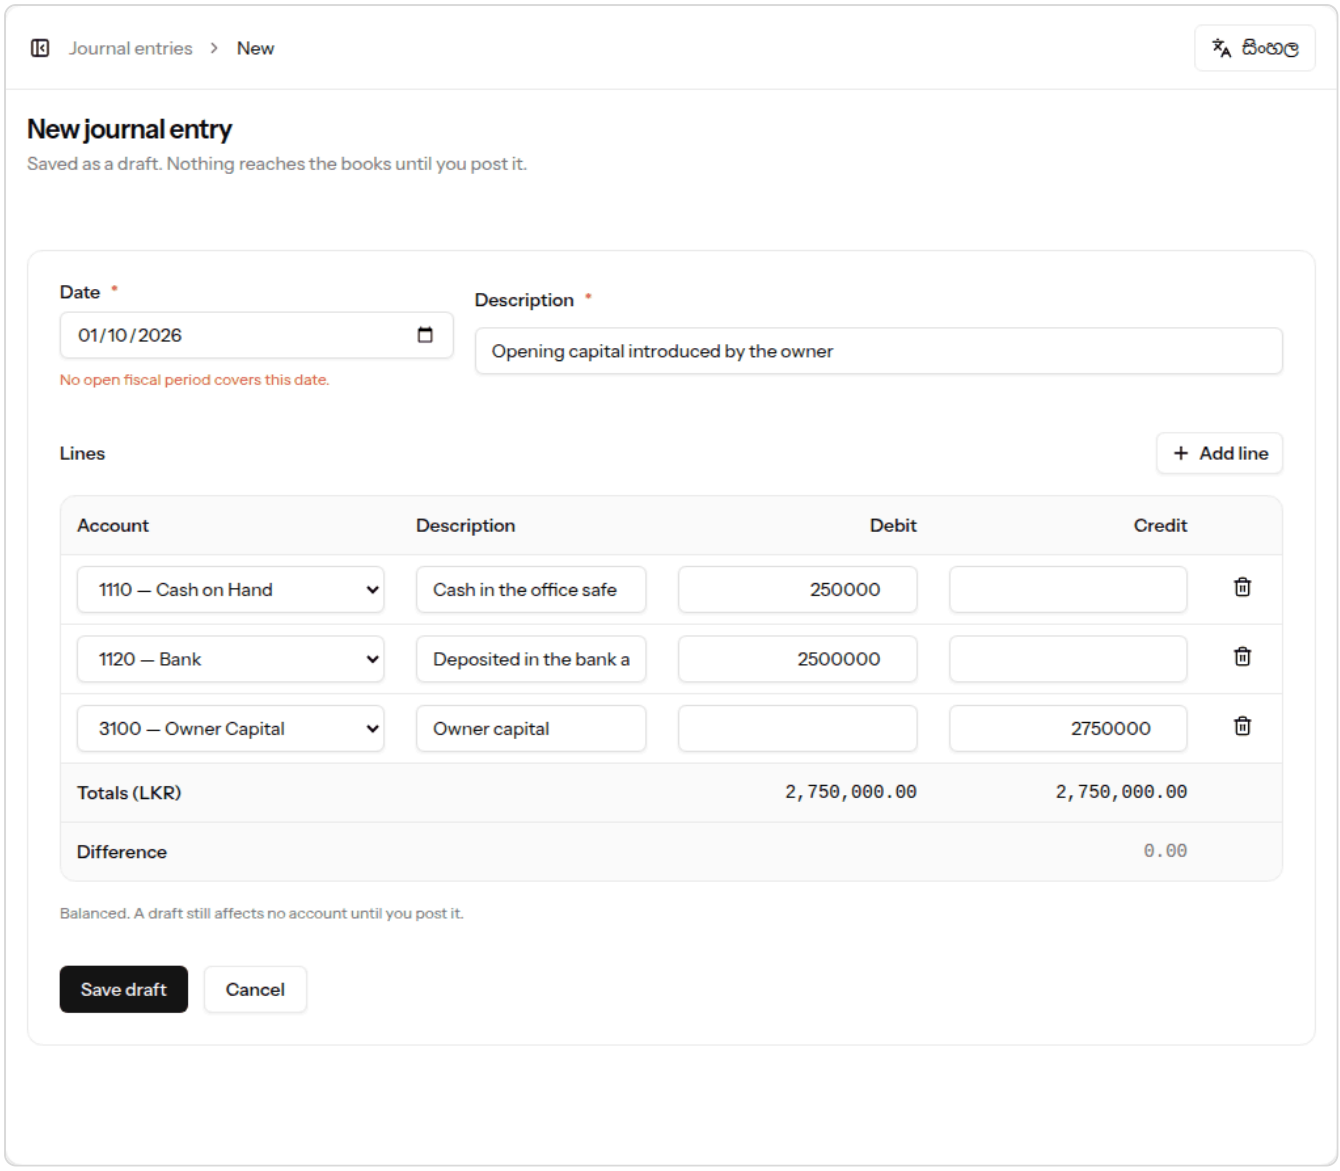

සිංහලෙන් / In Sinhala

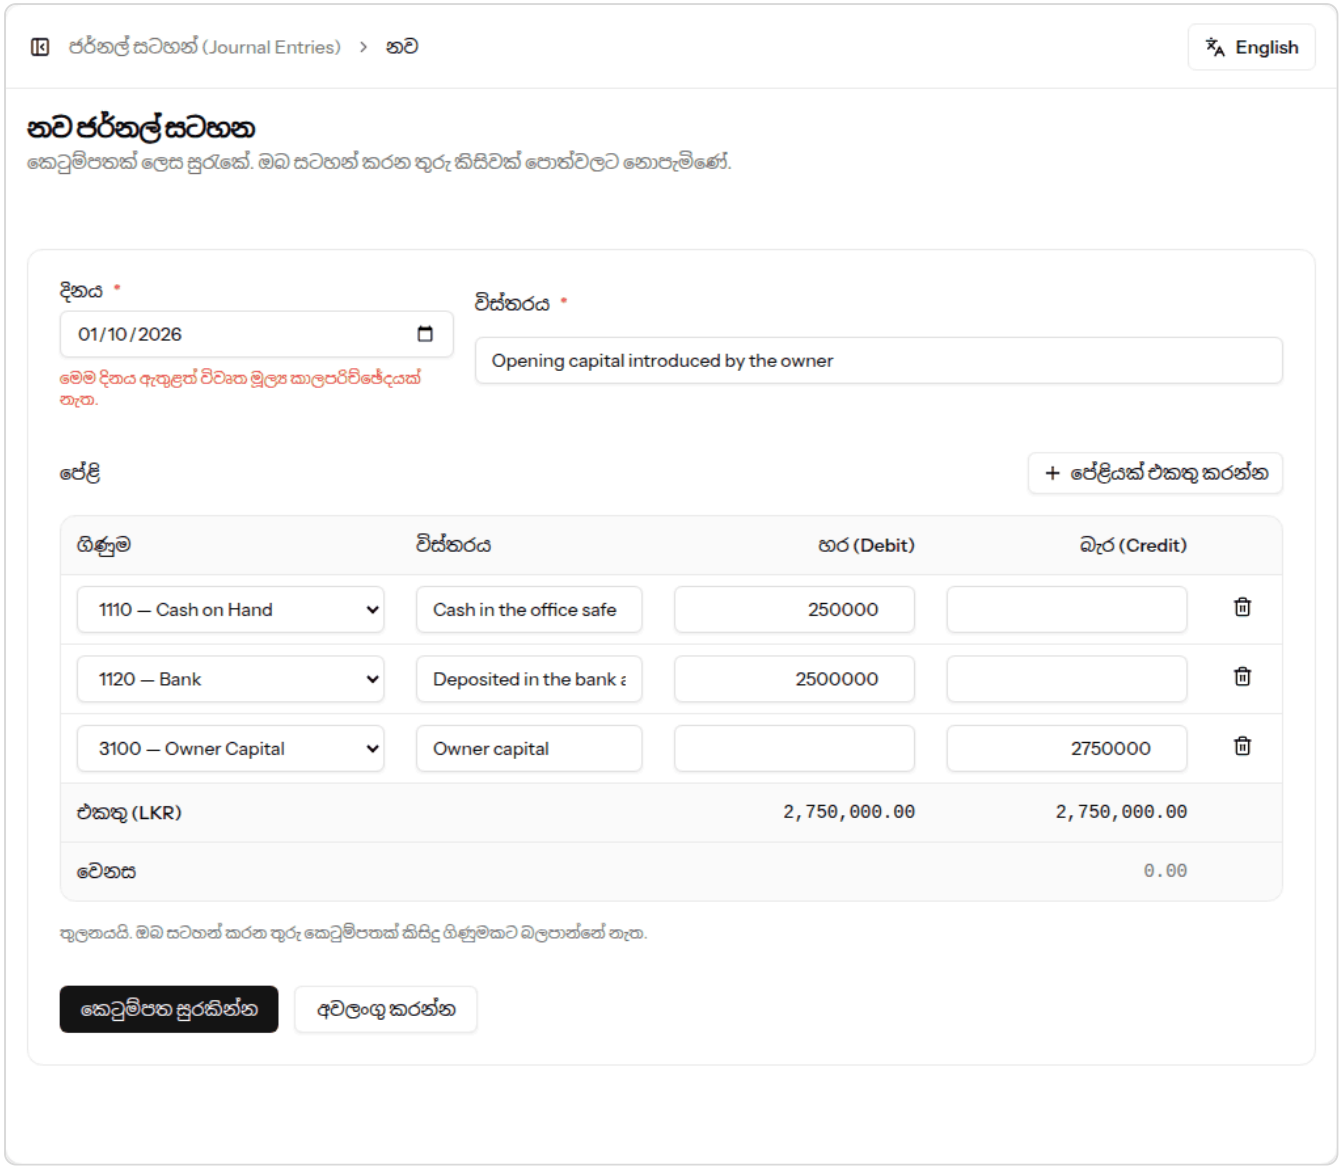

11.4 Manual journal entries / අතින් සටහන්

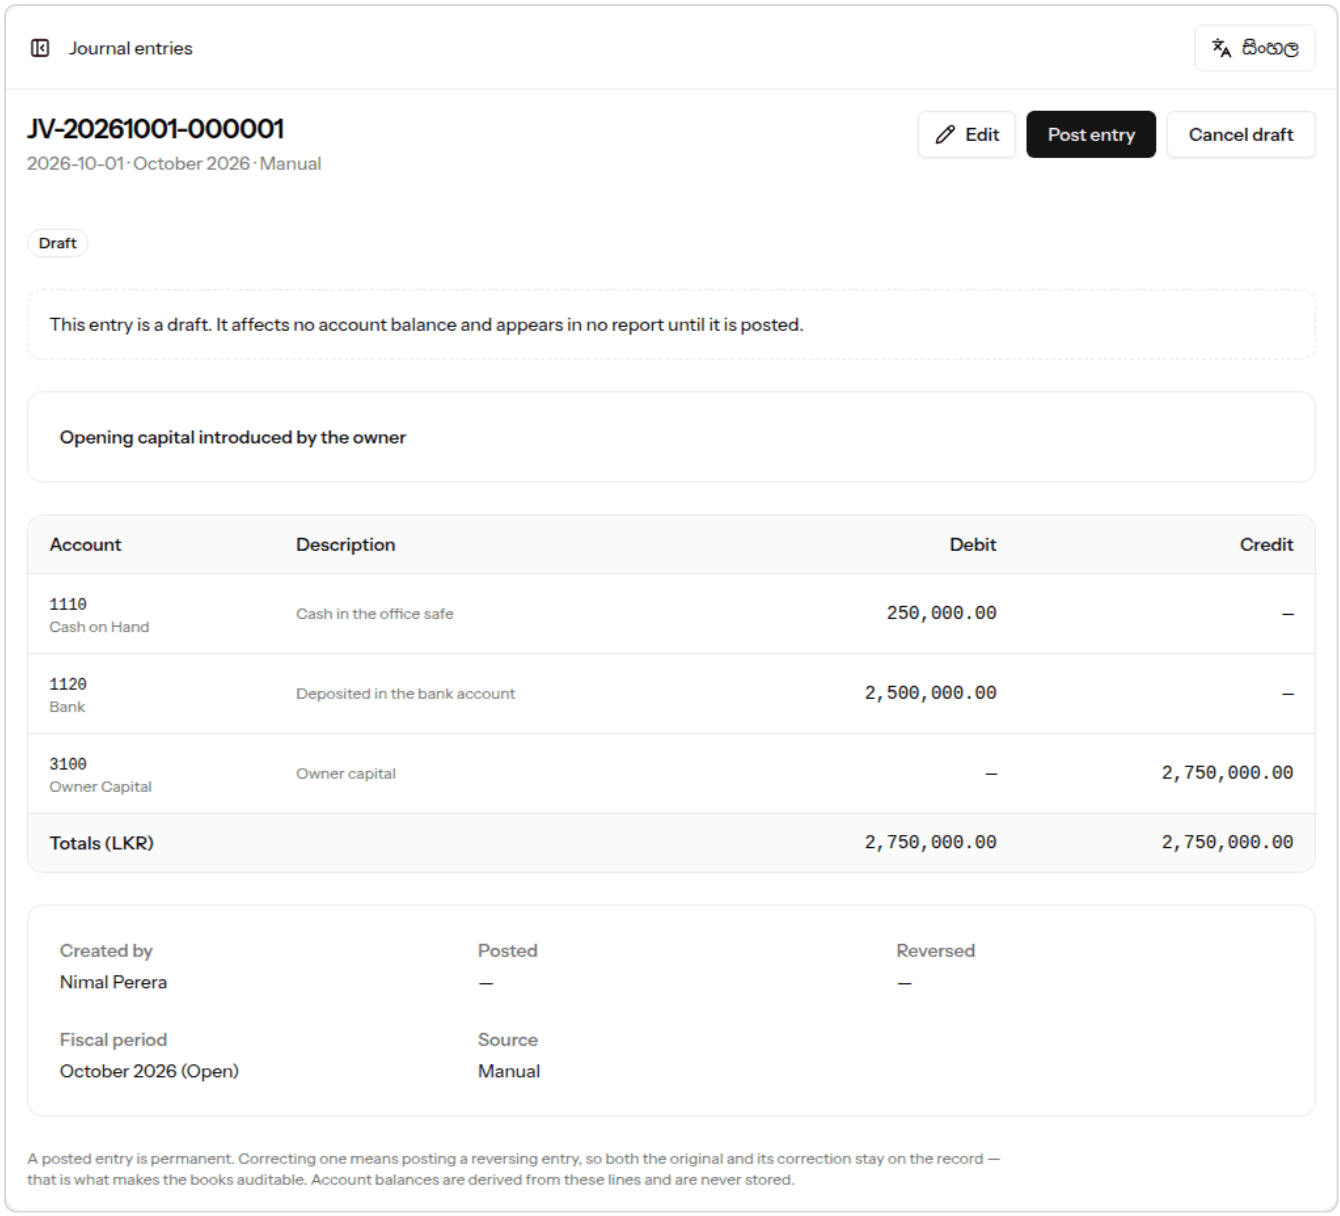

Most journals are written by the system. A manual journal is for what has no document of its own: opening balances, the owner putting in capital, a correction agreed by the accountant. / බොහෝ සටහන් පද්ධතිය ලියයි; අතින් සටහන් ආරම්භක ශේෂ වැනි දේ සඳහායි.

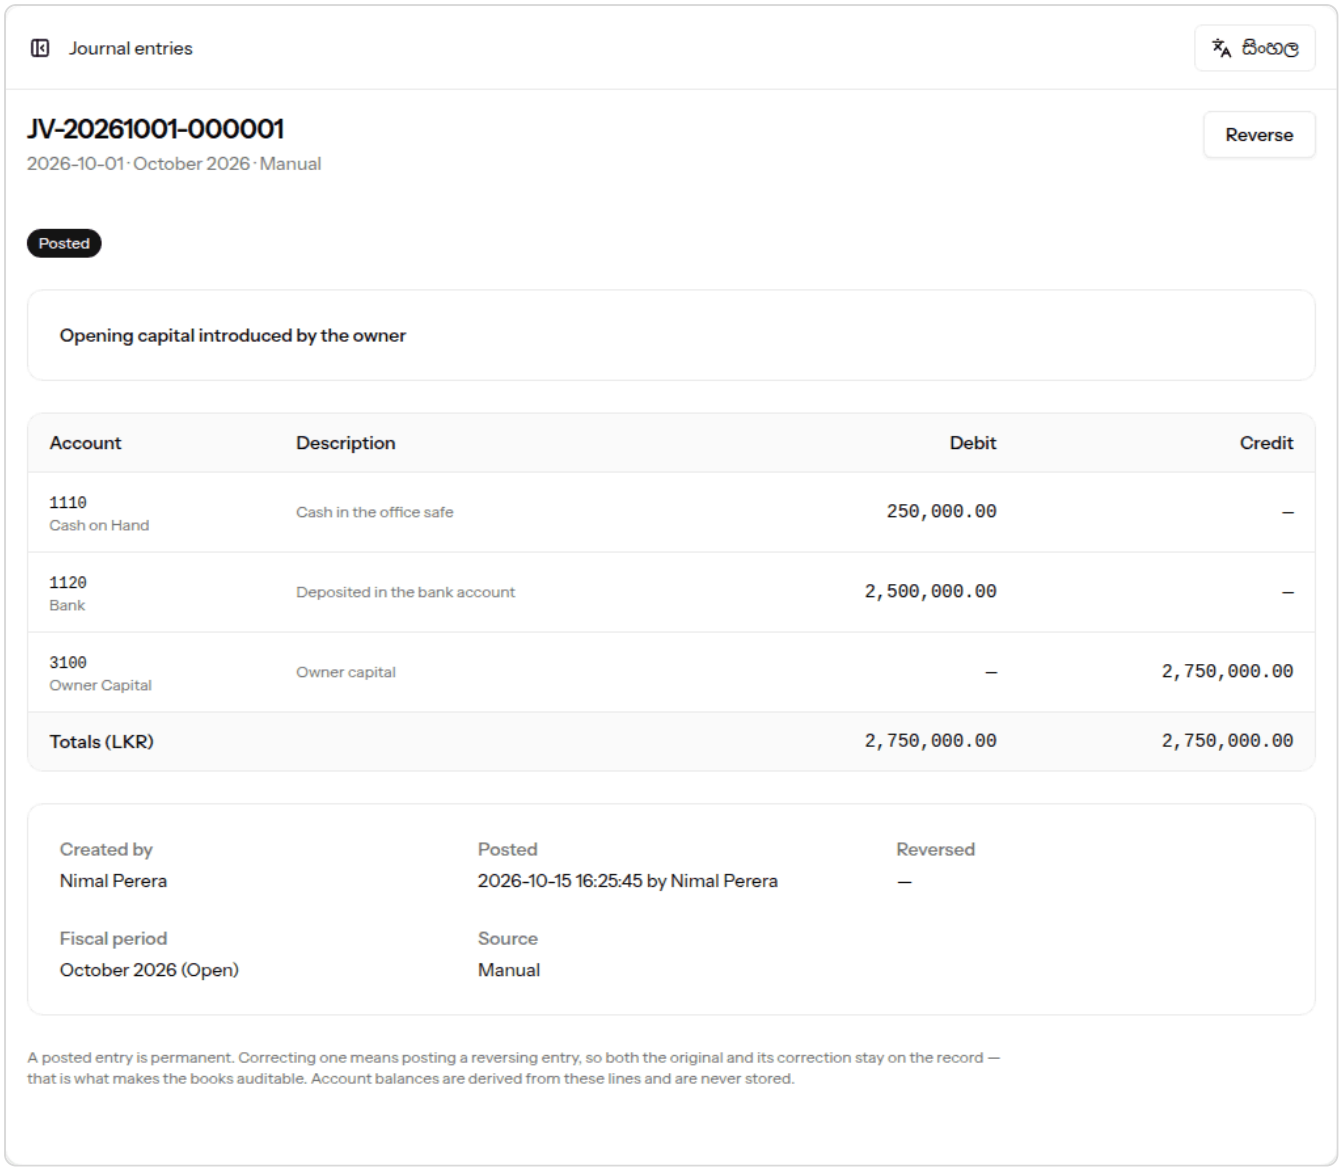

1. Open **Finance** → **Journal Entries** and click **New journal entry**. / **Journal Entries** → **New** ඔබන්න.
2. Set the **Date** and a **Description**. / දිනය සහ විස්තරය.
3. On each line choose the account and type a **Debit** *or* a **Credit**, never both. **Add line** for more. / සෑම පේළියකම ගණුම සහ හර (Debit) හෝ බැර (Credit).
4. The debit and credit totals must be equal. Click **Save draft**. / එකතු සමාන විය යුතුය.
5. Check the draft, then click **Post entry**, or **Cancel draft** if it is not needed. / **Post entry** හෝ **Cancel draft**.

A posted entry is permanent. Correcting one means posting a reversing entry, so both the original and its correction stay on the record — that is what makes the books auditable. Account balances are derived from these lines and are never stored.

Performance comes from the general ledger for the chosen window — recognised revenue, not deliveries. Cash, receivables, payables and aging are as at the window's end. Inventory value is always the current position from the inventory ledger, because historical stock valuation is not supported. Top products are operational figures from posted deliveries. Every number is fetched from the report that owns it, so the dashboard can never disagree with the detail behind it.

කාර්ය සාධනය තෝරාගත් කාලය සඳහා සාමාන්‍ය ලෙජරයෙන් ලැබේ — භාණ්ඩ යැවීම් නොව, හඳුනාගත් ආදායම. මුදල්, ලැබිය යුතු, ගෙවිය යුතු සහ කාල විශ්ලේෂණය එම කාලයේ අවසානය අනුව වේ. තොග වටිනාකම සැමවිටම තොග ලේඛනයේ වත්මන් තත්ත්වයයි, මන්ද පසුගිය දිනයක තොග තක්සේරුව සහාය නොදක්වයි. ඉහළම භාණ්ඩ යනු සටහන් කළ භාණ්ඩ යැවීම්වල මෙහෙයුම් සංඛ්‍යා වේ. සෑම සංඛ්‍යාවක්ම එය අයිති වාර්තාවෙන් ලබා ගන්නා බැවින්, උපකරණ පුවරුව කිසි විටෙක එය පිටුපස ඇති විස්තර සමඟ නොගැළපී නොයයි.

12.2 Profit & Loss / ලාභ අලාභ

Revenue − Cost of sales = Gross profit; Gross profit − Operating expenses = Net profit. Revenue is what has been **invoiced**. A delivery that is not yet invoiced adds its cost here but no revenue, so bill deliveries promptly (check *Unbilled Deliveries*). / ආදායම ගණනය වන්නේ ඉන්වොයිසි කළ විටයි; බිල් නොකළ යැවීම් වල පිරිවැය පමණක් පෙනේ.

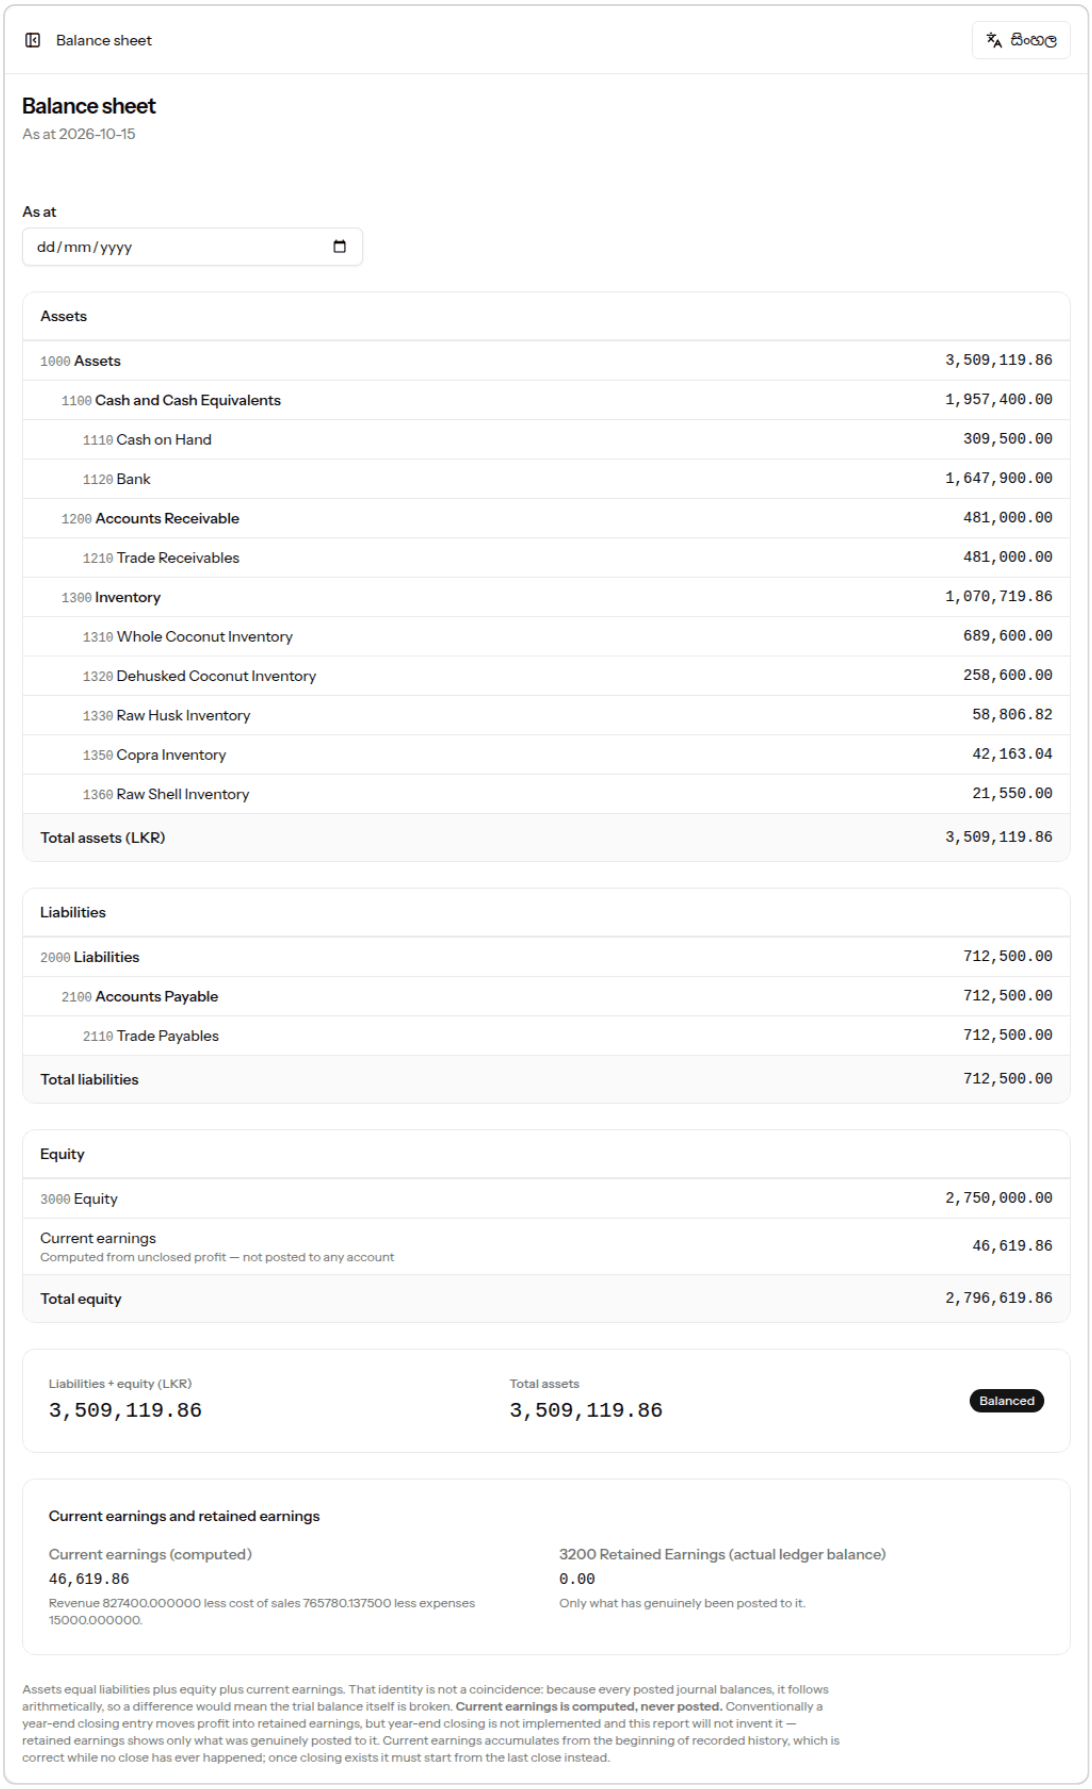

සිංහලෙන් / In Sinhala

> **Production Labour Absorbed** shows as a *negative* expense. That is correct: the dehusking labour has moved into the raw husk's cost and is counted in cost of sales when the chips are sold. / නිෂ්පාදන කම්කරු වියදම සක්සු අගයක් ලෙස පෙනීම නිවැරදිය.

12.3 Balance Sheet and Trial Balance / ශේෂ පත්‍රය සහ ශේෂ වගුව

- **Reports → Balance Sheet:** what the business owns and owes on a date. *Assets* = *Liabilities* + *Equity* + *Current earnings* (the profit so far, which is calculated, not posted). / වත්කම් = වගකීම් + හිමිකම + වත්මන් ඉපයීම්.
- **Finance → Trial Balance:** every account's debit or credit balance. The two totals are always equal. / හර සහ බැර එකතු සැමවිටම සමාන ය.

Assets	
1000 **Assets**	3,509,119.86

Liabilities + equity (LKR)
3,509,119.86

Total assets
3,509,119.86

Balanced

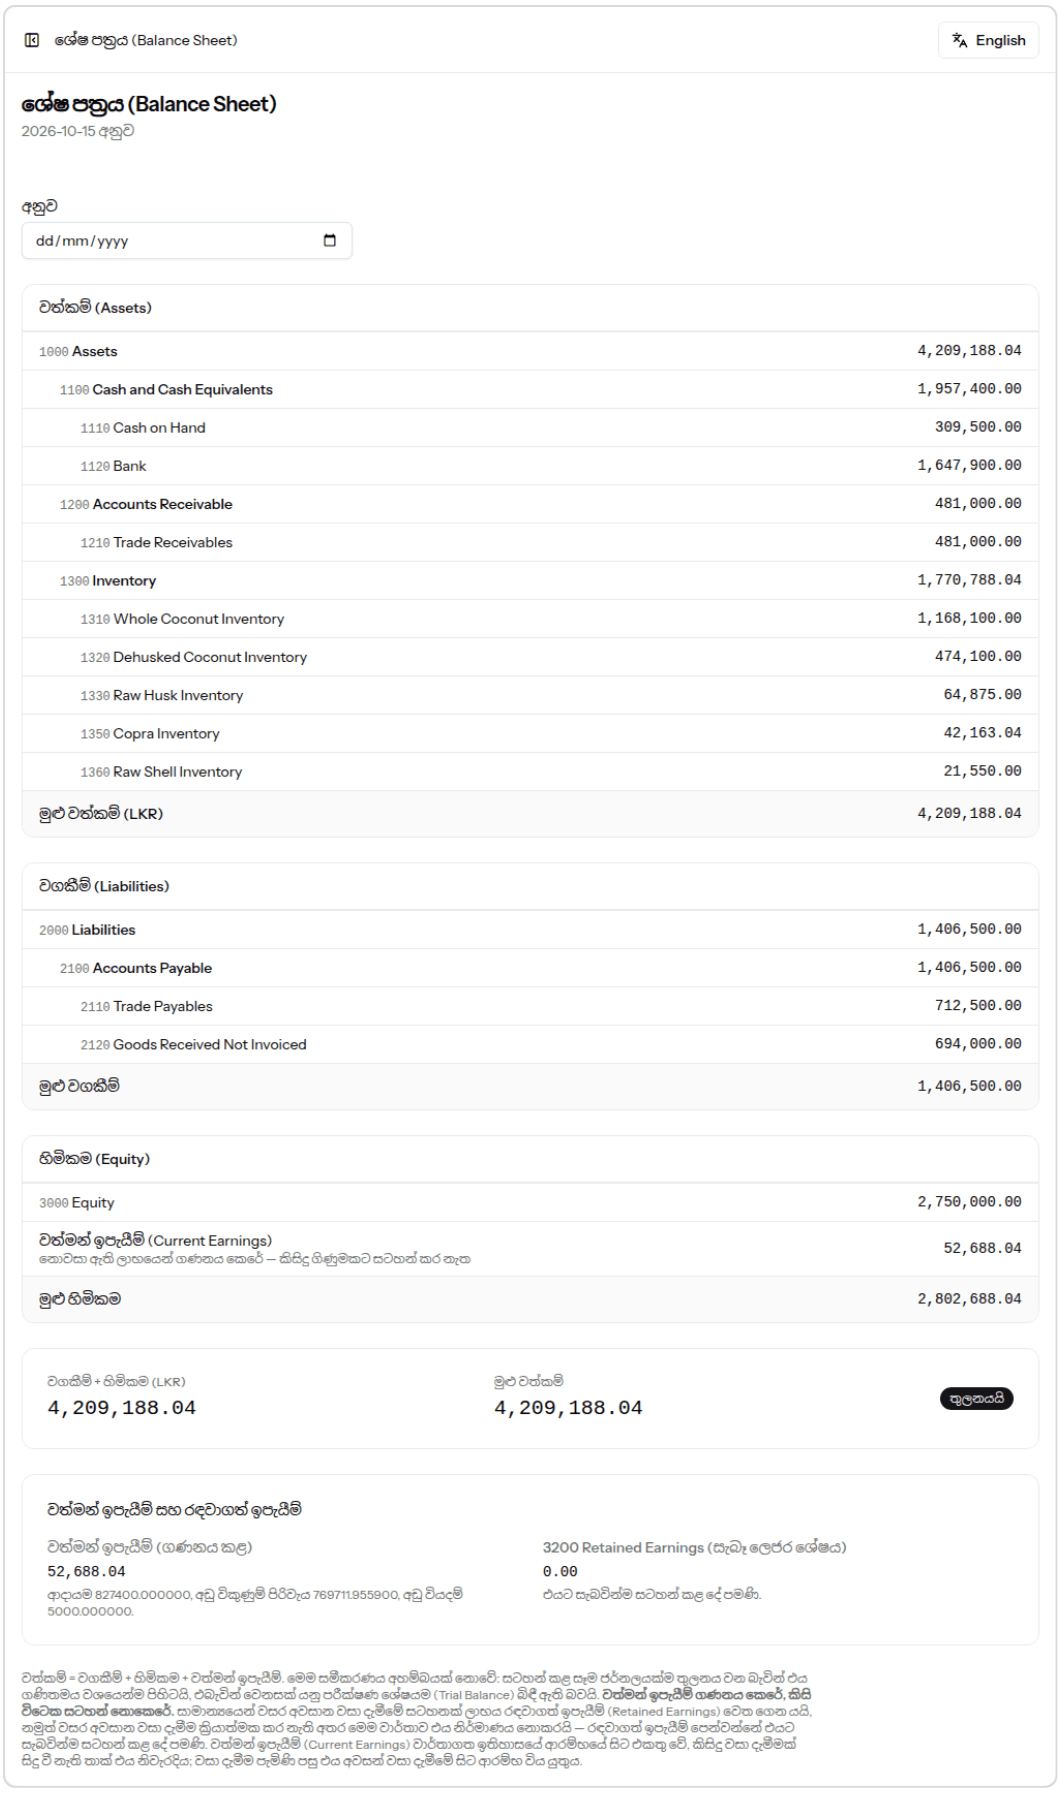

Current earnings and retained earnings

Current earnings (computed)
46,619.86
Revenue 827400.000000 less cost of sales 765780.137500 less expenses 15000.000000.

3200 Retained Earnings (actual ledger balance)
0.00
Only what has genuinely been posted to it.

Assets equal liabilities plus equity plus current earnings. That identity is not a coincidence: because every posted journal balances, it follows arithmetically, so a difference would mean the trial balance itself is broken. **Current earnings is computed, never posted.** Conventionally a year-end closing entry moves profit into retained earnings, but year-end closing is not implemented and this report will not invent it — retained earnings shows only what was genuinely posted to it. Current earnings accumulates from the beginning of recorded history, which is correct while no close has ever happened; once closing exists it must start from the last close instead.

සිංහලෙන් / In Sinhala

Trial balance

සිංහල

Trial balance

Every account with a balance, in LKR. The two totals must be identical.

As of date: dd/mm/yyyy

Fiscal period: All periods

The inventory ledger says value moved because stock moved; the general ledger says it moved because a journal was posted. After accounting-integrated operations the two agree exactly, because every stock movement writes its journal inside the same database transaction. A difference is shown, never corrected. The usual honest cause is stock that predates the accounting cutover; the remedy is an opening-balance process, which is not built. Journals are never backfilled automatically — inventing history to tidy a report destroys the one thing an audit trail is for. Figures are shown to six decimals so a small difference can be diagnosed rather than rounded away. See the valuation detail.

This is operational profitability: each posted delivery's own sales value less the cost of the stock that left, exactly as the delivery recorded them. It answers "was this physical sale profitable?". Profit & loss answers a different question — what revenue has been recognised through sales invoices — so the two can legitimately differ while a delivery is unbilled or partly billed. Products sold by weight use the delivery's stored value; nothing is converted between count and weight. Reversed deliveries are excluded.

13.2 Roles / භූමිකා

Role / භූමිකාව	May do / කළ හැකි දේ
Administrator	Everything, always. Cannot be reduced or switched off.
Manager	Sees everything, approves orders, may reverse operational documents.
Storekeeper	Receives and dispatches stock: posts goods receipts and deliveries.
Purchasing	Keeps suppliers and raises purchase orders; does not approve or post.
Sales	Keeps customers and raises sales orders; does not approve or post.
Production	Records and posts dehusking, chipping and copra runs.
Accountant	All of finance, including reversals and setup; operational screens read-only.

Administration → **Roles & Permissions** shows each role. Open one and click **Edit** to tick or untick its permissions, or create a **New role** for a different mix. Creating, approving, posting, reversing and cancelling are separate permissions, so one person can prepare a document and another post it. /

සෑදීම, අනුමත කිරීම, සටහන් කිරීම සහ ආපසු හරවීම වෙනම අවසර ය.

සිංහලෙන් / In Sinhala

භූමිකා සහ අවසර

English

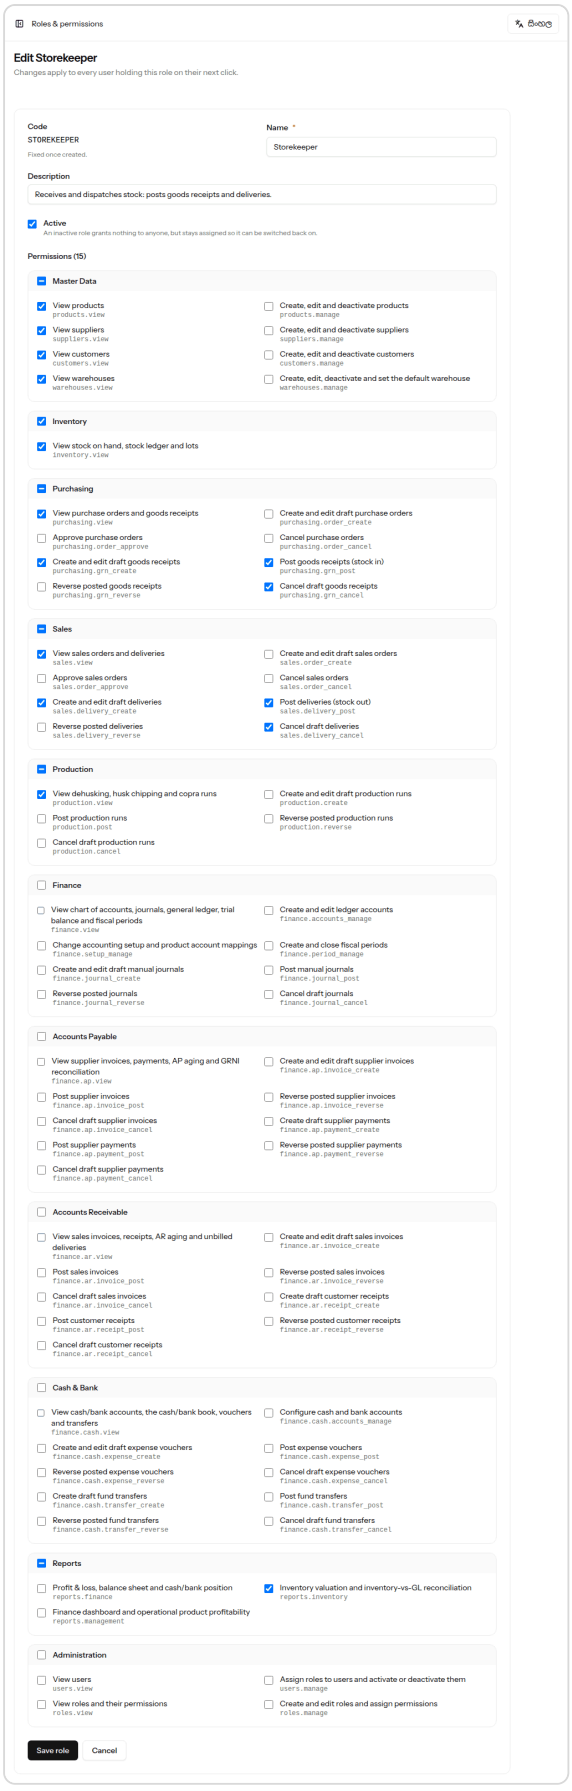

භූමිකා සහ අවසර

භූමිකාවක් යනු නමක් ඇති අවසර කට්ටලයකි. පරිශීලකයෙකුගේ ප්‍රවේශය යනු ඔවුන්ගේ සක්‍රිය භූමිකා ලබා දෙන සියල්ලයි.

+ නව භූමිකාව

කේතය	නම	තත්ත්වය	පරිශීලකයින්	අවසර
ADMIN	**පරිපාලක** සෑම විටම සියලු අවසර. අක්‍රිය කිරීම හෝ අඩු කිරීම කළ නොහැක.	සක්‍රිය	1	73 / 73
ACCOUNTANT	**ගණකාධිකාරී** ආපසු හැරවීම් සහ සැකසුම් ඇතුළුව සියලු මූල්‍ය කටයුතු. මෙහෙයුම් තිර කියවීමට පමණි.	සක්‍රිය	0	47 / 73
MANAGER	**කළමනාකරු** සියල්ල දකී, ඇණවුම් අනුමත කරයි සහ මෙහෙයුම් සටහන් ආපසු හැරවිය හැක.	සක්‍රිය	0	24 / 73
PRODUCTION	**නිෂ්පාදනය** ලෙලි ගැසීම, කොහු කැපීම සහ කොප්පරා නිෂ්පාදන සටහන් කරයි.	සක්‍රිය	1	7 / 73
PURCHASING	**මිලදී ගැනීම්** සැපයුම්කරුවන් පවත්වාගෙන යයි සහ මිලදී ගැනීමේ ඇණවුම් සාදයි. අනුමත කිරීම හෝ සටහන් කිරීම නොකරයි.	සක්‍රිය	0	11 / 73
SALES	**විකුණුම්** පාරිභෝගිකයින් පවත්වාගෙන යයි සහ විකුණුම් ඇණවුම් සාදයි. අනුමත කිරීම හෝ සටහන් කිරීම නොකරයි.	සක්‍රිය	0	11 / 73
STOREKEEPER	**ගබඩා භාරකරු** තොග ලබාගැනීම සහ යැවීම: භාණ්ඩ ලැබීම් සහ භාණ්ඩ යැවීම් සටහන් කරයි.	සක්‍රිය	1	15 / 73

අවසර යනු පද්ධතිය තුළම ඇති හැකියාවන් බැවින් ඒවා මෙහි සෑදිය නොහැක — පවරා දිය හැක්කේ පමණි. පෙරනිමි භූමිකා ආරම්භක ලක්ෂ්‍ය පමණක් වන අතර ඒවා කැමති ලෙස වෙනස් කළ හැක. පරිපාලක භූමිකාව හැර — එයට සෑම විටම සියල්ල හිමි වේ.

13.3 When someone leaves / කෙනෙක් ඉවත් වන විට

Open their **Edit access** and untick **Active**. They can no longer sign in and lose every permission, but their name stays on everything they recorded. People with history are never deleted. The system never lets the last active administrator be removed. / **Active** ඉවත් කරන්න; ඔවුන්ගේ නම පැරණි ලේඛන වල එලෙසම පවතී.

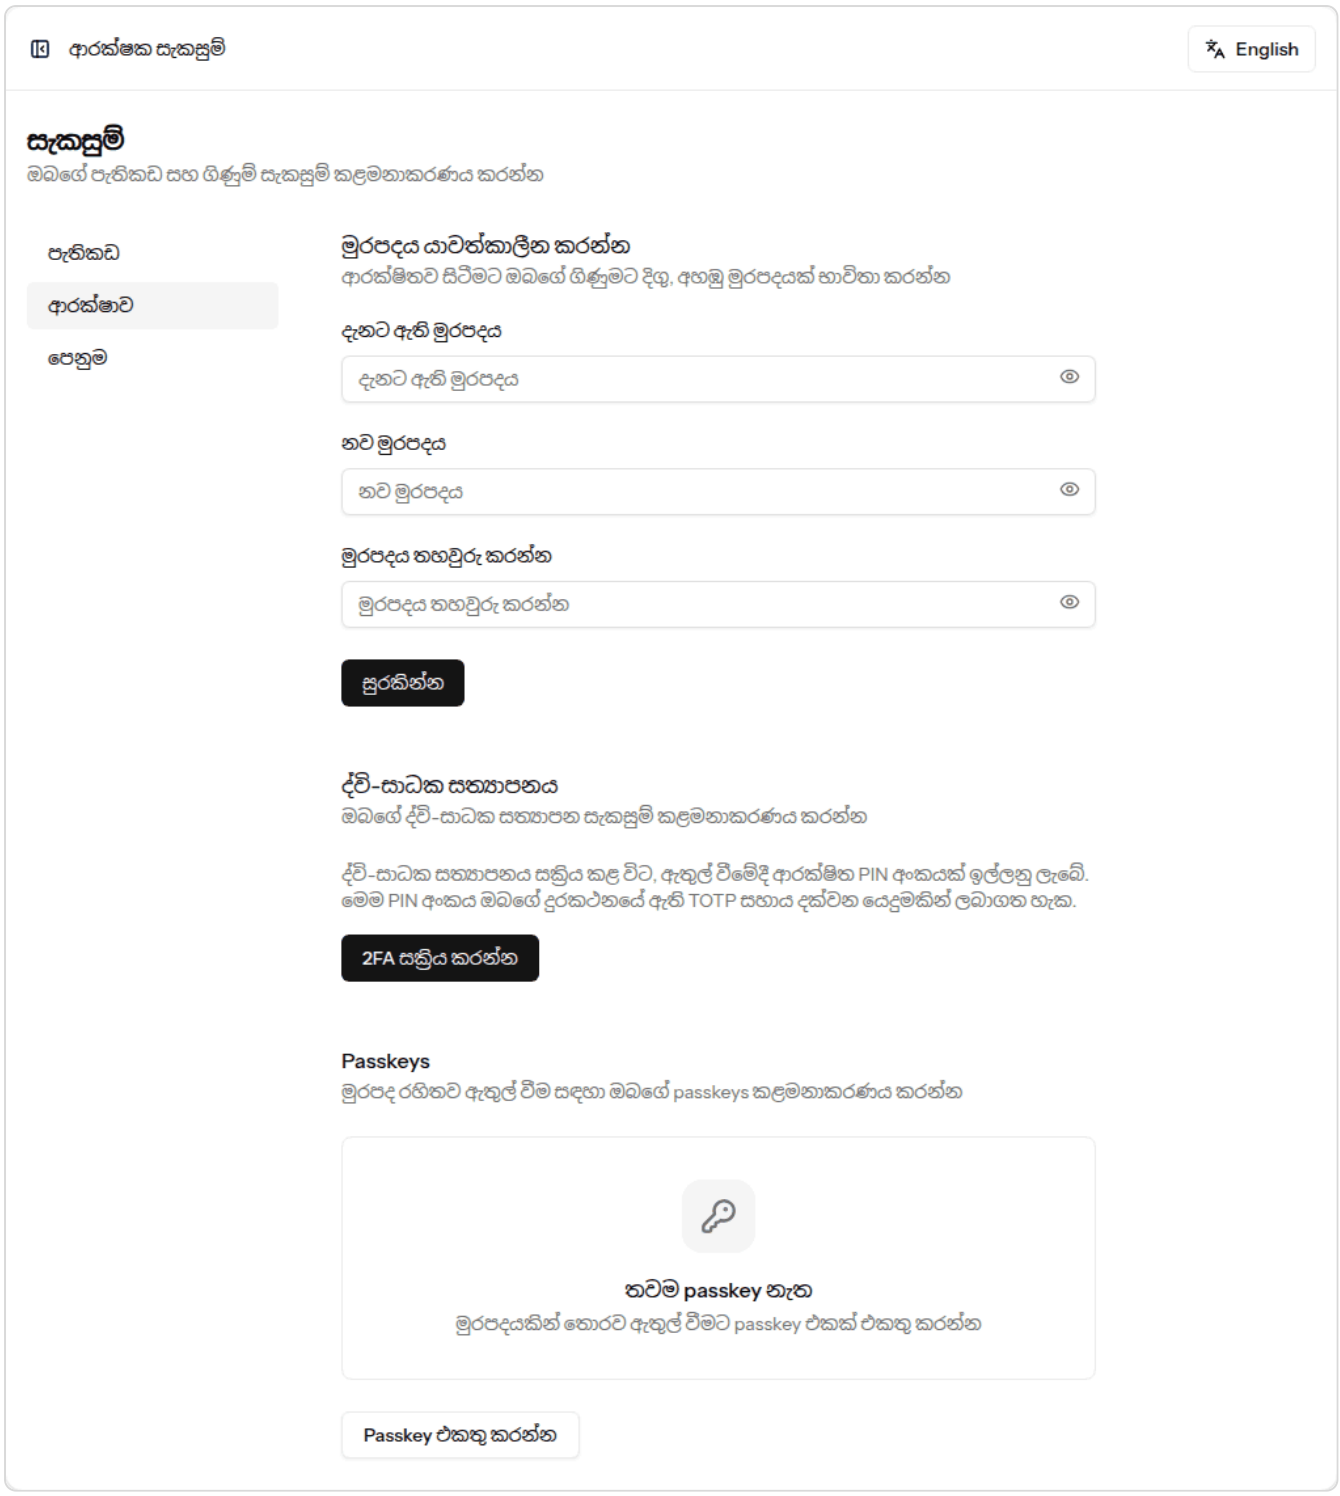

13.4 Passwords and two-factor sign-in / මුරපද සහ දෙස්තර ඇතුල් වීම

Each person manages their own security in **Settings** → **Security** (it asks for the current password first): / සෑම අයකුම **Settings** → **Security** හි:

- **Update password:** current password, new password twice, **Save**. / මුරපදය වෙනස් කිරීම.
- **Two-factor authentication: Enable 2FA**, scan the code with an authenticator app on your phone, then type the 6-digit code it shows. After that, signing in also asks for a code from the phone. Recommended for the owner and the accountant. Keep the recovery codes somewhere safe. / දුරකථනයේ යෙදුමකින් කේතයක් — හිමිකරු සහ ගණකාධිකාරීට නිර්දේශ කෙරේ.
- **Passkeys: Add passkey** to sign in with the device's fingerprint or PIN instead of a password. / ඇඟිලි සලකුණු හෝ PIN එකෙන් ඇතුල් වීම.

සිංහලෙන් / In Sinhala

> **Forgotten password:** the administrator cannot see or reset passwords from the screens, and there is no email reset. The person who installed the system can set a new one on the server. / මුරපදය අමතක නම් පද්ධතිය ස්ථාපනය කළ අය වෙත යන්න.

Never share an account. Every record shows who made it, which only works if each person signs in as themselves. / ගිණුම් බෙදා නොගන්න.

14. Installing, updating and backups (IT person) / ස්ථාපනය, යාවත්කාලීන කිරීම සහ උපස්ථ

The system runs on one **server computer** with Ubuntu. Every other PC, tablet and phone only needs a web browser. One file, **coconut-erp.sh**, both installs and updates it. / පද්ධතිය Ubuntu සේවාදායක පරිගණකයක ක්‍රියාත්මක වේ; **coconut-erp.sh** ගොනුව ස්ථාපනය සහ යාවත්කාලීන කිරීම දෙකම කරයි.

14.1 First installation / පළමු ස්ථාපනය

1. On the server, open a **Terminal** and download the file (or copy it from a USB drive): / Terminal එකක් විවෘත කර ගොනුව බාගත කරන්න:

```
wget https://raw.githubusercontent.com/chathurangakr/test-erp/main/deploy/coconut-erp.sh
```

2. Run it as your normal Ubuntu user (not with sudo): / සාමාන්‍ය පරිශීලකයා ලෙස ධාවනය කරන්න:

```
bash coconut-erp.sh
```

3. Type this computer's password when asked. It is the only question. / ඉල්ලූ විට පරිගණකයේ මුරපදය දමන්න — එකම ප්‍රශ්නය එයයි.

4. Wait 10–20 minutes (it needs the internet). It installs everything, then prints the **address** to open, the administrator's **sign-in email** and **password**. Write them down, sign in, and change the email and password (Chapter 13). / විනාඩි 10–20 ක් රැඳී සිටින්න; අවසානයේ පෙන්වන ලිපිනය, email සහ මුරපදය ලියා තබා ගන්න.

5. A **Coconut ERP** icon now appears in **Show Apps** on the server. Right-click it and choose **Pin to Dash** to keep it handy. / Show Apps හි **Coconut ERP** අයිකනය පෙනේ.

> Ask your IT person to give the server a **fixed address** on the factory network (in the router), so the address on the other devices never changes. / සේවාදායකයට ස්ථිර ලිපිනයක් (fixed IP) ලබා දෙන්න.

14.2 Updating / යාවත්කාලීන කිරීම

When the developer says a new version is ready, outside working hours: / නව අනුවාදයක් සූදානම් නම්, වැඩ වේලාවෙන් පිටත:

1. Ask everyone to save their work. / සියලු දෙනාට වැඩ සුරැකීමට කියන්න.

2. On the server, open a Terminal and type: / සේවාදායකයේ Terminal එකේ ටයිප් කරන්න:

```
bash ~/coconut-erp/deploy/coconut-erp.sh
```

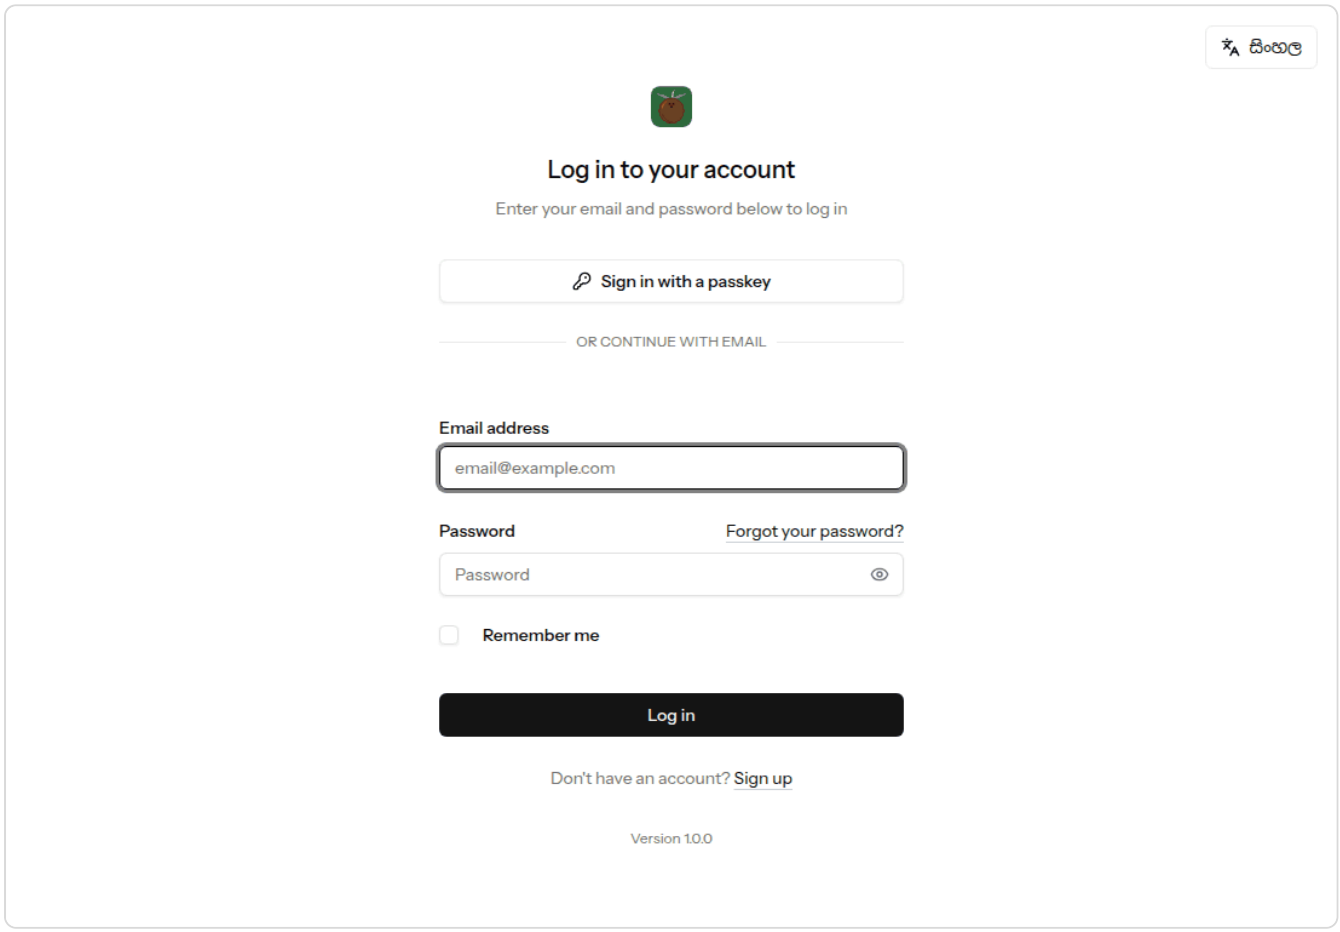

3. It asks nothing: it **backs up the database first**, downloads the new version, installs it and restarts. It ends with **The Coconut Factory ERP is installed.** / එය මුලින්ම උපස්ථයක් සාදා නව අනුවාදය ස්ථාපනය කරයි.

4. Everyone presses **F5** in their browser. / සියලු දෙනා **F5** ඔබන්න.

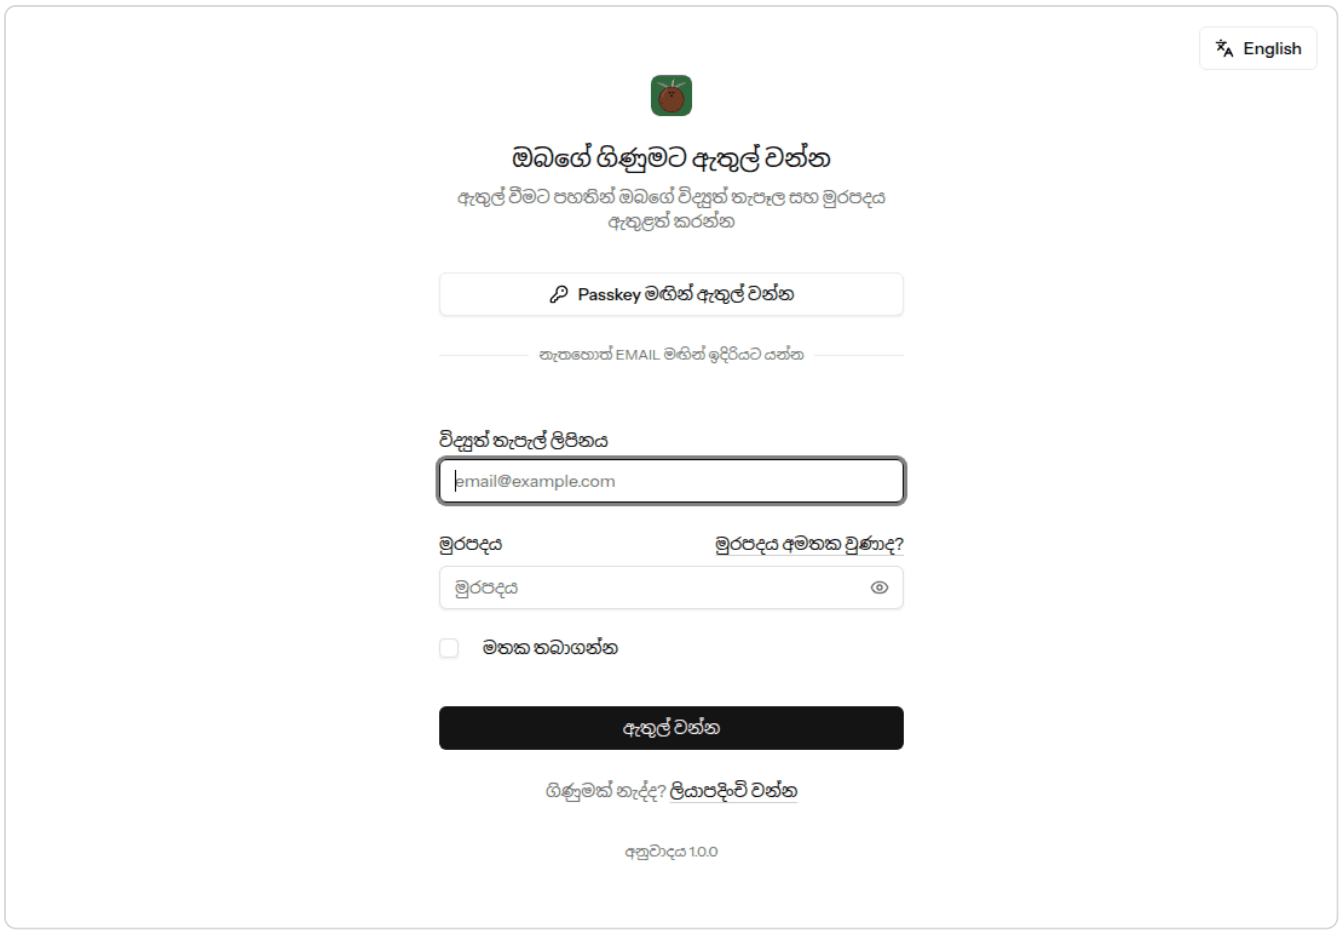

- **If the computer's password was changed**, it asks once for the new one. / පරිගණක මුරපදය වෙනස් කළේ නම් එය එක් වරක් ඉල්ලයි.
- **A red ERROR** means the update stopped and nothing was lost. Send a photo of the message to the developer. / රතු ERROR — කිසිවක් නැති නොවේ; කරුණාකර ඡායාරූපයක් යවන්න.
- The computer's password is kept in `~/coconut-erp/deploy/provision.env`, readable only by that Ubuntu account. Keep that account's own password safe. / මුරපදය එම ගිණුමට පමණක් කියවිය හැකි ගොනුවක තබා ඇත.

14.3 Which version is running / ධාවනය වන අනුවාදය

Every release of the system has a version number, for example **1.2.0**. It is shown in small grey text **under your name at the bottom of the menu** and **at the bottom of the sign-in page**. / පද්ධතියේ සෑම නිකුතුවකටම අනුවාද අංකයක් ඇත (උදා: **1.2.0**). එය **මෙනුවේ පහළින් ඔබගේ නම යටත** සහ **ඇතුල් වීමේ තිරයේ පහළින්** පෙනේ.

සිංහලෙන් / In Sinhala

- **What the numbers mean:** the last number goes up for fixes (1.0.0 → 1.0.1), the middle number for new features (1.0.0 → 1.1.0). / අවසාන අංකය නිවැරදි කිරීම් සඳහා, මැද අංකය නව විශේෂාංග සඳහා වැඩි වේ.
- **After an update** the Terminal ends with **Updated from 1.1.0 to 1.2.0**, or **Already up to date** when there was nothing new. A first installation ends with **The Coconut Factory ERP is installed (version 1.2.0)**. / යාවත්කාලීන කළ පසු එය පෙර සහ නව අනුවාද අංක පෙන්වයි.
- **Is this computer up to date?** Compare the number at the bottom of the menu with the one the developer announced. If it is lower, run the update (14.2). / අංකය අඩු නම් යාවත්කාලීන කරන්න (14.2).
- **What changed:** each version's changes are listed in the developer's "What's new" list (the CHANGELOG file). When asking for help, always say which version you have. / උදව් ඉල්ලීමේදී ඔබගේ අනුවාද අංකය පවසන්න.

What's new by version / අනුවාද අනුව නව දේ

Version	Released	What changed / වෙනස් වූ දේ
1.2.0	16 Oct 2026	Ready for the phone app: work recorded on a phone without internet is added when the phone is back on wifi, **once only** (7.6). / අන්තර්ජාලය නොමැතිව දුරකථනයේ සටහන් කළ වැඩ, දුරකථනය wifi වෙත සම්බන්ධ වූ විට **එක් වරක් පමණක්** පද්ධතියට එක් වේ (7.6).

Version	Released	What changed / වෙනස් වූ දේ
1.1.0	15 Oct 2026	Can run on a cloud server (such as Oracle Cloud's free server) and be opened from anywhere at `https://<IP address>`. / cloud සේවාදායකයක ධාවනය කර, ඕනෑම තැනක සිට විවෘත කළ හැක.
1.0.1	15 Oct 2026	The user guide and this manual are included as PDFs on every installation, in `~/coconut-erp/docs/manuals/`. / මාර්ගෝපදේශය සහ මෙම අත්පොත PDF ලෙස ඇතුළත් වේ.
1.0.0	15 Oct 2026	First numbered release: everything built so far, the start page with shortcuts and the version shown on screen. / පළමු අංකිත නිකුතුව.

14.4 Backups / උපස්ථ

- The database is backed up **automatically every night at 2:30 am** into `/var/backups/coconut-erp` on the server, and old backups are kept for 30 days. Every update also makes one first. / සෑම රාත්‍රියකම පෙ.ව. 2:30 ට ස්වයංක්‍රීය උපස්ථයක් සෑදේ.
- **Copy that folder to a USB drive or another computer every week.** A backup kept only on the server is lost if the server breaks. / **සතිපතා එම ෆෝල්ඩරය USB එකකට පිටපත් කරන්න.**
- **Keep the server switched on** and connected to the factory network. If it is off, nobody can use the system and the nightly backup does not run. / සේවාදායකය සැමවිටම ක්‍රියාත්මකව තබන්න.
- Restoring a backup is a job for the developer: call them rather than trying it yourself. / උපස්ථයකින් ප්‍රතිස්ථාපනය කිරීම සංවර්ධකයාගේ කාර්යයකි.

15. Troubleshooting and glossary / ගැටළු විසඳීම සහ වාචක මාලාව

15.1 When something is refused / යමක් ප්‍රතික්ෂේප වූ විට

A refusal is shown in red beside the field or at the top of the page. **When a document is refused, nothing at all is saved or changed**: fix the cause and try again. / ප්‍රතික්ෂේප වූ විට කිසිවක් සුරැකෙන්නේ නැත; හේතුව නිවැරදි කර නැවත උත්සාහ කරන්න.

What you see / පෙනෙන්නේ	Why, and what to do / හේතුව සහ කළ යුත්ත
The browser says the connection is not private	Normal the first time on a device. Choose **Advanced** → **Continue**. / පළමු වතාවේ සාමාන්‍යයි.
The system does not open at all	Is the device on the factory Wi-Fi, is the server switched on, is the address right? / Wi-Fi, සේවාදායකය සහ ලිපිනය පරීක්ෂා කරන්න.
A menu item or simple-mode job is missing	Your role does not include it. Ask the administrator (Chapter 13). / ඔබගේ භූමිකාවට ඇතුළත් නැත.
Not enough stock	The receipt or production run that brings the stock is not posted yet, or it is in another warehouse. Check **Stock on Hand**. / තොගය මදිය; පවතින තොගය බලන්න.
Raw Husks Used is required, or not enough raw husk	Chips and cocopeat need the number of husks used, and that many must be in stock in that warehouse. / අමු ලෙලි ගණන දමා, තොගය ඇතිදැයි බලන්න.
A lot must be chosen	Copra and shell leave by lot: pick the lot on the delivery line. / කාණ්ඩය තෝරන්න.
An amount is refused for its decimals	Money takes at most 2 decimals; counts (NOS) are whole numbers; KG and L up to 3 decimals. / මුදල් දශම 2, ගණන පූර්ණ සංඛ්‍යා.
No open fiscal period / the period is closed	The accountant opens the period for that date (Chapter 8). / ගණකාධිකාරී කාලපරිච්ඡේදය විවෘත කරයි.
The product has no accounts (not mapped)	The accountant maps it in **Accounting Setup** (Chapter 8). / ගණුම් සකසන්න.
Reverse is refused	The goods were already used, sold or invoiced, or a payment is allocated. Reverse the later document first. / පසු ලේඛනය මුලින් ආපසු හරවන්න.
Payment or receipt: the difference is not 0.00	Allocate the whole amount to invoices; advances are not supported. / මුළු මුදලම ඉන්වොයිසි වලට බෙදන්න.
Cash must use a cash account (or cheque a bank account)	Match **Paid by** to the account: cash with Cash on Hand, cheque or transfer with a bank. / ගෙවීමේ ආකාරයට ගැලපෙන ගණුම තෝරන්න.
Wrong figure after Post / Done	Ask the office to **Reverse** it, then enter it again. / ආපසු හරවා නැවත ඇතුළත් කරන්න.
Forgotten password	The person who installed the system sets a new one (Chapter 13). / ස්ථාපනය කළ අය වෙත යන්න.

15.2 Glossary / වාචක මාලාව

English	සිංහල	Meaning
Draft	කෙටුම්පත	Saved but not final; changes nothing yet
Approve	අනුමත කරන්න	Agree an order; it can no longer be edited
Post	සටහන් කරන්න	Make a document final: stock and accounts change
Reverse	ආපසු හරවන්න	Undo a posted document with an exact opposite entry
Cancel	අවලංගු කරන්න	Drop a draft (or an unused order)
Purchase order (PO)	මිලදී ගැනීමේ ඇණවුම	What was ordered from a supplier
Goods receipt (GRN)	භාණ්ඩ ලැබීම	What arrived; adds stock
Landed costs	ගොඩබෑමේ පිරිවැය	Transport, loading and other costs added to goods
Sales order (SO)	විකුණුම් ඇණවුම	What a customer ordered
Delivery (DN)	භාණ්ඩ යැවීම	What left the factory; takes stock out
Raw husks used	භාවිතා කළ අමු ලෙලි	Husks that went into delivered chips or cocopeat
Lot	කාණ්ඩය	A batch of copra or shell, traced to its run
Stock on hand	පවතින තොගය	What is in the warehouse now
Average cost	සාමාන්‍ය පිරිවැය	The blended cost of one unit of a product
Cost of goods sold (COGS)	විකුණූ භාණ්ඩවල පිරිවැය	What the delivered goods cost the factory
Gross profit	දළ ලාභය	Sales value less cost of goods sold
Supplier invoice	සැපයුම්කරු ඉන්වොයිසිය	A supplier's bill; what you owe
GRNI	බිල් නොලැබුණු භාණ්ඩ	Goods received whose bill has not come yet
Sales invoice	විකුණුම් ඉන්වොයිසිය	The customer's bill; what they owe
Customer receipt	පාරිභෝගික ලැබීම් පත	Money received from a customer
Expense voucher	වියදම් වවුචරය	An expense paid on the spot
Fund transfer	අරමුදල් මාරුව	Money moved between cash and bank
Fiscal period	මූල්‍ය කාලපරිච්ඡේදය	A month the books are kept in
Journal	ජර්නල් සටහන	An accounting entry: debits equal credits
Debit / Credit	හර / බැර	The two sides of every entry
Aging	කාල විශ්ලේෂණය	Money owed, split by how overdue it is
